NEIGHBORHOOD LANDSCAPING DISTRICT

METHOD OF SPREADING ASSESSMENTS

1. The cost of maintenance for landscaping, irrigation systems and masonry wall and the cost for contract maintenance and any annexation documents (only if annexed that year) will be spread equally to each residential unit (lot) within their respective subdivision.

2. The cost of all incidental expenses including preparation of the Engineer's Report, district administration and annual billing expenses will be spread equally to each residnetial unit within the district.

3. The following exception will apply:

   a) Laguna Verde Subdivision

      Lots 130, 131, 132, 133, 134, 135 and 136 are not included in the district.

   b) Cardonnay Subdivision

      Costs for this dubdivision are assessed to each residential parcel within the approved tenative map boundary. The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the approved tentative map.

   c) Regency Place Subdivisions

      Costs for this subdivision are assessed to each parcel within the approved tentative map boundary. Costs for maintenance for landscaping, irrigation systems, masonry walls, contract administration, and incidental expenses are assessed to each benefited parcel in proportion to its residents to the total number of residents (for single family and multi-family residences), which benefit from the maintenance. Each single family residential unit was determined to have an average of 2.673 persons per unit and each multi-family residential unit was determined to have an average of 1.818 persons per unit (Referenced 18\980 census). The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the appr9ved tentative map.

      Costs for billing the subdivision are assessed to each benefited parcel equally.

   d) Laguna Vega

      At the time of this report Laguna Vega North Village 1 subdivision map was recorded and included the entire area called Laguna Vega North and South. This map recorded 83 residential lots and two parcels designated "remainder" on the map. These "remainder" parcels are included in the recorded map and represent the unsubdivided residential areas of Laguna Vega North and South. These unsubdivided areas have proposed residential lot counts of 158 for Laguna Vega North and 116 for Laguna Vega South. The total number of lots on the approved tentative maps for

Laguna Vega North and Laguna Vega South is 357.

The costs of providing the maintenance services is Fourteen thousand two hundred eighty and No/100 dollars ($14,280). The costs of providing the maintenance services includes all incidental expenses, including preparation of the Engineer's Report, annual proceedings, and district administration benefit each recorded and proposed residential lot within the subdivision equally.

Since the improvements benefit all residential lots within a subdivision equally, by definition the services to be provided and funded by this district will benefit each residential lot equally. Therefore, it is appropriate that the costs associated with provision of the services be spread equally to all residential lots within a subdivision.

Therefore, each of the 357 residential lots will be assessed 1/357 of the total costs. Laguna Vega North Village 1 will be assessed 83/357; the "remainder" parcel representing the balance of Laguna Vega North will be assessed 158/357; and the "remainder" parcel representing residential lots in Laguna Vega South will be assessed 116/357 of the total costs. Each of the 83 recorded residential lots in Laguna Vega North Village 1 will be assessed 1/357 of the total costs. The two "remainder parcels will be assessed based upon the proportionate shares indicated above, until such time as they are further subdivided. The maximum annual assessment will be forty and no/100 dollars ($40.00) upon each of the subdivided residential lots based upon the above calculation of 1/357 per total assessment of fourteen thousand two hundred eighty and no/100 dollars ($14,280). The "remainder" parcels will be reduced by 1/357 for each unrecorded residential lot at such time as the lot is subdivided and thereafter is assessed at 1/357 of the total assessment.

**ENGINEER'S REPORT**
**FY 1996/97**
**SUBDIVISION LANDSCAPING MAINTENANCE DISTRICT**

Michael Kashiwagi, Engineer of Work for the Subdivision Landscaping Maintenance District, City of Sacramento, Sacramento County, California, makes this report as directed by the City Council, pursuant to the Landscaping and Lighting Act of 1972 (Streets and Highways Code Section 22500, and following).

The maintenance, which is the subject of this report, is briefly described as follows:

Furnish all tools, equipment, apparatus, facilities, labor, material, supplies, and utilities necessary or desirable to maintain and service the landscape improvements as shown on Exhibit A, and more particularly described on plans and specifications approved by the City of Sacramento on file at the City of Sacramento, Department of Neighborhood Services, 1231 I Street, Room 400, Sacramento, California 95814.

The improvements generally consist of masonry walls; landscaping and irrigation systems for the landscape areas within or adjacent to the residential subdivisions identified on Exhibit A. Maintenance of said improvements will include, but not be limited to, periodic mowing of grass, trimming of trees and shrubs, and fertilizing, together with the regular furnishing of water for irrigation of all plant material, and the repair, maintenance, and replacement of the irrigation system, planted materials, and amenities. Maintenance of masonry walls includes periodic repair as required.

This report includes the following attached exhibits:

EXHIBIT A -- Schematic diagram of each subdivision with landscaping improvements.

EXHIBIT B -- An estimate of the cost of maintenance for each subdivision.

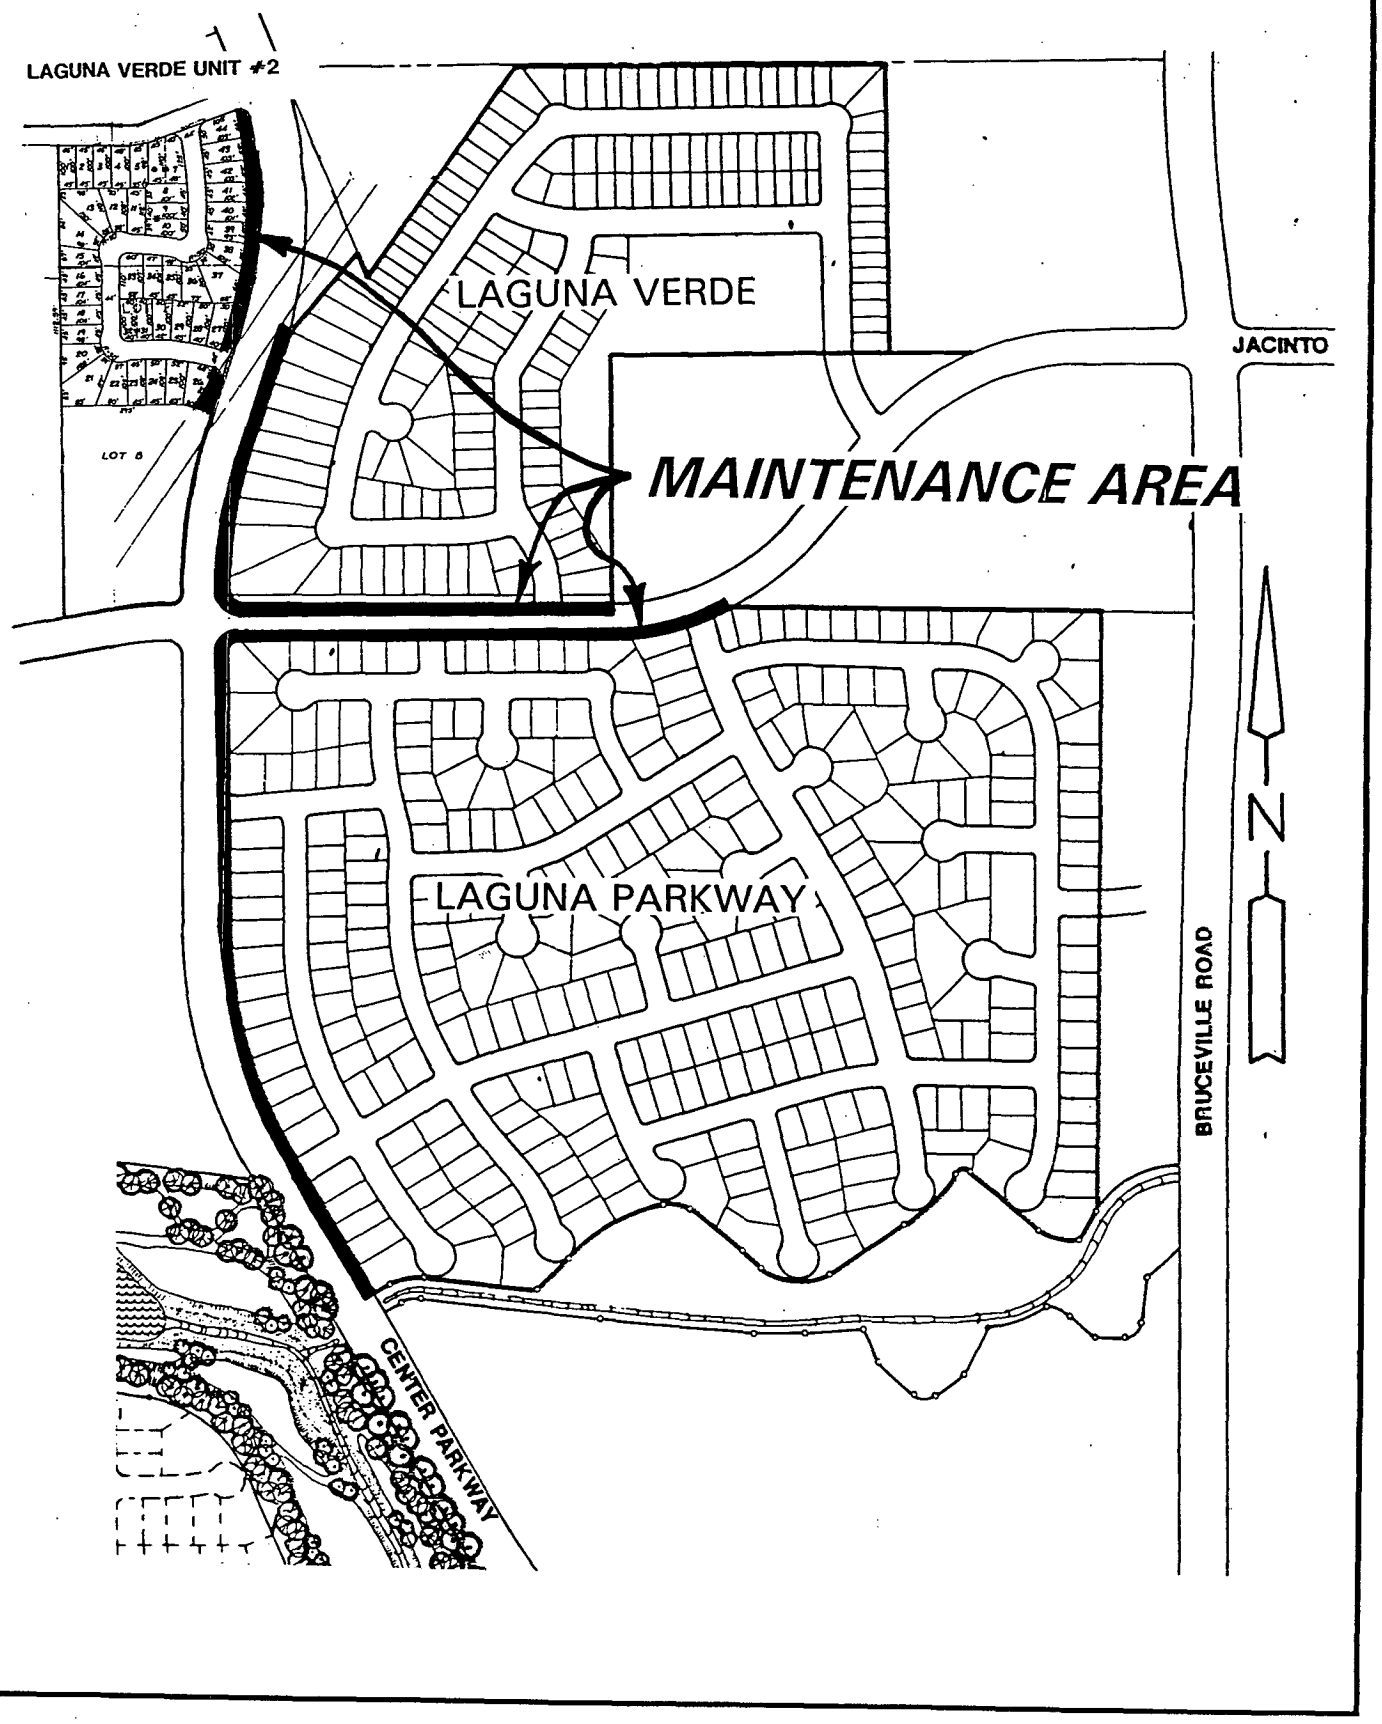

EXHIBIT C -- An assessment roll showing the amount to be specially assessed against each parcel of real property within this district. Each parcel is described by County Assessor's parcel number or other designation, and each parcel is also assigned a separate "assessment number" for the purposes of this report.

EXHIBIT D -- A statement of the method by which the undersigned determined the amount of the proposed assessments to be assessed against each parcel, based on benefits to be derived by each parcel, from the maintenance of said improvements.

**SUBDIVISION LANDSCAPING MAINTENANCE DISTRICT**

**METHOD OF SPREADING ASSESSMENTS**

1. The cost of maintenance for landscaping, irrigation systems and masonry wall and the cost for contract maintenance and any annexation documents (only if annexed that year) will be spread equally to each residential unit (lot) within their respective subdivision.

2. The cost of all incidental expenses including preparation of the Engineer's Report, district administration and annual billing expenses will be spread equally to each residential unit within the district.

3. The following exceptions will apply:

   a) Laguna Verde Subdivision:

      Lots 130, 131, 132, 133, 134, 135 and 136 are not included in the district.

   b) Chardonnay Subdivision

      Costs for this subdivision are assessed to each residential parcel within the approved tentative map boundary. The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the approved tentative map.

   c) Regency Place Subdivisions

      Costs for this subdivision are assessed to each parcel within the approved tentative map boundary. Costs for maintenance for landscaping, irrigation systems, masonry walls, contract administration, and incidental expenses are assessed to each benefitted parcel in proportion to its residents to the total number of residents (for single family and multi-family residences), which benefit from the maintenance. Each single family residential unit was determined to have an average of 2.673 persons per unit and each multi-family residential unit was determined to have an average of 1.818 persons per unit (Referenced 1980 census). The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the approved tentative map.

      Costs for billing for the subdivision are assessed to each benefitted parcel equally.

## SUMMARY:

The recommended Council action will levy the continuing annual assessment for FY 1997/98 and permanently change the name from the Subdivision Landscaping Maintenance District to the Neighborhood Landscaping District. The district provides funding for the annual cost of maintaining landscaped areas adjacent to the above listed subdivisions. With the exception of Arlington Park Creekside #4 and Villa Palazzo, which are first time billings, the annual assessments either remain the same or are reduced from the previous year.

## COMMITTEE/COMMISSION ACTION:

None.

## BACKGROUND INFORMATION:

On July 23, 1991, City Council approved formation of the Neighborhood Landscaping District. This district provides funding for maintenance of landscaping improvements, which are located adjacent to and/or along the frontage of residential subdivisions. At the time of formation, the initial district included the Laguna Verde and Laguna Parkway Subdivisions located in Council District #8. Since then, The City Council has annexed 14 additional subdivisions to the district. **ENVIRONMENTAL CONSIDERATION:**

Under CEQA Guidelines, administration and annual maintenance do not constitute a project and are therefore exempt from review.

**POLICY CONSIDERATIONS:**

These proceedings are being conducted in accordance with Landscaping and Lighting Act of 1972 as set forth in Section 22500 of the California Streets and Highways Code.

**MBE/WBE:**

The annual budget and assessment levy process does not involve the contractor selection process. The current contract to perform the landscaping maintenance was awarded in January of this year to a contractor licensed as both a MBE and WBE classification.

EXHIBIT D
NEIGHBORHOOD LANDSCAPING DISTRICT

METHOD OF SPREADING ASSESSMENTS

1. The cost of maintenance for landscaping, irrigation systems and masonry wall and the cost for contract maintenance and any annexation documents (only if annexed that year) will be spread equally to each residential unit (lot) within their respective subdivision.

2. The cost of all incidental expenses including preparation of the Engineer's Report, district administration and annual billing expenses will be spread equally to each residential unit within the district.

3. The following exception will apply:

   a) Laguna Verde Subdivision

      Lots 130, 131, 132, 133, 134, 135 and 136 are not included in the district.

   b) Cardonnay Subdivision

      Costs for this dubdivision are assessed to each residential parcel within the approved tenative map boundary. The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the approved tentative map.

   c) Regency Place Subdivisions

      Costs for this subdivision are assessed to each parcel within the approved tentative map boundary. Costs for maintenance for landscaping, irrigation systems, masonry walls, contract administration, and incidental expenses are assessed to each benefited parcel in proportion to its residents to the total number of residents (for single family and multi-family residences), which benefit from the maintenance. Each single family residential unit was determined to have an average of 2.673 persons per unit and each multi-family residential unit was determined to have an average of 1.818 persons per unit (Referenced 18\980 census). The number of residential units for each single family residential parcel, within the subdivision boundary, is based on the appr9ved tentative map.

      Costs for billing the subdivision are assessed to each benefited parcel equally.

   d) Laguna Vega

      At the time of this report Laguna Vega North Village 1 subdivision map was recorded and included the entire area called Laguna Vega North and South. This map recorded 83 residential lots and two parcels designated "remainder" on the map. These "remainder" parcels are included in the recorded map and represent the unsubdivided residential areas of Laguna Vega North and South. These unsubdivided areas have proposed residential lot counts of 158 for Laguna Vega North and 116 for Laguna Vega South. The total number of lots on the approved tentative maps for

Laguna Vega North and Laguna Vega South is 357.

The costs of providing the maintenance services is Fourteen thousand two hundred eighty and No/100 dollars ($14,280). The costs of providing the maintenance services includes all incidental expenses, including preparation of the Engineer's Report, annual proceedings, and district administration benefit each recorded and proposed residential lot within the subdivision equally.

Since the improvements benefit all residential lots within a subdivision equally, by definition the services to be provided and funded by this district will benefit each residential lot equally. Therefore, it is appropriate that the costs associated with provision of the services be spread equally to all residential lots within a subdivision.

Therefore, each of the 357 residential lots will be assessed 1/357 of the total costs. Laguna Vega North Village 1 will be assessed 83/357; the "remainder" parcel representing the balance of Laguna Vega North will be assessed 158/357; and the "remainder" parcel representing residential lots in Laguna Vega South will be assessed 116/357 of the total costs. Each of the 83 recorded residential lots in Laguna Vega North Village 1 will be assessed 1/357 of the total costs. The two "remainder parcels will be assessed based upon the proportionate shares indicated above, until such time as they are further subdivided. The maximum annual assessment will be forty and no/100 dollars ($40.00) upon each of the subdivided residential lots based upon the above calculation of 1/357 per total assessment of fourteen thousand two hundred eighty and no/100 dollars ($14,280). The "remainder" parcels will be reduced by 1/357 for each unrecorded residential lot at such time as the lot is subdivided and thereafter is assessed at 1/357 of the total assessment.
