Honorable Members in Session:

SUBJECT: Agreement with State Department of Parks and Recreation for Services by Museum and History Division

SUMMARY

This report provides information relative to an agreement with the State of California, Department of Parks and Recreation, for the Museum and History Division to provide an instructional class for a fee to benefit State Park employees on the California gold rush and mining techniques.

BACKGROUND INFORMATION

The State Department of Parks and Recreation desires to provide an instructional workshop for staff, primarily rangers who work in State Park units in Northern California, that are involved with the interpretation of the California Gold Rush and subsequent mining activities. The State staff has approached staff of the Museum and History Division to determine if the Division would be able to provide an educational workshop that would meet their circumstances. The class must be coordinated with the State staff and conducted between October 6 and October 10, 1986.

An agreement is necessary between the City and the State of California in order for the City to provide this service. Terms of the agreement include the State Department of Parks and Recreation to pay the City of Sacramento \$8,000 to cover costs associated with conducting the proposed workshop, including necessary City staff costs, consultants, and services and supplies.

FINANCIAL DATA

It is proposed that the revenue received from the State in the amount of \$8,000 be deposited in the General Fund and that the Museum and History Division budget be increased to reflect the additional revenue.
