May 22, 1991

City Council Sacramento, California

Honorable Members in Session:

SUBJECT:

PROPOSED SOLID WASTE AND LAWN AND GARDEN SERVICES FEE

**ADJUSTMENTS FOR 1991-92** 

#### **SUMMARY**

This report recommends the adoption of rate increases for solid waste services in fiscal year 1991-92 to be effective July 1, 1991. It is recommended that residential rates for solid waste and lawn and garden services be increased by 15%. It is further proposed that rates be adjusted to reflect the true costs of lawn and garden services, removing the existing subsidy of that program from solid waste charges.

#### **BACKGROUND**

The Solid Waste Fund is an enterprise fund which is financially responsible for the activities of waste reduction and recycling, collecting and disposing of solid waste, sweeping streets, and abating litter throughout the City. These functions are performed by the operational units of Refuse Collection and Landfill Operations (Solid Waste Division), and Street Sweeping and Garden Refuse Collection (Street Division). In addition, the Solid Waste Division manages the City's Source Reduction and Recycling, Neighborhood Clean-up, Community Clean-up and Hazardous Materials Program. The Source Reduction and Recycling function includes the City's curbside recycling and composting programs.

In February 1991 the City Council adopted a Lawn and Garden Service Fee to cover the costs associated with garden refuse collection, garden refuse disposal, and street sweeping in residential areas. This fee was implemented April 1, 1991 and the Garden Refuse Excise Tax was repealed. This action has two important effects on the FY 1991-92 rates: 1) a revenue loss resulting from the adoption of the Lawn and Garden Service Fee must be remedied and, 2) the true costs of the Lawn and Garden Services versus Solid Waste Services can be addressed.

With the adoption of the fee and repeal of the tax, certain customer classes are no longer charged for services which they do not receive. The elimination of this subsidy resulted in a \$74,000 loss in revenue in FY 1990-91 and a projected \$340,000 loss in FY 1991-92. In order to maintain existing service levels, these costs must be

Į

redistributed to those who receive the services.

At the time of the adoption of the Lawn and Garden service fee, an adjustment was made between the new fee and Solid Waste service charges in order to address the subsidization of the garden refuse program by solid waste charges. The FY 1991-92 rates further remedy this situation.

#### FINANCIAL DATA

The proposed FY 1991-92 Solid Waste fund budget contains \$25.96 million in budgeted expenditures. The proposed rate adjustments will fund existing programs and services at current service levels. In addition, the budget includes augmentations for the expansion of the curbside recycling program, the hazardous materials program, and the expansion of the Capital Improvement Program to provide for the implementation of Source Reduction and Recycling Planning and Landfill Closure. In addition, the increased revenue is required to support new and increasing costs of landfill tipping fees.

The components of the proposed Solid Waste Fund increases are summarized below.

TABLE ONE: COMPO	NENTS OF SOL	ID WASTE RATE INC	EREASE
	\$ Cost (thousands)	\$ Impact - Typical Residential Rate	Portion of Residential Rate Impact
Residential Recycling Phase 2	\$569	\$0.49	4.0%
Tipping Fees for Garden Refuse	\$491	\$0.43	3.4%
Household Hazardous Waste Program	\$193	\$0.17	1.3%
Other Operating Increases	\$561	\$0.34	2.7%
Growth In Accounts	<\$521>	<\$0.31>	<2.5%>
Capital Improvement Program - Increase over prior year	\$758	\$0.46	3.7%
Loss from Adoption of Lawn & Garden Fee	\$296	\$0.18	1.4%
Increase to Maintain Adequate Contingency	\$198	\$0.12	1.0%
TOTAL		\$1.87	15.0%

The typical residential customer will now pay for the following services:

TABLE TWO: WHAT THE TYPICAL HOME	OWNER PA	YS FOR
Garbage Collection	\$5.79	
Garbage Disposal	\$1.46	
Nuisance Abatement	\$0.19	
Neighborhood Clean-up/Community Clean-up	\$0.65	
Household Hazardous Waste Collection	\$0.21	
Curbside Recycling	\$1.03	
TOTAL SOLID WASTE SERVICES		\$9.33
	, , , , , , , , , , , , , , , , , , ,	
Garden Refuse	\$4.52	
Street Sweeping	\$0.50	
TOTAL LAWN AND GARDEN SERVICES		\$5.02
TOTAL Autolift plus Lawn & Garden		>\$14.35

Public Works staff has researched the costs of various programs and analyzed the distribution of these costs to the various rate categories. This analysis reveals the need for certain equity adjustments including:

- Fees for each additional Autolift Can need to be increased an additional 9% for a total increase of 24% in order to reflect the true costs of this service.
- Lawn and Garden Service Fees have been adjusted to reflect the true costs of these services and
  eliminate the subsidization of these programs from Solid Waste Service Fees. The combined rate
  increase of these two fees to the typical homeowner (autolift service plus lawn and garden) will
  be 15%.
- Residential bin rates are adequate to cover costs at current rates. No increases are required for these rates.
- Commercial Bin rates are substantially low compared to the cost of service. It is proposed that these rates be increased an average of 37% in order to better cover the true costs of providing the service.

The effect of the proposed fee adjustments on the monthly cost for a typical resident is shown below:

TABLE THREE TY	PICAL SOLID	WASTE SERVICE	E CHARGES	
Service Type	Current Fee	Proposed Fee	\$ Change	% Change
Autolift Container (90 gal.)	\$8.34	\$9.33	\$0.99	11.9%
Lawn & Garden Service	\$4.14	\$5.02	\$0.88	21.3%
TOTAL Autolift plus Lawn & Garden	\$12.48	\$14.35	\$1.87	15.0%
Additional Autolift Can (each)	\$5.01	\$6.21	\$1.20	24.0%

The proposed fee structure for all rates is identified in the attached Attachment A. A comparison of the proposed rates with those of other jurisdictions is provided in Attachment B.

#### POLICY CONSIDERATIONS

The adoption by resolution of the City Council of fees and charges for utility services is provided by Sacramento City Code Section 64.141. Matters regarding Garden Refuse (Lawn and Garden) Services are covered by Chapter 19, Article IV of the City Code. The proposed rate adjustments will fund existing programs and services at current service levels. In addition, the increase will allow for the expansion of the curbside recycling program, the hazardous materials program, and the expansion of the Capital Improvement Program to provide for the implementation of Source Reduction and Recycling Planning and Landfill Closure. In addition, the increased revenue is required to support new and increasing costs of landfill tipping fees.

Attachment C provides a listing in priority order of proposed augmentations and current programs that could be deleted in order to reduce the proposed 15% rate increase.

As the Council is aware, the City is currently addressing the future of the City's Solid Waste disposal, including the eminent closure of the City landfill and the consideration of various disposal alternatives including Direct Haul. Because of the range of possible scenarios on this issue, the additional costs which will occur have not been included in this proposed budget nor included in the proposed rate increase. Consequently, an additional Solid Waste Service rate increase will likely be necessary in the near future.

#### MBE/WBE EFFORTS

There are no goods or services being purchased as a direct result of this action.

## **RECOMMENDATION**

It is recommended that the City Council adopt the attached resolutions of findings and increasing residential and commercial Solid Waste and Lawn and Garden service charges.

Respectfully Submitted,

Deputy Director of Public Wor

MELVIN H. JOHNSON Director of Public World

# RESOLUTION NO.

ADOPTED BY THE SACRAMENTO CITY COUNCIL

# RESOLUTION OF FINDINGS ON INCREASED SOLID WASTE SERVICES FEES

WHEREAS, the City Council has held a public hearing on solid waste services fees on May 22, 1991, at which staff made a presentation including a report and at which public testimony was heard and said committee recommended adoption of an increased solid waste services fee schedule, and

WHEREAS, the City Council on May 22, 1991 at a regular public council meeting received the following information:

- (1) A staff report on the proposed increased solid waste services fees;
- (2) The solid waste services fees will permit the generation of necessary cash flow to finance maintenance of the solid waste management system and meet financial reserves requirements.
- (3) Public testimony from interested parties.

NOW THEREFORE, based on this data and all information part of the public record of this matter, the City Council makes the following findings to comply with Government Code section 210809(b)8 to establish that the passing of the increased solid waste services fees of even date herewith serves the following purposes:

- (1) The solid waste services fees will provide funds to meet operating expenses.
- The solid waste services fees will permit the generation of necessary cash flow to finance maintenance of the solid waste management system and meet financial reserves requirements.
- (3) The solid waste services fees will permit the purchase of necessary equipment for the solid waste management system.
- (4) The solid waste services fees are essential as a source of funds for capital projects necessary to maintain the solid waste management system.

**NOW THEREFORE**, based on this information and the public words, the Council of the City of Sacramento makes the specific finding contained herein as well as all other matters in the public record as its basis for the resolution establishing the fees passed on even date herewith.
