

RESOLUTION NO. 2019-0344

Adopted by the Sacramento City Council

September 3, 2019

Reconditioned Motor for Storm Sump 90 Repairs

BACKGROUND

- A. Sump 90 has two pumps; a 100 Horsepower (HP) summer pump and a 450 HP storm season pump. The 450 HP storm pump motor has failed beyond repair and it is critical to restore the 450 HP storm pump as soon as possible due to Central Valley Flood Control District environmental constraints and the Operations Agreement with the Regional Sanitation District.
- B. Staff determined that the purchase of a reconditioned motor was preferable to the alternative purchase of a new motor. A new motor would cost an estimated \$200,000 with a 12-month lead time and would not meet the current storm season deadline of October 1, 2019.
- C. Wrangler is the only motor supplier that could meet the mechanical, electrical and delivery requirements for this equipment.
- D. The emergency repairs total not-to-exceed amount, including tax, is \$110,673, which includes the replacement motor, vibration and /temperature monitoring, reconditioned pump, adaptor plate and head shaft modifications. Staff recommends a budget transfer of \$70,000 from the Drainage Unplanned Repair Program (W14130100) Storm Drainage Fund (fund 6011) to the Drainage Channel Improvements Program (W14130400) to complete the repairs:

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1. It is in the best interests of the City that competitive bidding is suspended for the reconditioned motor, from Wrangler Industrial Group, L.L.C., for Storm Sump 90.
- Section 2. The City Manager or the City Manager's designee is authorized to execute an agreement with Wrangler Industrial Group, L.L.C., to purchase a reconditioned motor for an amount not-to-exceed \$110,673.

Section 3. The City Manager or the City Manager's designee is authorized to transfer \$70,000 from the Drainage Unplanned Repair Program (W14130100) Storm Drainage Fund (fund 6011) to the Drainage Channel Improvements Program (W14130400).
