ROBERT W. JOHNSTON  
ASSISTANT MANAGER

March 22, 1982

City Council  
Sacramento, California

Honorable Members in Session:

**SUBJECT:** Approval of Plans and Specifications for Water Main Installations in 34th & 35th Avenues between 63rd & 64th Streets; 15th & 16th Avenues between 60th & 62nd Streets; 60th & 62nd Streets between 15th & 16th Avenues

### SUMMARY

The Division of Water and Sewers has prepared plans and specifications for the subject project. Copy of said plans and specifications has been forwarded to the City Clerk and approval is recommended.

### BACKGROUND

The water mains which serve this area were installed in the early 1950's and were made of thin-wall steel, which corrodes with time. During the last several years it has been necessary for City maintenance personnel to make an excessive number of repairs to these badly deteriorated mains. Because some of these mains were installed in back lot easements, our frequent repair visits have caused a considerable inconvenience to property owners. The water main should be replaced on new alignments in the existing streets.

### FINANCIAL DATA

This project is included in the Water Distribution Capital Improvement Budget, 4-13-3030 1590-4820. Estimated construction cost is \$82,000.

### RECOMMENDATION

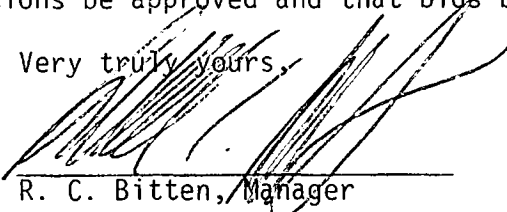

It is recommended that the plans and specifications be approved and that bids be received on April 20, 1982.

**APPROVED**  
BY THE CITY COUNCIL

MAR 30 1982

OFFICE OF THE  
CITY CLERK

Very truly yours,

  
R. C. Bitten, Manager

Recommend approval,

  
R. H. Parker, City Engineer

Recommendation approved:

  
Walter J. Slipe, City Manager
