PUBLIC WORKS

ENGINEERING DIVISION

May 12, 1987

City Council
Sacramento, California

Honorable Members In Session:

SUBJECT: Playfield Modifications at Del Paso Heights School (PN:LA51) -
Project Approval and Bid Advertisement

SUMMARY

Plans and specifications for this project have been prepared. Approval of the plans and specifications and authorization to advertise for bids is recommended.

BACKGROUND

This project was advertised for bids in September 1986, however, none of the four bidders submitted any of the required documentation to meet the good faith efforts to reach the DB/WBE goals, so all bids were rejected. It is now time to readvertise the project.

The project will regrade a portion of the playfield at the Del Paso Heights School to correct an erosion problem. Following irrigation or a rain storm, the water running off the playfield erodes directly onto the sidewalk and street area. This project will correct the problem.

A Categorical Exemption for this project was filed with the County Clerk of the County of Sacramento on July 22, 1986. The engineer's estimated construction cost is \$16,000.

FINANCIAL

Sufficient funds are available for this project. The estimated total project cost, including all planning, design and construction costs, is \$19,800. The current budget is \$20,000, which was approved in the Capital Improvement Program from Community Development Block Grant (CDBG) Funds.
