Honorable Members In Session:

SUBJECT: Installation of Traffic Signals at Intersection of Folsom Boulevard and East Bicentennial Circle (PN:SB71) - Resolution Approving Negative Declaration

SUMMARY

The Environmental Coordinator finds that this project will not have a significant adverse effect on the physical environment and, therefore, recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with the State EIR Guidelines for implementation of the California Environmental Quality Act of 1970, dated June 1986, an initial study was performed. As a result of this study, it was determined that the installation of traffic signals at Folsom Boulevard and East Bicentennial Circle and interconnection of those signals with the signals at Folsom Boulevard and Howe Avenue/Power Inn Road would not have a significant adverse effect on the physical environment, and a Draft Negative Declaration was prepared.

On August 27, 1987, the Negative Declaration was filed with the County Clerk. On September 10, 1987, Notice of Opportunity for Public Review of the Draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for comments regarding the Negative Declaration with no comments having been received.

The project will install traffic signals at an increasingly busy intersection and, through the interconnection with Folsom Boulevard at Howe Avenue/Power Inn Road, improve the flow of traffic through that intersection.

The Environmental Coordinator recommends that the attached resolution be passed which will:

1. Determine that the proposed project will not have a significant effect on the environment.
2. Approve the Negative Declaration.
3. Approve the project.
4. Authorize the Environmental Coordinator to file a Notice of Determination with the County Clerk.

Respectfully submitted,

THOMAS M. FINLEY
