**Contact:** Greg Sandlund, Junior Planner, (916) 808-8931; Tom Buford, Senior Planner, (916) 808-7931.

**Presenter:** Greg Sandlund

**Department:** Development Services

**Division:** Current Planning

**Organization No:** 4881

### **Description/Analysis**

**Issue:** The applicant seeks to amend the General Plan land use designations and to rezone the subject property to subdivide a 14,690 square-foot parcel with six existing buildings into six parcels. Both the proposed Multi Family (R-2B) zone and proposed Medium Density General Plan land use designation allow for the subdivision of the subject site at a density of 21 du/na. At the time of writing this report, the project is not controversial.

**Policy Considerations:** The proposed project is consistent with the following applicable policies of the General Plan. The applicable policies include: "Support redevelopment and rehabilitation efforts that add reconditioned units to the housing stock while eliminating neighborhood blight and deterioration," "Develop residential land uses in a manner which is efficient and utilizes existing and planned urban resources," and "Provide a variety of housing densities, types and prices to enhance a neighborhood identity."

**Smart Growth Principles:** City Council adopted a set of Smart Growth Principles in December 2001 in order to promote growth or sustain existing development that is economically sound, environmentally friendly, and supportive of community livability. The subject proposal aids in the creation of a range of housing opportunities and choices with a diversity of affordable housing.

**Strategic Plan Implementation:** The project conforms to the City of Sacramento Strategic Plan, specifically by advancing the goals to achieve sustainability, enhance livability, and increase opportunities for all Sacramento residents to live in safe and affordable housing.

**Committee/Commission Action:** On September 14, 2006, the Planning Commission was scheduled to consider the related Tentative Map and Special Permit to subdivide the 14,690 square-foot parcel with six existing buildings into six parcels. The decision of the Planning Commission will be provided to the City Council prior to the hearing on this matter.

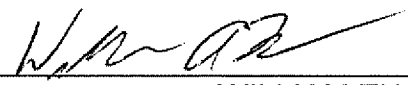

**Environmental Considerations:** The proposed project is exempt from environmental review pursuant to CEQA Section 15301 because the project involves negligible or no expansion of an existing use.

**Rationale for Recommendation:** The project is consistent with the objectives of the General Plan to provide a variety of housing types and densities. The only change of use will be from rental to individual ownership; otherwise there will be no change to the existing use.

**Financial Considerations:** This project has no fiscal considerations.

**Emerging Small Business Development (ESBD):** No goods or services are being purchased under this report.
