Honorable Members In Session:

SUBJECT: Approval of Plans and Specifications For Resurfacing of City Streets

SUMMARY:

The Director of Public Works office has prepared plans and specifications for the subject project. A copy of said plans and specifications has been forwarded to the City Clerk and approval is recommended.

BACKGROUND:

The subject project is a part of the continuing program to overlay City streets to deter deterioration of the pavement. The program for FY 1984-85 will involve overlaying portions of 17 streets in various locations around the City.

FINANCIAL:

The City Council has not appropriated funds for the subject project. Funds in the amount of \$1,170,000.00 are included in the 1984-85 Capital Improvement Program, with \$670,000.00 from Gas Tax and \$500,000.00 from Traffic Safety Funds for the overlay, slurry seal and street reconstruction programs. On June 12, the Council approved calling for bids for \$355,710.00 worth of slurry seal work which will be charged to this same budgeted amount. The current estimated construction cost for this project is \$614,325.00.

RECOMMENDATION:

The Director of Public Works recommends that the plans and specifications be approved and that bids be received on July 17, 1984.

Respectfully submitted,

APPROVED
BY THE CITY COUNCIL
