SACRAMENTO, CALIFORNIA

Honorable Members in Session

**SUBJECT: NEW CLASSIFICATION -- WATER CROSS-CONNECTION CONTROL  
SPECIALIST**

**SUMMARY**

This report recommends salary and bargaining unit placement for the new classification titled Water Cross-Connection Control Specialist which will be responsible for the development and implementation of the cross-connection control/backflow prevention program.

**BACKGROUND AND ANALYSIS**

As a purveyor of water, the City of Sacramento is required to protect the water supply through the implementation of a cross-connection control program. The City Water division has developed a Cross-Connection Control policy which has been approved by the City Council. The Water division has chosen to provide its own in-house cross-connection control program. The responsibility for the development and implementation of the cross-connection program has been assigned to a Water and Sewer Leadworker. These duties are not typically performed by a Water and Sewer Leadworker.

The Civil Service Board established the new Water Cross-Connection Control Specialist class in order to fully implement the program. This position investigates and enforces compliance with both State and Local laws, and conducts field tests and surveys. It is proposed that the salary and bargaining unit placement for the new class be the same as Water and Sewer Supervisor which is \$2658.59 - \$3231.45 monthly and that the class be placed in the Water and Sewer Unit.

Plumbers & Pipefitters, Local 447 has reviewed the proposals regarding the Water Cross-Connection Control Specialist salary and bargaining unit placement and is in agreement.

No Conflict of Interest codes are necessary for this new classification

**FINANCIAL IMPACT**

None at this time. The Public Works Department intends to request a position for the 92-93 fiscal year.

**POLICY CONSIDERATIONS**

None.

**MBE/WBE EFFORTS**

No impact.

**RECOMMENDATIONS**

It is recommended that the City Council amend resolution 91-024 to effect the new classification of Water Cross-Connection Control Specialist at a salary of \$2658.59 - 3231.45 per month and that the class be placed in Water and Sewer Unit.

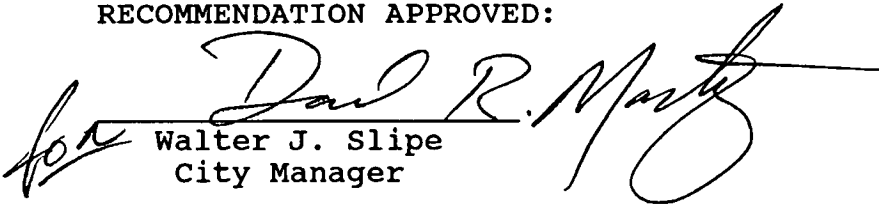

Respectfully Submitted,

Donna L. Giles

Director of Personnel
