and  
City Council  
Sacramento, California

APPROVED  
BY THE CITY COUNCIL

JUL 9 1991

OFFICE OF THE  
CITY CLERK

SUBJECT: Amendment to the Auburn Boulevard Redevelopment Survey Area

**SUMMARY**

This report recommends expansion of the Auburn Boulevard Redevelopment Survey Area for the purposes of exploring potential designation of a portion of Auburn Boulevard as a redevelopment project area.

**BACKGROUND**

In October and December of 1990, the City Council approved the North and South Sacramento Redevelopment Survey Areas located in both the City and County to be studied for potential redevelopment area designation. In a separate and subsequent report the County Board of Supervisors also approved the South Sacramento Survey Areas and a separate Survey Area along the County portion of Auburn Boulevard, roughly from Howe Avenue to Watt Avenue (see map attached as Exhibit "A"). This report seeks the inclusion of a City portion at the west end of Auburn Boulevard into the resulting Auburn Boulevard Survey Area. This will provide for continuity in regards to redevelopment activities along Auburn Boulevard.

The City section of Auburn Boulevard proposed for annexation into the Auburn Boulevard Survey Area is relatively small, comprising only several acres. The area is bounded by Howe Avenue to the east, Business 80 to the north and west, and the rear property line of parcels fronting Auburn Boulevard to the south. The amended Auburn Boulevard Survey area map is attached as Exhibit "A" and further described in Exhibit "B".

Current uses in both the City and County segments of Auburn Boulevard include mobile home/RV parks, and a wide variety of commercial uses including; motels, bars, restaurants, gas stations, auto dealerships, and miscellaneous retail and wholesale outlets. Both the City and County portions of Auburn Boulevard are plagued by a number of problems. These problems include; adverse social conditions such as drug and prostitution activity, obsolete uses, inadequately sized and irregular parcels preventing development, structural deterioration, disinvestment, and defective design. It is staff's opinion that the blight evidenced along Auburn Boulevard constitutes a burden on the community.

Staff does not reasonably expect the problems noted above to be addressed by the private sector acting alone or by the exercise of regulatory and police powers, and therefore proposes that redevelopment powers, including eminent domain, may be necessary. The staff also believes that redevelopment has the potential to produce tax increment revenue for reinvestment back into the area. Upon inclusion of the City portion of Auburn Boulevard in the Auburn Boulevard Survey Area, staff will initiate an analysis of Auburn Boulevard's redevelopment potential. In the event that our analysis leads to a recommendation to establish a City/County redevelopment area, it is our intention to explore the delegation of governing powers to the County Redevelopment Agency. Given the very small size of the City portion of the potential Auburn Boulevard Redevelopment Area, the establishment of a joint powers agency which shares responsibility between City Council and the County Board appears to be unnecessary.

## FINANCIAL DATA

In the original adoption of the South Sacramento and Auburn Boulevard Redevelopment Survey Areas, administrative funding was approved for staff and consultant expenses to carry out the required blight study, fiscal analysis, land use planning, environmental review and community participation. Staff believes that, due to the small scale of this addition to the Auburn Boulevard Survey Area, that there will be no impact on the previously approved budget.

## ENVIRONMENTAL REVIEW

Upon approval of a resolution approving the Auburn Boulevard Preliminary Plan, staff will issue the Notice of Preparation of a Draft EIR to all responsible agencies (CEQA Guidelines, Section 15082) and to all affected taxing entities (Health and Safety Code Section 33333.3) and commence preparation of the Environmental Impact Report.

## MBE\WBE

Any consultants hired for activities discussed in this report will be hired under the Agency's MBE\WBE policy requirements. Any future contracts for redevelopment or revitalization activities will also be subject to MBE\WBE requirements in effect at that time.

## POLICY IMPLICATIONS

The action proposed are consistent with Agency policies and with State Redevelopment Law.

## VOTE AND RECOMMENDATION OF COMMISSION

At its meeting of March 20, 1991, the Sacramento Housing and Redevelopment Commission adopted a motion recommending approval of a resolution to amend the City portion of Auburn Boulevard to the North Sacramento Survey Area.

Since the time of this vote, staff in consultation with the plan adoption advisor for the North and South Sacramento survey areas, has determined that it is more efficient to amend the Auburn Boulevard Survey Area to include the City portion of Auburn Boulevard located between Howe and Marconi Avenues. Including both City and County portions of Auburn Boulevard in one survey area will allow the flexibility to establish a joint City/County area if our analysis indicates such action is advisable. The Sacramento Housing and Redevelopment Commission was informed of this recommendation at their meeting of June 19, 1991 and concurred.

Their votes were as follows:

AYES: Amundson, Diepenbrock, Simon, Simpson, Williams, Wooley, Yew

NOES: None

NOT PRESENT TO VOTE: Cespedes, Pernell

ABSENT: Moose, Strong

## RECOMMENDATION

Redevelopment staff recommends:

1. the City Council adopt the attached resolution adding City portions of Auburn Boulevard described in this report into the Auburn Boulevard Redevelopment Survey Area; and
