Honorable Members in Session:

SUBJECT: Proposed Revisions to Agency Fees and Charges Schedule

SUMMARY

This report recommends the addition or revision of standardized fees and charges for various Agency activities and services.

BACKGROUND

The Agency first implemented a Fees and Charges Schedule in 1983. The Schedule has been revised each subsequent year to reflect additions, deletions, and increases to the prior schedule. It is now necessary to revise the 1987 Schedule to reflect adjustments for the 1988 year.

For 1988, there are a few minor changes recommended. However, the only substantial change recommended is for the service charges of the Housing Maintenance Division. The current schedule of maintenance charges is based on an hourly labor rate of \$15.00 per hour and the 1985 materials cost. This hourly labor rate of \$15.00 has been in effect since February 1986. The recommended maintenance charges for 1988 are based on an hourly labor rate of \$16.50 per hour and are also adjusted to reflect changing material costs. Including one additional new fee suggested for 1988, the increases in maintenance fees from 1986 to the proposed 1988 Schedule is 3.6%.

Maintenance Division staff completed a telephone survey of hourly labor rates being charged by other Housing Authorities in California. Listed below is the result of that survey.

	[Crafts]: 30.45/hour	(plumber)
	31.31/hour	(glazer)
	32.12/hour	(electrician)

The listing attached as Exhibit A indicates the recommended changes and additions to the 1987 Fees and Charges Schedule which has been in effect since January 13, 1987. All other Agency fees and charges currently in place would remain unchanged.

The proposed fees and charges of the Housing Department has been reviewed and unanimously approved by the Resident Council.

## FINANCIAL DATA

The proposed changes would only have a minor financial impact on the Agency. The primary emphasis of this item is to:

- 1) Identify fees to potential users of Agency services;
- 2) Standardize fees as much as possible; and
- 3) Charge fees to cover the cost of providing services.

The fees and charges are not intended to generate additional income but to attempt to recover the Agency's actual cost in providing the service. Maintenance fees are only charged to tenants for "tenant caused damage" and not for normal routine maintenance.

## ENVIRONMENTAL REVIEW

The proposed action does not require a environmental review pursuant to the California Environmental Quality Act.

For any repairs or replacements of items not listed, charges will be assessed on the basis of actual cost of materials and labor.

The prevailing labor rate for maintenance services to tenants is \$16.50 per hour.

Tenant charges will apply to services during occupancy, vacated units and preventive maintenance services when it is determined that repairs are necessary due to tenant caused damages or abuse.

During normal business hours - Monday thru Friday	\$6.00
After normal business hours - weekends and holidays	\$8.25
