Description/Analysis

Issue: Food Vending Vehicles (FVV) have been vending for prolonged periods of time on private property in the City of Sacramento. Various City codes are in conflict regarding this type of vending. The Law and Legislation Committee directed staff to do further research on the issue and work with the FVV Industry and bring recommendations back to the Committee. Additionally, the FVV code needs to be updated to provide better regulation and enforcement consistent with other business permit codes (i.e. taxicabs).

Staff requests the Law & Legislation Committee approve and forward the ordinance amending the Food Vending Vehicle code, which will impose the following changes:

- On the public right of way, a FVV may only operate during daylight hours and stop to vend for 30 minutes at a time, without moving to a new location at least 400 feet away. FVV cannot vend where the same FVV previously operated on the same day.
- Where operation is allowed on private property, the vendor must have the consent of the owner of the property, the operation of the FVV must only be an incidental use to the primary use of the property that complies with the zoning code, the parcel must not be vacant, and the surface must be paved with concrete, asphalt, or other similar material.
- Operation will be allowed in non-stand-alone parking facilities, but they cannot block any parking spaces required for the primary use of the property.
- On private property, the hours that FVV will be allowed to operate depends primarily on zoning:
 - In Residential or Open Space zoning districts, operation is prohibited.
 - In Commercial or Hospital Zoning Districts, a FVV may operate during daylight hours and for only 30 minutes at a time, without moving to a new location at least 400 feet away. A FVV cannot operate where the same FVV previously operated on the same day
 - In Heavy Commercial and Industrial Zoning Districts where the property is within 400 feet of a residence, FVV are treated the same as in a Commercial or Hospital Zoning District. A FVV may operate during daylight hours and for only 30 minutes at a time, without moving to a new location at least 400 feet away. A FVV cannot operate where the same FVV previously operated on the same day
 - In Heavy Commercial and Industrial Zoning Districts where the property is at least 400 feet away from all residences, FVV are allowed to operate 24 hours a day as long as the business located on the property is open.
 - On construction sites, FVV are allowed to operate during the hours that construction activity is taking place for the purpose of vending to the construction workers.
 - On stand-alone parking facilities, operation is prohibited.
- No signs, tables, chairs, fences, shade structures or other furniture are permitted near the site of the FVV.

- The FVV may not operate while connected to an external source of power, water or any other utilities.
- Vendors who have an established operation on private property since at least **January 1, 2006**, shall be exempt from the restrictions on Commercial or Hospital Zoning Districts and Heavy Commercial and Industrial Zoning Districts until March 31, 2013. These vendors will be allowed to operate between the hours of 5:00 a.m and 2:00 a.m.
- The exemption applies only as long as the FVV permit which it is related is continuously maintained and valid.
- A person who violates the provisions of this chapter is guilty of a misdemeanor.
- No person shall operate a FVV unless the FVV has a permit decal and an assigned identification number permanently posted on the exterior of the vehicle.
- Vehicle permit is automatically suspended if insurance expires or is otherwise invalid.
- Increase the liability insurance requirements for each vehicle to \$1 million dollars.
- Permits may be revoked upon a violation of Section 10.60.020 regarding the broadcasting of sound from the vehicle.

The State of California has completely revised its laws that are applicable to food vending vehicles. (S.B. 144, Stats. 2006, ch. 23.) These changes took effect on July 1, 2007. Staff has compared the new language to ensure the City Code is consistent with State law.

Policy Considerations: Food Vending Vehicles provide convenient food and beverage service to the residents and workers of all areas of the City of Sacramento. Establishing City code provisions which address contemporary needs and concerns, including reasonable regulations and requirements for operation of food vending vehicles and enhanced enforcement, benefits the public's health, safety and welfare while continuing to provide for a utilized service.

Environmental Considerations: The proposed project is exempt from CEQA because it does not have the potential for causing a significant effect on the environment (CEQA Guidelines-15061 (b) (3).)

Committee/Commission Action: The Law & Legislation Committee has reviewed this matter at two separate meetings (June 20, 2006 and April 3, 2007) giving staff direction to conduct a review of the current City Code provisions relating to Food Vending Vehicles and to provide recommendations to the Committee.

On June 20, 2006, there was an overwhelming response from customers who opposed staffs proposed recommendations. Staff was subsequently directed to form a Mobile Food Vending Task Force to be chaired by Council Member Sandy Sheedy.

On April 3, 2007 the Law & Legislative Committee directed staff to do more outreach and meet with David LeBeouf of Stockton who indicated he was an attorney representing other stakeholders of the mobile food vending industry that did not agree with all of the staff's recommendations. Staff was advised to revisit the issues and meet with Mr. LeBeouf and other mobile food vending stakeholders, and the meeting would be chaired by Council Member Lauren Hammond. Staff has met with Mr. LeBeouf and the stakeholders and makes the above recommendations to the Law and Legislation committee.

Rationale for Recommendation: Unregulated food vending from vehicles can result in threats to the health, safety, and welfare of the citizens of the City of Sacramento. Staff has found a public demand for prolonged vending on private property. With consistent regulation and enforcement, the health, safety, and welfare concerns can be mitigated.

Financial Considerations: The staff recommendations will not have a significant financial impact on the City's operating budget at this time. **Staff will bring a resolution to City Council to update the Food Vending Vehicle permit fees.**

Emerging Small Business Development (ESBD): There are no ESBD considerations as no goods or services are being purchased at this time. Staff will consult with the City's ESBD Advisory Committee and will report back at a later date.

Background Information

Food Vending Vehicles ("FVV") have been vending for prolonged periods of time on private property in the City of Sacramento. There are city codes that are in conflict regarding this type of vending. Chapters 5.68 and 5.88 of the Sacramento City Code, which control the operation of FVV (also referred to as mobile food coaches, lunch wagons and catering trucks), are unclear as it applies to prolonged vending on private property. The FVV code needs to be updated to provide better regulation and enforcement consistent with other business permit codes (i.e. taxicabs).

Staff has been working with the Law & Legislation Committee ("the Committee"), the FVV stakeholders, and the community since 2002. From the aforementioned meetings, there seems to be a theme of primary concerns with the FVV industries in the following areas:

- ☐ Health & Safety
- ☐ Public Safety
- ☐ Zoning
- ☐ Aesthetics
- ☐ Time Limits
- ☐ After-hour vending

Staff met with the Committee on June 20, 2006 and April 3, 2007, to address these issues.

On **June 20, 2006**, the staff recommendations were to allow Food Vending Vehicles to operate on private property only during the daylight hours and only for 15 minutes. At that meeting, there was an overwhelming response from customers who opposed staff's recommendations, and supported a popular FVV. The Committee requested staff to meet with the stakeholders and form a task force with Council Member Sheedy as Chair to discuss the issues and bring forth recommendations.

After that meeting, staff with Council Members, reviewed the Stockton ordinance, conducted additional research, and developed a list of recommendations. A stakeholder meeting chaired by CM Sheedy was then held on **January 8, 2007**. The parties at this meeting discussed the recommendations, suggested a few changes, and agreed upon the recommendations that were later brought forward to the April 3, 2007 Committee meeting. Some of the recommendations from that meeting are listed below.

- ☐ Allow Mobile Food Vendors to vend on private property in excess of 30 minutes only with a Mobile Food Vending private property permit obtained by the Food Vendor and the property owner.
- ☐ Allow only one (1) vendor on each parcel.
- ☐ The property owner and mobile food vendor will be both responsible for compliance with applicable laws.

At the January 8, 2007 stakeholder meeting, stakeholders brought up the issue of after-hours vending and vending in the Midtown area. Mobile Food Vendors requested to be allowed to vend into the evening hours in non-residential areas. Staff contacted the Sacramento Police Department, City Code Enforcement, and the Midtown Association to gather their input in regards to after hours vending, and to make recommendations to the Law & Legislation Committee.

The Midtown association had mixed reviews from their business patrons. The Sacramento Police Department and the Sacramento Code Enforcement both opposed after-hours vending for the following reasons:

- ✓ Concerns regarding interference of the peace and welfare of local residence.
- ✓ Increase loitering and noise in the area.
- ✓ Possible problems of patrons standing in the roadway or jaywalking to get to the Vendors.
- ✓ Vendors parking in the street blocking or impeding traffic.
- ✓ Higher risk of increase noise level and complaints, criminal activity such as robbery, assault on vendors, etc.

Due to changes being made to the State Health & Safety Code that affected the food vending industry, staff did not prepare or distribute a FVV draft ordinance for the stakeholders or the Committee. Also, David LeBeouf, an attorney representing some of the vendors was not at the stakeholders meeting. So staff was directed by the Committee to have another stakeholders meeting including Mr. LeBeouf, and provide a copy of a draft ordinance to the stakeholders prior to the next scheduled Committee meeting. The next stakeholders meeting was to be chaired by Council Member Hammond.

On May 21, 2007 a stakeholder meeting was held with David LeBeouf in attendance. The following items were discussed:

- ☐ The Stockton ordinance
- ☐ Health & Safety
- ☐ Public Safety
- ☐ Zoning
- ☐ Aesthetics
- ☐ Time Limits
- ☐ After-hour vending

Discussion also stemmed around adding a grandfather clause for prolonged vending on private property, and having property permission letters on file with the City of Sacramento Finance Department.

After the ordinance was drafted, a follow up meeting occurred on September 4, 2007 with Mr. LeBeouf in attendance along with other stakeholders who felt they had a vested interest in the ordinance revision. Senior Deputy City Attorney Steve Itagaki had a follow up telephone conversation with Mr. LeBeouf to discuss issues that were brought out at this meeting. Staff has taken everyone's opinions into account and has tried, to the best

of everyone's ability, to make this a win-win situation. Taking all matters into account, staff recommends the City Code be amended in accordance with this report. (See, Recommendations pp. 2-3.)

At a previous Law & Legislative Committee meeting, staff was asked to attach a copy of the City of Stockton Mobile Food Vending ordinance to the staff report, and a change comparison of ordinance changes between City of Stockton and the City of Sacramento. Attachment A is the Stockton ordinance, and Attachment B is the matrix comparison of the two city ordinances.

Push carts

The issue of push carts has also been brought up in the discussion about FVV. However, since push carts are regulated differently than FVV, it was agreed upon to look into push carts separately after the revision of the FVV code. Nevertheless, staff has done some research in this area for the Committee. Code Enforcement is working with the City Attorneys office, looking at the language of the City's Outdoor Vending Code. (City Code, Chapter 5.88.)

Vending within parks

City Staff is looking at modifying the code for street corner vending in the CBD to include other locations on a city wide basis.

On October 30, 2007, the City of Sacramento's Business Permit Section coordinated a **Sacramento City/County Regional meeting** with other sister cities within the Sacramento area to discuss issues in regards to FVV and push carts. The City partnered with the County of Sacramento Business Licensing Unit to organize this meeting to look at the issues with other cities, and brainstorm solutions that would work regionally instead of pushing the problems from one city to another.

The Sacramento Regional meeting consisted of cities and agencies within the Sacramento region ranging from Lodi to Folsom (Lodi, Folsom, Citrus Heights, Elk Grove, West Sacramento, Yolo County, Sacramento County District Attorneys office, City of Sacramento City Attorneys office, County Health Department, Agricultural department, and the City and Counties business license and code enforcement teams).

All parties agreed this was a much needed effort in meeting and Cities across the Sacramento Region where having the same or similar issues. During the brainstorming sessions, ideas ranged from:

- Establishing a Community outreach to the FVV industry to educate stakeholders of the industry of the rules and regulations that could affect them in the County/City they are operating.
- Some of the challenges staff is encountering are language barriers between staff and the different vendors. We discussed possibly providing a media outreach campaign in the different languages primarily affecting our region (e.g. Spanish & Vietnamese) to educate the vendors in their language.
- Provide brochures in different languages about rules and regulations of vending in certain cities.

- Coordinate a Regional Sting operation with code enforcement teams from different cities, after initiating an outreach to the public of the correct way to vend in the different cities.
- Utilizing the Police Departments in sting operations to help identify vendors who do not have proper identification to identify who they are.
- Assist vendors in obtaining vendor permits (where feasible) and bring them in compliance with the vending regulations of the Region.
- Create an informational database where code enforcement could utilize regional information to decrease redundancy across the region and utilize each other as a resource.
- Possibly have push carts allowed in certain areas and open spaces, but this will have to be looked into more.

These are just a few of the ideas that came out of the brainstorming session; of course, details must be worked out with all of them. The hope is to continue to have dialogue between the Cities within the region, and to work together as a team where appropriate, and keep the communication lines open by having quarterly meetings to address the issues that involve licensing and enforcement.

We understand that each City has its uniqueness and different rules and regulations, but coming together on issues that are common among cities to decrease the workload where possible, and utilize each other as a valuable resource is one of the goals we wish to accomplish.

ORDINANCE NO.

Adopted by the Sacramento City Council

Date Adopted

**AN ORDINANCE AMENDING CHAPTER 5.68
OF THE SACRAMENTO CITY CODE RELATING
TO FOOD VENDING VEHICLES AND SECTION
5.88.030 OF THE SACRAMENTO CITY CODE
RELATING TO STREET AND SIDEWALK SALES**

BE IT ENACTED BY THE COUNCIL OF THE CITY OF SACRAMENTO:

SECTION 1.

The City Council hereby declares and finds that:

- A. The operation of food vending vehicles provides convenient food and beverage service to people in the City of Sacramento at locations where such service may otherwise be unavailable.
- B. Ensuring that food vending vehicles are operated safely benefits the health, safety and welfare of all residents of the City of Sacramento.
- C. Regulating the location and hours of operation of food vending vehicles also benefits the health, safety and welfare of City residents because the operation of food vending vehicles at inappropriate hours, in appropriate locations, or in any one location for prolonged periods of time creates traffic hazards, the blockage of adjacent sidewalks to pedestrians, and unwanted noise, littering and loitering.
- D. The regulation of food vending vehicles on private property is also consistent with the City's interests in the aesthetics of the community and in promoting permanent development on private property.
- E. In enforcing the provisions of this ordinance, City law enforcement will work in cooperation with the County of Sacramento.
