***SPECIAL NOTE THE SHELTERS AND HOTELS NEED TO STOP ABUSING SERVICE ANIMAL RIGHTS. THE DOGS ARE DOGS THEY ARE GOING TO BARK.**

Stop violating people's rights because they do not have a home, you are spending money on things that allow others to pursue happiness.

THE POOR PEOPLE'S CAMPAIGN will continue!

We demand that you stop using the police to bully people. "Give us your blanket or go to jail"-this is what you promote? There are no housing options, there is no room in the shelters-taking the little property they have will not get them into a house. How dare you do this to the people you are supposed to represent! How dare you say you are for us! You are against us!

In December 1967, Dr. King had announced a new campaign, to bring attention to issues faced by poor Americans of all backgrounds. He envisioned a march on Washington and a campaign of massive civil disobedience to demand jobs, housing and education. In order to achieve this, King called for a "new and unsettling force," a multi-racial "nonviolent army of the poor, a freedom church of the poor." In his last Sunday sermon, he preached:

We are coming to Washington in a poor people's campaign. Yes, we are going to bring the tired, the poor, the huddled masses ... We are coming to demand that the government address itself to the problem of poverty. We read one day: We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain inalienable rights. That among these are life, liberty, and the pursuit of happiness. But if a man doesn't have a job or an income, he has neither life nor liberty nor the possibility for the pursuit of happiness. He merely exists ... We are coming to ask America to be true to the huge promissory note that it signed years ago. And we are coming to engage in dramatic non-violent action, to call attention to the gulf between promise and fulfillment; to make the invisible visible.

*SPECIAL NOTE THE SHELTERS AND HOTELS NEED TO STOP ABUSING SERVICE ANIMAL RIGHTS. THE DOGS ARE DOGS THEY ARE GOING TO BARK.

Stop violating people's rights because they do not have a home, you are spending money on things that allow others to pursue happiness.

THE POOR PEOPLE'S CAMPAIGN will continue!

We demand that you stop using the police to bully people. "Give us your blanket or go to jail"-this is what you

promote? There are no housing options, there is no room in the shelters-taking the little property they have will not get them into a house. How dare you do this to the people you are supposed to represent! How dare you say you are for us! You are against us!

In December 1967, Dr. King had announced a new campaign, to bring attention to issues faced by poor Americans of all backgrounds. He envisioned a march on Washington and a campaign of massive civil disobedience to demand jobs, housing and education. In order to achieve this, King called for a “new and unsettling force,” a multi-racial “nonviolent army of the poor, a freedom church of the poor.” In his last Sunday sermon, he preached:

We are coming to Washington in a poor people’s campaign. Yes, we are going to bring the tired, the poor, the huddled masses ... We are coming to demand that the government address itself to the problem of poverty. We read one day: We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain inalienable rights. That among these are life, liberty, and the pursuit of happiness. But if a man doesn’t have a job or an income, he has neither life nor liberty nor the possibility for the pursuit of happiness. He merely exists ... We are coming to ask America to be true to the huge promissory note that it signed years ago. And we are coming to engage in dramatic non-violent action, to call attention to the gulf between promise and fulfillment; to make the invisible visible.

Submitted At: 1:51pm 01-14-25

I'm curious as to why the City received only one bid for this project out of potentially 393 vendors and 12 bid views (a 3% viewing rate and 8% bid response rate after viewing per your own documentation).

This is concerning for a few reasons. I hope that going forward the City can get more than one bid to ensure that city residents are paying for the most technically sound and fiscally responsible maintenance and repairs going forward.

Correspondence received by the City Clerk's Office

The SOL Project

Location:

Submitted At: 12:31pm 01-14-25

The SOL Project is grateful for Sacramento's leadership on public health issues and its initial efforts to ban menthol and flavored tobacco in 2018—one of the strongest policies in the state at the time. However, we are concerned that the “healthy food” exemption, adopted in 2020, has unintentionally undermined these efforts. The exemption has not increased access to healthy food in designated food deserts as intended. Instead, it has allowed 27 retailers—many not located in food deserts—to regain tobacco retail licenses. Since 2018, a total of 71 new licenses have been issued. According to the California Department of Tax and Fee Administration, there are now 346 tobacco retailers in Sacramento, with 20.5% located within 1,000 feet of a school. This trend is alarming and counterproductive to reducing access to tobacco products in our community.

The exemption has also created enforcement challenges. It requires code enforcement to measure store space to verify compliance, which varies by location. The lack of a clear definition for “healthy, fresh food” has lowered the standard for what qualifies and opened loopholes for retailers to reinstate licenses or obtain new ones in areas that are not food deserts.

Blythe Young

Location:

Submitted At: 4:54pm 01-13-25

Dear Mayor and Council Members:

My name is Blythe Young, I am a Community Advocacy Director for The American Heart Association and a Sacramento Resident. The American Heart Association supports strengthening the City of Sacramento's Tobacco Retail License Ordinance through the removal of the “healthy food exemption” and considering additional best practice elements. To achieve the City's goal of reducing tobacco use, it is vital to close this loophole that has allowed for an increase in the number of retailers and has no clear definition of “healthy food”. Further strengthening of this policy will reduce access to the products that are the tobacco industry's key strategy for targeting and addicting new smokers, Sacramento's youth.

While Sacramento was a leader in 2018 with the passage of a Tobacco Retail License, the policy could be strengthened to 2025 standards by including: a minimum of one codified compliance inspection per year; a fee that covers the full enforcement costs for annual compliance inspections; an explicit statement that the owner/operator is responsible for any monetary fines; an explicit statement that individuals will not be punished for purchase, use or possession.

Cigarette smoking remains the leading cause of preventable disease and death in the United States, claiming on average 480,000 lives each year. Evidence shows that smoking increases the risk for heart disease and stroke. It increases the risk for blood clots, decreases the ability to exercise, and decreases the good cholesterol in our bodies. The best way to prevent tobacco-related illness and death is to prevent people from starting to smoke in the first place.

Closing the loophole created by the “healthy food exemption” and considering additional elements to strengthen the TRL will help protect our community from tobacco addiction and is crucial to preventing tobacco-related death and disease. The American Heart Association respectfully asks for your support of this vital amendment.

Sincerely, Blythe

Karina Garcia Huckabay

***SPECIAL NOTE THE SHELTERS AND HOTELS NEED TO STOP ABUSING SERVICE ANIMAL RIGHTS. THE DOGS ARE DOGS THEY ARE GOING TO BARK.**

Stop violating people's rights because they do not have a home, you are spending money on things that allow others to pursue happiness.

THE POOR PEOPLE'S CAMPAIGN will continue!

We demand that you stop using the police to bully people. "Give us your blanket or go to jail"-this is what you promote? There are no housing options, there is no room in the shelters-taking the little property they have will not get them into a house. How dare you do this to the people you are supposed to represent! How dare you say you are for us! You are against us!

In December 1967, Dr. King had announced a new campaign, to bring attention to issues faced by poor Americans of all backgrounds. He envisioned a march on Washington and a campaign of massive civil disobedience to demand jobs, housing and education. In order to achieve this, King called for a "new and unsettling force," a multi-racial "nonviolent army of the poor, a freedom church of the poor." In his last Sunday sermon, he preached:

We are coming to Washington in a poor people's campaign. Yes, we are going to bring the tired, the poor, the huddled masses ... We are coming to demand that the government address itself to the problem of poverty. We read one day: We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain inalienable rights. That among these are life, liberty, and the pursuit of happiness. But if a man doesn't have a job or an income, he has neither life nor liberty nor the possibility for the pursuit of happiness. He merely exists ... We are coming to ask America to be true to the huge promissory note that it signed years ago. And we are coming to engage in dramatic non-violent action, to call attention to the gulf between promise and fulfillment; to make the invisible visible.

If the City Council wants to be fiscally prudent, they will vote "NO" on this pay package.

There is no reason that a City Manager of the City of Sacramento should be making \$352,000 a year. A more modest salary of \$200,000 would be more than adequate. But looking at public pay records, that would be a decrease in salary which is a separate conversation regarding non-represented staff compensation and benefits while the city faces structural deficits for the foreseeable future.

Why does Section (1)(2) stipulate that the interim City Manager is allowed to accrue more than 480 hours of vacation time? With a \$66 million deficit, it does not make sense that someone making \$169 an hour (\$352,000 / 2080 working hours) needs to accrue more than 12 weeks of vacation time. Are city staff allowed to accrue more than 480 hours of vacation time? Will the interim City Manager be cashing out that time? What is the projected fiscal impact of allowing the interim City Manager to do so?

Last but not least, it's very interesting to see the City Council will hold this meeting and specifically this agenda item during a 2 PM meeting. You know that 99% of residents cannot and will not attend this, you can pass this pay package through with flying colors, and make the 6 o'clock news on KCRA3 without any reports of citizens objecting in person. Bravo City Council. Mayor McCarty said that the voters wanted something new, but this appears to be the same old tricks of the previous City Council.

The 2024-25 budget stated that EV charging would no longer be free at City-owned parking garages and lots. There is still free EV charging at numerous locations, for example the North Natomas Aquatics Center.

Furthermore, there are a good number of charging stations that are broken. If the city had implemented a fee structure by now, it could have paid for, at least, some of these necessary repairs.

It has been over 6 months since that budget passed and little to no action has been taken. Let's allow EV drivers to pay for charging so that the city can adequately maintain these important charging facilities.

GREATER SACRAMENTO
SMOKE & TOBACCO FREE
COALITION

Re: Updating the Tobacco Retail License Policy and removing the “Healthy Food” exemption

Dear Mayor McCarty, Vice Mayor Maple and Council Members,

The Greater Sacramento Smoke and Tobacco Free Coalition supports updating the Tobacco Retail Licensing (TRL) policy and removing the healthy food exemption.

Sacramento City Code 5.138.040 (B)(2) provides an exemption to the 1,000-ft density requirement to “a licensee that devotes no more than 5% of total shelf space to tobacco product and at least 10% of shelf space to fresh or healthy food.” This exemption is a burden to code enforcement who are required to measure store space to determine if the law is being met at each unique location. Additionally, what constitutes a “healthy, fresh food” has not been defined, creating a loophole for retailers to reinstate expired or terminated licenses or obtain new licenses in non-food desert areas.

The initial adoption of the menthol and flavored tobacco ban in 2018 was a huge step in protecting our community from the harms of commercial tobacco products. Unfortunately, the adoption of a “healthy food” exemption in 2020 did not increase access to healthy food within designated food deserts as intended, and as a result of this loophole, 27 retailers used the exemption to gain their tobacco retail licenses – notably, many of these are not located in food deserts. Additionally, 44 retailers have also received licenses for a total of 71 new retailers since 2018. According to the California Department of Tax and Fee Administration, there are 346 tobacco retailers, and 20.5% are located within 1,000 feet of a school. With this increase, Sacramento is headed in the wrong direction for eliminating access to tobacco and nicotine products.

To ensure that the TRL ordinance works as originally intended and to decrease the amount of tobacco products accessible to community members, particularly to youth and other vulnerable populations, we urge this Council to remove the healthy food exemption, in its entirety, from city code.

Thank you for your ongoing commitment and leadership to create healthy communities in Sacramento. The Coalition is happy to assist the City with any ongoing improvements to the TRL program such as phasing out the sale of tobacco, ensuring adequate licensing fees for enforcement and clean up of tobacco waste, and making licenses non-transferable to reduce retailer density.

Sincerely,

Marissa Bashore, MPH, CHES
Coalition Chairperson

www.heart.org

Dear Mayor and City Council,

The American Heart Association supports strengthening the City of Sacramento's Tobacco Retail License Ordinance through the removal of the "healthy food exemption" and considering additional best practice elements. Further strengthening of this policy will reduce access to the products that are the tobacco industry's key strategy for targeting and addicting new smokers, Sacramento's youth.

While Sacramento was a leader in 2018 with the passage of a Tobacco Retail License, the policy could be strengthened to 2025 standards by including: a minimum of one codified compliance inspection per year; a fee that covers the full enforcement costs for annual compliance inspections; an explicit statement that the owner/operator is responsible for any monetary fines; an explicit statement that individuals will not be punished for purchase, use or possession.

Cigarette smoking remains the leading cause of preventable disease and death in the United States, claiming on average 480,000 lives each year. Evidence shows that smoking increases the risk for heart disease and stroke. It increases the risk for blood clots, decreases the ability to exercise, and decreases the good cholesterol in our bodies. The best way to prevent tobacco-related illness and death is to prevent people from starting to smoke in the first place.

Closing the loophole created by the "healthy food exemption" and considering additional elements to strengthen the TRL will help protect our community from tobacco addiction and is crucial to preventing tobacco-related death and disease. The American Heart Association respectfully asks for your support of this vital amendment.

Sincerely,

A handwritten signature in blue ink that reads "Blythe Young".

Sacramento, CA 95814

Item #22: Report to Council Following the Modifications of Sections 5.138.040 and 5.138.060 of Sacramento City Code Relating to Tobacco Retailer Licensing

Dear Mayor Kevin McCarty, Vice Mayor Caity Maple, and Council Members,

The SOL Project is grateful for Sacramento’s leadership on public health issues and its initial efforts to ban menthol and flavored tobacco in 2018—one of the strongest policies in the state at the time. However, we are concerned that the “healthy food” exemption, adopted in 2020, has unintentionally undermined these efforts. The exemption has not increased access to healthy food in designated food deserts as intended. Instead, it has allowed 27 retailers—many not located in food deserts—to regain tobacco retail licenses. Since 2018, a total of 71 new licenses have been issued. According to the California Department of Tax and Fee Administration, there are now 346 tobacco retailers in Sacramento, with 20.5% located within 1,000 feet of a school. This trend is alarming and counterproductive to reducing access to tobacco products in our community.

The exemption has also created enforcement challenges. It requires code enforcement to measure store space to verify compliance, which varies by location. The lack of a clear definition for “healthy, fresh food” has lowered the standard for what qualifies and opened loopholes for retailers to reinstate licenses or obtain new ones in areas that are not food deserts.

To protect the health of our community, especially our youth and vulnerable populations, best practices for tobacco control include:

- 1. Phasing out the Sale of All Commercial Tobacco Products, Including Vapes in the next 3 to 5 years**
Cities like Beverly Hills and Manhattan Beach have ended the sale of all tobacco products, setting a precedent for bold public health action. Sacramento deserves the same protections. Tobacco remains the leading cause of preventable disease and death, and eliminating its availability can save lives.
- 2. Removing the Healthy Food Exemption**
The exemption in City Code 5.138.040(B)(2) has been ineffective and burdensome to enforce. Its removal would close loopholes that allow retailers to bypass density requirements and re-enter the market under dubious qualifications.
- 3. Ensuring Adequate TRL Fees for Enforcement**
Adequate annual licensing fees are essential to cover the costs of inspections and compliance checks, ensuring the program is sustainable without burdening taxpayers.
- 4. Including Fees for Tobacco Waste Mitigation**
Tobacco waste, including cigarette butts and vape devices, contributes to pollution and public health risks. Increasing licensing fees to fund clean-up programs and public education campaigns can help address this issue.

5. **Making TRLs Non-Transferable**

Non-transferable licenses can help reduce tobacco retailer density over time. Research shows that lower retailer density correlates with lower smoking rates, especially among youth and vulnerable populations.

6. **Supporting Code Enforcement with a Unified Protocol**

Cities like Los Angeles and San Francisco have comprehensive protocols for enforcing flavored tobacco bans. Sacramento's code enforcement team would benefit from similar tools to ensure clear, consistent regulations and effective enforcement.

Sacramento has an opportunity to lead once again by prioritizing public health and taking bold action to reduce tobacco-related harm. We urge you to protect the health of Sacramento residents.

Thank you for your commitment to creating a healthier community.

Sincerely,

Sources & Methodologies

Licensed Tobacco Retailers: [California Department of Tax and Fee Administration \(CDTFA\) www.cdtfa.ca.gov/](http://www.cdtfa.ca.gov/). The map includes 29,481 retailers with valid addresses from a list of tobacco retail licenses obtained in 2023.

Adult Smoking Rates: [California Health Interview Survey \(CHIS\)](#). These statistics are point estimates and 95% confidence intervals for adult (18 yrs and older) current (past 30 day) smokers. Estimates are reported by county and statewide. Counties that are small in population size are computed by combining data from multiple counties, but are still reported per county. Grouped Counties:

- Alpine, Amador, Calaveras, Inyo, Mariposa, Mono, Tuolumne
- Colusa, Glenn, Tehama
- Del Norte, Lassen, Modoc, Plumas, Sierra, Siskiyou, Trinity
- Napa, Sonoma
- San Benito, Santa Cruz
- Santa Barbara, Ventura
- The remaining 35 counties estimates are county specific.

City, Designated Place, Zip Code Tabulation Area, Tract, Block Group: TIGER 2022

Parks and Open Space: California Protected Areas Database www.calands.org (CPAD 2022b), December 2022

Demographics for counties, cities, designated places, and ZCTAs were extracted from the Census API available from the Census Bureau. Distance measures for proximity of tobacco retailers and schools were calculated using ArcGIS Pro(2.7.2).

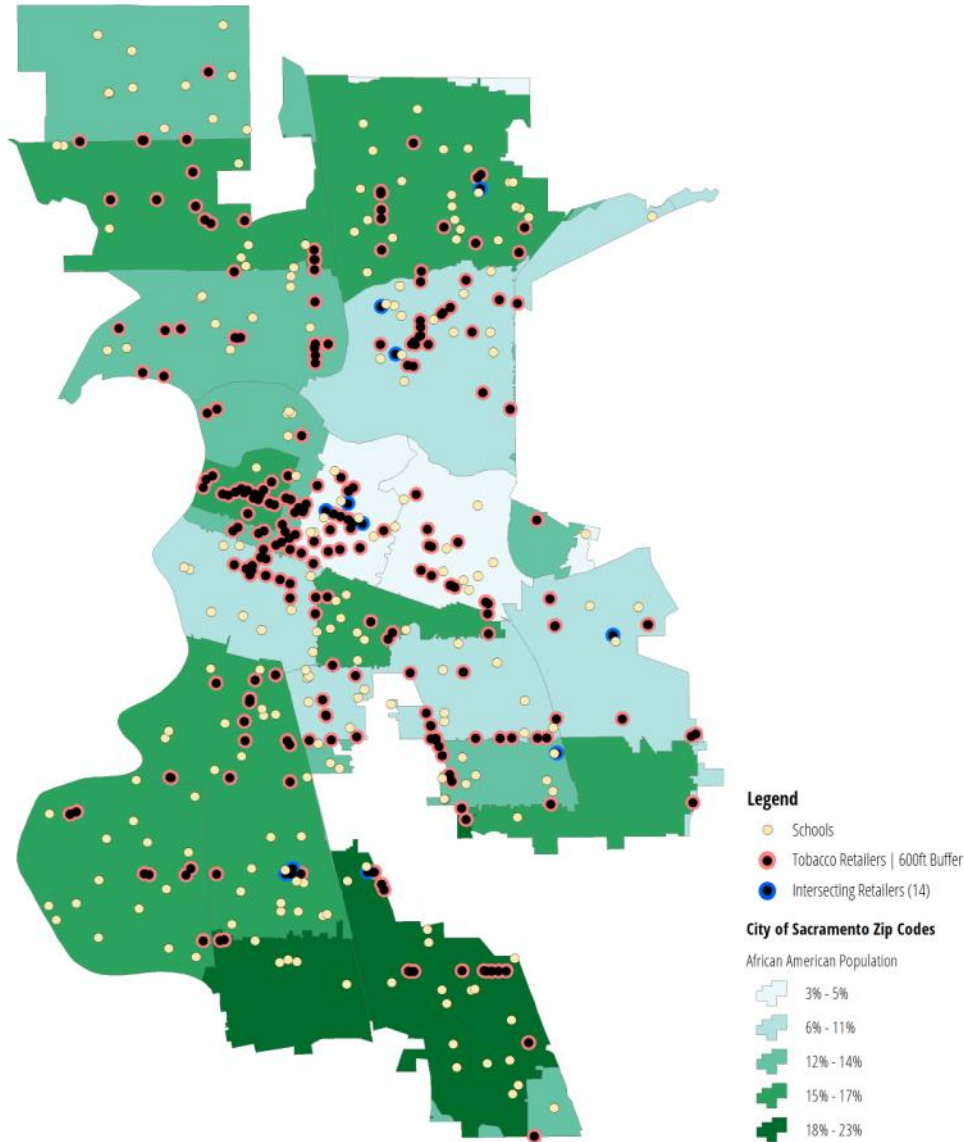

Demographics for school selections and half-mile buffers, are estimated based on the census block groups intersecting the displayed area. For statistics other than median household income, this is a weighted proportion based on the population of each block group and the area which intersects the block group. The income figure is the median of block groups with their centroid within the buffer. These data should be interpreted with caution.

ZIP Codes are mail routes and do not have an associated polygon geometry. ZCTAs are a generalized representation of service areas. More information and resources are available at: www.census.gov/programs-surveys/geography/guidance/geo-areas/zctas.html ZIP Codes are a trademark of the US Postal Service, ZIP Code Tabulation Areas are a trademark of the United States Census Bureau.

Re: Request Sacramento City Council Meeting Agenda Item
About SPD provided forgery investigation report for the death of my father Woon Kwong On &
City Manger and OPSA Director refused to investigate SPD &
Ethics Commission refused to investigate City Manger and OPSA Director (violate ethic code)

Dear Mayor and all Sacramento City Council Members,

Law enforcement provided forgery investigation reports is criminal activity and obstruction of justice. In 2-20-2024, my first public comment at Sacramento City Council meeting about SPD providing forgery reports for my father's death. **City Manager was there.** It has been almost one year but Sacramento City government is still not taking any action against SPD. Now, I still don't know who killed my father and don't have the statement from the person who killed my father. Below is the information about the incident.

Form SPD810 Sacramento Police Department Citizen Report Request: (see attached SPD810)

On 8-3-2023, SPD staff # 6204 filled out report numbers 99-83081 and 99-83121 on the SPD810 Form. On 8-18-2023, SPD staff # 6253 rejected the request with reason "Rpt/WC" and "WC Cantonese". In early September 2023, I picked up the form SPD810 at SPD HQ Record Office and I was given the forgery investigation report 99-83081. In May 2024, SPD Captain Brian Kinney emailed me the same forgery reports.

Forgery investigation report 99-83081: (see attached 99-83081)

Party 1, 2 and 3 are missing from the report. "#1 BOOKED" but Jone Soo Fong is "PARTY 4". SPD refused to present the report 99-83081 in front of the camera of Sacramento City Council Meeting.

I filed complaint to OPSA Director against SPD in May 2024 and to Ethics Commission against City Manger and OPSA Director in June 2024. Both City Manager and OPSA Director violated Sacramento City Code "4.02.030" "Break the public trust". However, Ethics Commission and City Clerk used "No jurisdiction" as a reason to dismiss my complaint. My father was killed in downtown Sacramento, I received the forgery reports from SPD staff inside SPD headquarters and the email from Captain Brian Kinney. Everything were happened inside Sacramento City, why Sacramento City has no jurisdiction for my complaint?

I have requested Sacramento City government to take action during the following meeting -

Sacramento City Council Meeting: 05-07-2024, 03-12-2024, 02-20-2024.

Sacramento City Law and Legislative Committee: 11-12-2024.

Sacramento City Ethics Commission: 10-28-2024, 09-23-2024, 06-24-2024.

Sacramento City Community Police Review Commission:

11-04-2024, 09-30-2024, 08-12-2024, 06-10-2024, 05-13-2024.

It justifies for me to request Sacramento City Council to put my complaint to the meeting agenda.

Please regard any obstruction of justice!
