City Council
Sacramento, California

Honorable Members In Session:

SUBJECT: Rehabilitation of Storm Sumps 151, 152 and 154, and Installation of Access Road, Fencing and Gateway Trash Rack at Sump 154 (PN:WB01) - Project Approval and Bid Advertisement

SUMMARY

Plans and specifications for this project have been prepared. Approval of the plans and specifications and authorization to advertise for bids is recommended.

BACKGROUND

This project will upgrade the electrical equipment and the controls at Storm Sumps 151, 152 and 154, and install an access road, fencing, and a catenary (self-cleaning) trash rack at Storm Sump 154.

This project is a portion of a ten-year Capital Improvement Program for the American River Flood Control District pumping stations which was initiated when the City acquired the operations and maintenance responsibilities in 1987. These pump stations handle storm water run-off in the North Sacramento area along the American River (Sump 151 - Leisure Lane near Canterbury Lane, Sump 152 - Tribute Road near Exposition Boulevard, Sump 154 - intersection of Arcade Boulevard and Dry Creek Road). The ten-year program targets upgrading the pumping stations to the City standards and to increase the storm water pumping capacities of various stations to match the current and future development in the area.

A Negative Declaration for this project was filed with the County Clerk of the County of Sacramento on March 24, 1988. The engineer's estimated construction cost is \$491,000.

FINANCIAL

Sufficient funds are available for this project. The estimated total project cost, including all planning, design and construction costs, is \$638,000. The current budget is \$1,063,000, which was approved in the Capital Improvement Program from Storm Drainage Funds (425). The funds available for this project amount to \$865,000 as of August 18, 1988.

A non-refundable fee of \$25 will be charged for each set of plans and specifications to cover reproduction costs.

RECOMMENDATION

It is recommended that the City Council approve the plans and specifications for this project and authorize the City Clerk to advertise for bids to be received on September 27, 1988.

Respectfully submitted,

THOMAS W. FINLEY
Engineering Division Manager

Recommendation Approved:

WALTER J. SLIPE
City Manager
