MEMO TO: Councilman David Shore  
District 1

SUBJECT: Abel Chacon Request

At the request of you and Councilman Connelly (attached letter), staff has investigated the situation and finds that in 1975, picnic tables and benches were removed from the park because of complaints from residents in the area. The park was being used by undesirables who literally ran off the "legitimate", if you will, park users. Removal resulted in the dispersal of most of the undesirables but the "legitimates" returned. About a year later, benches and tables were re-installed. Almost immediately, the prior element returned. It became so bad that in September of 1977, they were again removed and again most of the undesirables left and the legitimate users returned.

Obviously, the lack of benches and tables does not entirely solve the problem but it certainly helps. However, there are five (5) permanent benches placed around the children's play area that are frequently used by the public for eating lunch or just lounging.

It is staff's recommendation that Mr. Chacon's request be denied because of past experience.
