Child Opportunity Index

Does the commission want to amend the previous decision to utilize the SEED tool to prioritize geographic areas with a Sacramento Equity Index score of 0-20?

- **Option 1:** No, leave as is and stick to prioritizing geographic areas with a SEED Sacramento Equity Index score of 0-20
- **Option 2:** Yes, amend to prioritizing geographic areas that both 1) have a SEED Sacramento Equity Index Score of 0-20 and 2) have a Child Opportunity Index rating of “very low”

Proposal: Prioritize geographic areas that 1) have a Sacramento Equity Index of 0-20 on the SEED tool, AND 2) have a Child Opportunity Index that is “very low”

Discussion

- *I'm good with this.*
- *I'm not sure. A question I still have is...*
- *I disagree. I would need to see X changed to Y.*
