(PN:XD61/XD81) - Project Approval and Bid Advertisement

SUMMARY

Plans and specifications for this project have been prepared. Approval of the plans and specifications and authorization to advertise for bids is recommended.

BACKGROUND

This project will abandon the existing, deteriorated sewer main in North B Street between North 12th and North 14th Streets and placement of a new sewer main in the existing right-of-way. The project will also remove the deteriorated vitrified clay sewer pipe in the T-U Street alley between 24th and 27th Streets and replacement using polyvinylchloride pipe.

A Categorical Exemption for this project was filed with the County Clerk of the County of Sacramento on October 20, 1990 and March 14, 1991. The engineer's estimated construction cost is \$267,000.

FINANCIAL DATA

Additional funds will be needed for this project. The estimated total project cost, including all planning, design and construction costs, is \$368,500. The current budget is \$205,000, which was approved in the Capital Improvement Program from the Sewer Fund (414). The funds currently available for this project amount to approximately \$178,000, as of May 7, 1991. The final budgetary recommendation will be made following receipt of bids.

A non-refundable fee of \$15.00 will be charged for each set of plans and specifications to cover reproduction costs.
