Honorable Members in Session:

SUBJECT: CITY OF SACRAMENTO EMERGENCY PLANNING ORDINANCE

SUMMARY

This ordinance is required by the Federal Government and the State Office of Emergency Services to authorize their paying the City of Sacramento for fifty percent of a Fire Captain's salary (assigned to Emergency Planning) and twenty-five percent of an Intermediate Stenographer's salary, plus administrative cost of this office.

BACKGROUND

Prior to January, 1974, the City of Sacramento handled the emergency planning for the County of Sacramento. In 1974, the Office of Emergency Planning was dissolved, the employees reassigned and the responsibility for emergency planning outside the City boundaries given back to the County government. The responsibility for emergency planning within the City was assigned to the fire department and in turn was assigned to a Deputy Chief along with his other assignments.

During this period of time, emergency planning was generally related to war oriented activities and because of the general public's attitude toward anything which was war oriented, emergency planning was given a low priority. As the years passed, it became apparent that emergency planning in relation to hazardous material incidents and natural disasters such as earthquakes, floods and tornados would require a higher priority rating.

As these incidents took place, Federal and State legislation began to mandate certain requirements with regard to crisis relocation, projected earthquakes and planning for nuclear generator incidents (Rancho Seco). Due to this increased workload, a Fire Captain was assigned the responsibility of Emergency Planning in October 1980.
