Please consider including Ninos Parkway in the plan, as it is a long trail that would align with the performance targets delineated in the plan, especially Environmental Justice and Safety. Thank you.

I would like to request that the Nino's Parkway in South Natomas be added to the Trails Strategic Development Plan. It is a 2.5 mile parkway used by many people in the community every day. It connects several area schools and had community gardens on the South end. Thank-you.

Please add Nino's Parkway in the Gardenland/Northgate neighborhood of South Natomas in D3 to the map of trails. If it is a fully paved trail that runs the length of the community connecting parks and schools, as well as neighbors. The Natomas Garden and Arts Collective just received a "Shine" grant from SMUD to start a pollinator garden adjacent to the community garden and Ninos Park. The trail could really be improved, and I'm sure use would increase, if safe pedestrian-activated crossings were added on W. El Camino and San Juan Rd. where the bike trail crosses. Thank you.
