MARTY VAN DUYN
PLANNING DIRECTOR

June 4, 1981

City Council
Sacramento, California

Honorable Members in Session:

- SUBJECT: 1. Environmental Impact Determination (Exempt 15115)
 2. Tentative Map (P-9389)

LOCATION: Northeast corner of Folsom Boulevard and Hornet Drive

SUMMARY

This is a request to divide a 3.75+ acre site into two parcels in the C-2 General Commercial zone. The purpose of the division is to develop a complex on the site. The staff and Subdivision Review Committee recommend approval of the request subject to conditions.

BACKGROUND INFORMATION

The subject tentative map does not require review by the Planning Commission because there are no concurrent applications filed. Therefore, the staff has transmitted the project directly to the City Council.

Surrounding Land Use and Zoning are as follows:

- North: Freeway; TC zone
- South: Commercial; M-2(S)
- East: Commercial; C-2
- West: Commercial; C-2

APPROVED
BY THE CITY COUNCIL

JUN - 9 1981

OFFICE OF THE
CITY CLERK

The project is exempt from environmental review pursuant to Section 15115 of CEQA.

The subject site is primarily vacant. There is a single family dwelling and a number of accessory structures located on the site. The applicant is intending to remove the structures and develop a Golden 1 on Parcel 1. A "spec" commercial building is proposed for Parcel 2. Staff has no objection to the proposed split.

The sites are large enough to accommodate structures, parking spaces and landscaping.

Upon submittal of detailed building plans, the applicant will be required to submit landscaping plans to demonstrate how the 50 percent shading requirement will be met.

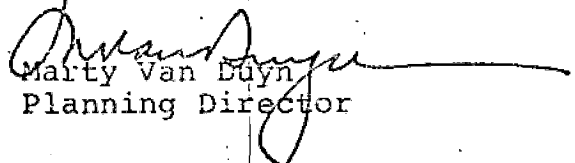

RECOMMENDATION

The Parcel Map Advisory Agency (Planning Director and City Engineer), based upon review by the Subdivision Review Committee, recommend approval of the tentative map subject to the following conditions:

1. The applicant shall provide standard subdivision improvements pursuant to Section 40.811 of the Subdivision Ordinance prior to filing the final map.
2. The applicant shall prepare a sewer and drainage study (may require offsite extensions) for the review and approval of the City Engineer prior to filing the final map.
3. The applicant shall place the following note on the final map: Water and sewer service connections do not exist between the main lines and Parcel 2. These services must be paid for and installed at the time of obtaining building permits.
4. The applicant shall prepare a right-of-way study along Folsom Boulevard (study may require additional right-of-way) for the review and approval of the City Engineer prior to filing the final map.
5. Bonds, private contract and engineering fees required prior to filing the final map.

This can be accomplished by adopting the attached tentative map resolution:

Respectfully submitted,

Marty Van Duren
Planning Director

RECOMMENDATION APPROVED:

Walter J. Slape, City Manager

June 9, 1981
District No. 6

RESOLUTION No. 87-410

Adopted by The Sacramento City Council on date of

JUNE 9, 1981

RESOLUTION ADOPTING FINDINGS OF FACT, APPROVING
A REQUEST FOR TENTATIVE MAP FOR PROPERTY LOCATED
AT THE NORTHEAST CORNER OF FOLSOM BOULEVARD AND
HORNET DRIVE (APN: 079-200-40) (P-9389)

WHEREAS, the Parcel Map Advisory Agency has submitted to the City Council its report and recommendations concerning the Tentative Map for property located at the northeast corner of Folsom Boulevard and Hornet Avenue (hereinafter referred to as the proposed subdivision).

WHEREAS, the Council of the City of Sacramento, based on testimony submitted at public hearing(s) conducted on June 9, 1981, hereby finds and determines as follows:

- A. The proposed subdivision, together with the provisions for its design and improvement, is consistent with the City General Plan and the College Greens Community Plan in that the plans designate the subject site for commercial uses.
- B. The site is physically suitable for the type and proposed density of development in that the subject site is flat with no significant erosional, soil expansion, or other similar problems.
- C. The design of the subdivision or proposed improvements are not likely to cause substantial environmental damage and will not substantially and avoidably injure fish, wildlife, or their habitat. The proposed project has been reviewed and assessed by the Environmental Coordinator, who has determined that the proposed project will not cause individual or cumulative adverse effects on the natural and social-physical environment or substantially and avoidably injure fish, wildlife, or their habitat pursuant to CEQA, Section 15115.
- D. The design of the subdivision or the type of improvements are not likely to cause serious public health problems in that community water and sewer systems exist at the site. The site is not within an established floodplain or over a known seismic fault.
- E. The design of the subdivision or the type of improvements will not conflict with easements acquired by the public for access through, or use of, the property within the proposed subdivision, in that there are no access easements for use by the public at large on the subject site.

APPROVED
BY THE CITY COUNCIL

JUN - 9.1981

OFFICE OF THE
CITY CLERK

- F. The discharge of waste from the proposed subdivision into the community sewer system servicing the proposed subdivision will not result in or add to a violation of the waste discharge requirements applicable to said sewer system which were prescribed by the California Regional Water Quality Control Board, Central Valley Region, in that the existing City of Sacramento treatment plants have a design capacity of 75 mgd and that actual treated discharge averages 56 mgd. The discharge from the proposed project will not create a condition exceeding the design capacity.
- G. The design of the proposed subdivision provides, to the extent feasible, for future passive or natural heating or cooling opportunities in the proposed subdivision, taking into consideration the local climate, the contour and configuration of the parcel to be divided, and such other design and improvement requirements applicable to the proposed subdivision.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Sacramento as follows:

The Tentative Map be approved subject to the following conditions:

1. The applicant shall provide standard subdivision improvements pursuant to Section 40.811 of the Subdivision Ordinance prior to filing the final map.
2. The applicant shall prepare a sewer and drainage study (may require offsite extensions) for the review and approval of the City Engineer prior to filing the final map.
3. The applicant shall place the following note on the final map: Water and sewer service connections do not exist between the main lines and Parcel 2. These services must be paid for and installed at the time of obtaining building permits.
4. The applicant shall prepare a right-of-way study along Folsom Boulevard (study may require additional right-of-way) for the review and approval of the City Engineer prior to filing the final map.

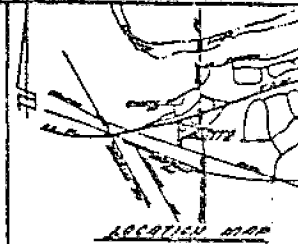

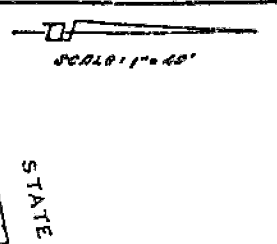

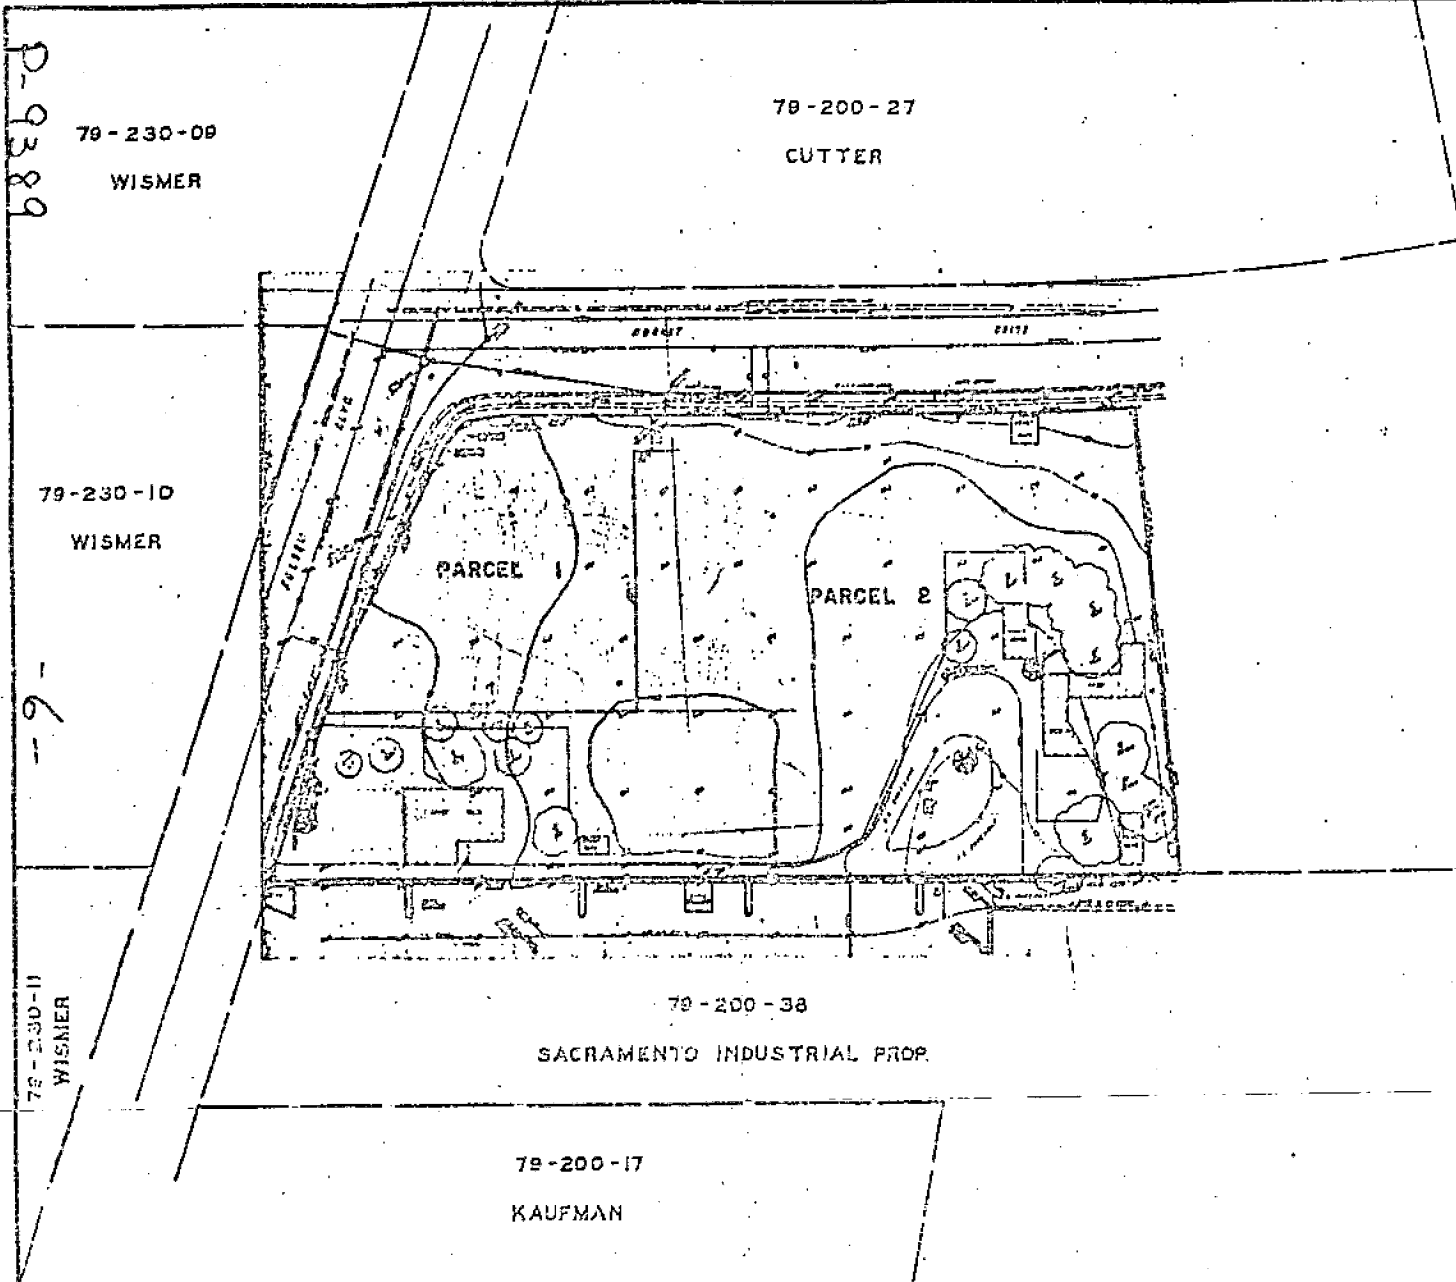

5. Bonds, private contract and engineering fees required prior to filing the final map.
