George ...

Owner or Owner's Representative.

1. The first step in the process of identifying a problem is to recognize that a problem exists.

2. The second step is to define the problem in terms of its symptoms and causes.

3. The third step is to identify the stakeholders who are affected by the problem.

4. The fourth step is to gather information about the problem and its context.

5. The fifth step is to analyze the information and identify the root causes of the problem.

6. The sixth step is to develop a plan of action to address the problem.

7. The seventh step is to implement the plan and monitor progress.

8. The eighth step is to evaluate the results and make adjustments as needed.

9. The ninth step is to communicate the results and lessons learned.

10. The tenth step is to document the process and results for future reference.
