Subject: Cap and the Budget
Date: Thursday, May 5, 2022 3:32:43 PM

It is imperative to act now on climate change to reduce the impact from temperature, fires, flooding and drought.

Climate change must be a budgeted item. Funding is needed for more staff positions to handle the load of work that must be done. The latest IPCC report vigorously states that action has to be taken now.

Matching available federal funding is paramount. This is a huge funding source for transportation projects already approved by the council. Please make sure that that your agenda reflects urgent budget needs for climate change..
