**16.24.090 Tentative maps for four or fewer parcels other than vesting tentative maps**

A. Notice of Public Hearings. Notice of the hearing shall be given in the following manner:

2. Written notice of the hearing shall be mailed at least ten (10) days prior to the hearing to the following property owners, using for notification purposes names and mailing addresses as shown on the latest equalized assessment roll in existence on the date the application is filed:

a. All owners of property located within a radius of one hundred (100) feet from the property involved in the proceedings.

b. The owners of all property which adjoins the property in the same ownership as that involved in the proceedings or is separated only by a street, alley, right-of-way, or other easement.

c. In the event that the proposed application has been submitted by a person other than the property owner shown on the last equalized assessment roll, the city shall also give notice by mail or delivery to the owner of the property as shown on the last equalized assessment roll. In addition, notice shall be given by mail or personal delivery to any person who has filed a written request with the city. The request may be submitted at any time during the calendar year and shall apply for the balance of the calendar year.

d. Notwithstanding subsections (A)(2)(a) and (b) of this section, notice need not be given to property owners outside a radius of five hundred (500) feet from that portion of the property involved.

C. Approval. The tentative map may be approved or conditionally approved by the zoning administrator if it is found that the proposed subdivision, together with the provisions for its design and improvement, is consistent with the general plan, any applicable specific or community plan, and all applicable provisions of this code.

D. Denial. The tentative map may be denied by the zoning administrator on any of the grounds provided by the Subdivision Map Act or this code. 4. That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat. Notwithstanding the foregoing, the zoning administrator may approve such a tentative map if any environmental impact report was prepared with respect to the project and a finding was made pursuant to Section 21081(c) of CEQA that specific economic, social or other considerations make infeasible the mitigation measures or project alternatives identified in the environmental impact report;

6. That the design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision. In this connection, the zoning administrator may approve a map if he or she finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easements of record or to easements established by judgment of a court of competent jurisdiction, and no authority is granted to the zoning administrator to determine that the public at large has acquired easements for access through or use of property within the proposed subdivision; or

A. Notice of Public Hearings. Within a reasonable period of time following consideration by the subdivision review committee of an application for a tentative map other than a vesting tentative map, the planning director shall prepare a report with recommendations, and shall set the matter for hearing before the planning commission. A copy of the director's report shall be forwarded to the subdivider at least five days prior to the public hearing. At least ten (10) calendar days before the public hearing, a notice shall be given of the time, date, and place of the hearing, including a general explanation of the matter to be considered and a general description of the area affected, and the street address, if any, of the property involved. The notice shall be published at least once in a newspaper of general circulation, published and circulated in the city.

In addition to notice by publication, the director shall give notice of the hearing by mail or delivery to the subdivider, the owner of the subject real property, if different from the subdivider, and to all persons, including businesses, corporations, or other public or private entities, shown on the last equalized assessment roll as owning real property within five hundred (500) feet of the property which is the subject of the proposed application. The director shall also give notice of the hearing by mail or delivery to each agency expected to provide water, sewage, streets, roads, schools, or other essential facilities or services to the subdivision, whose ability to provide those facilities and services may be significantly affected. A proposed conversion of residential real property to a condominium, community apartment, or stock cooperative project shall be noticed in accordance with Section 66451.3 of the Subdivision Map Act and Chapter 17.192 of this code.

In the event that the proposed application has been submitted by a person other than the property owner shown on the last equalized assessment roll, the city shall also give notice by mail or delivery to the owner of the property as shown on the last equalized assessment roll. In addition, notice shall be given by mail or personal delivery to any person who has filed a written request with the city. The request may be submitted at any time during the calendar year and shall apply for the balance of the calendar year.

The director may give such other notice that the director deems necessary or advisable.

Substantial compliance with these provisions for notice shall be sufficient, and a technical failure to comply shall not affect the validity of any action taken according to the procedures in this chapter.

B. Action. The planning commission shall approve, conditionally approve or deny the tentative map within fifty (50) days of the date of certification of the EIR, adoption of a negative declaration, or a determination by the planning commission that the project is exempt from the requirements of CEQA, and the planning director shall thereafter report the decision of the planning commission to the subdivider. In reaching a decision upon the tentative map, the planning commission shall consider the effect of that decision on the housing needs of the region and balance these needs against the public service needs of its residents and available fiscal and environmental resources. Except as provided otherwise by the Subdivision Map Act, failure to act within the above-specified time limits shall not be deemed or considered approval of the tentative map.

C. Approval. The tentative map may be approved or conditionally approved by the planning commission if it finds that the proposed subdivision, together with the provisions for its design and improvement, is consistent with the general plan, any applicable specific or community plan,

1. Tentative Maps for Projects Requiring City Council Approval of Entitlements--Conformance to General Plan, Community Plan and Zoning. Each tentative map shall be designed in compliance with the existing general plan, applicable specific or community plan, if any, and zoning designation of the property; provided that, where an amendment to the general plan or the applicable specific or community plan or a change in zoning is also being requested as part of the project for which the tentative map is sought, and the tentative map will be consistent with the general plan, specific or community plan or zoning if the city council approves such amendment or change, the tentative map may be approved, subject to inclusion of a condition on the tentative map requiring approval of the general plan or specific or community plan amendment or zone change prior to recordation of the final map.

The planning commission may modify or delete any of the conditions of approval recommended in the department's report. The planning commission may add additional requirements as a condition of its approval.

D. Denial. The tentative map may be denied by the planning commission on any of the grounds provided by the Subdivision Map Act or this code. Except as otherwise required by state or federal law, the planning commission shall deny approval of the tentative map if it makes any of the following findings:

1. That the proposed map is inconsistent with the general plan or any applicable specific plan, or other applicable provisions of this code;
2. That the site is not physically suitable for the type of development;
3. That the site is not physically suitable for the proposed density of development;
4. That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat. Notwithstanding the foregoing, the planning commission may approve such a tentative map if any environmental impact report was prepared with respect to the project and a finding was made pursuant to Section 21081(c) of CEQA that specific economic, social or other considerations make infeasible the mitigation measures or project alternatives identified in the environmental impact report;
5. That the design of the subdivision or the type of improvements are likely to cause serious public health problems;
6. That the design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision. In this connection, the planning commission may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easements of record or to easements established by judgment of a court of competent jurisdiction, and no authority is granted to the planning commission to determine that the public at large has acquired easements for access through or use of property within the proposed subdivision; or

In addition, a subdivision modification shall be approved by the zoning administrator if the subdivision modification request accompanies a lot line adjustment or merger of parcels application, and if the lot line adjustment or merger of parcels is not sought as part of a development project requiring approval of one or more entitlements by the planning commission or city council. Otherwise, a subdivision modification shall be approved by the planning commission, unless it is sought as part of an application requiring city council approval, in which case it shall be approved by the city council.
