Honorable Members in Session:

SUBJECT: NEW REVENUE SOURCE - LONG DISTANCE SERVICE FOR  
PAY TELEPHONES

SUMMARY

This report requests authorization for the City to enter into a Pay Telephone Long Distance Subscription Agreement with Com Systems, Inc. for a twenty-four month period.

BACKGROUND

Divestiture of Pacific Bell in 1984 has introduced numerous opportunities for the City of Sacramento. For public pay telephones, based on a recent court ruling, we must select a long distance company by April 1, 1989. Presently, there are approximately 88 pay telephones assigned to the City of Sacramento for which we receive approximately \$13,000 from Pacific Bell for calls placed, but no revenue from the long distance calls placed from the pay telephones.

Long distance companies are now offering the City a commission on the long distance calls. The City received proposals from ten long distance companies. The most favorable was from Com Systems, Inc., 7900 Haskell Avenue, Van Nuys, California 90406, who offered a twenty-four month agreement, effective April 1, 1989, with a sign-up bonus of 50% for the first three months and a 20% commission thereafter. It is estimated this will generate approximately \$70,000 over the twenty-four month period.

The agreement has been reviewed and approved with one modification by the City Attorney's Office.

FINANCIAL IMPACT

The estimated \$70,000 commissions for long distance pay telephone service for twenty-four months is a new revenue for the City. There will be no additional costs for the City.

POLICY CONSIDERATIONS

This is a rare opportunity for the City to receive new revenue without any expenditures. This new revenue source should be used to help defray the General Fund's Telephone Communication costs.

M/WBE EFFORTS

No impact on City's program since there are no M/WBE Long Distance Carriers.

RECOMMENDATION

It is recommended that the City Council adopt the attached resolution: 1) authorizing the City to enter into a twenty-four month Pay Telephone Long Distance Agreement, with Com Systems, Inc.; and 2) that the commissions received be established as a source of revenue for the Communications Division's operating budget (101-190-1960-XXXX).

Respectfully submitted,

Director of General Services
