2-Sacramento City Employees' Retirement System Annual Financial Report FY 2025

3-FY2024/25 Auditor's Letter on Required Communications

Additional Description/Analysis

Issue Detail: Annual financial report provided to the board.

The Sacramento City Employees' Retirement System (SCERS) Annual Financial Report for the fiscal year that ended June 30, 2025 (FY 2024/25) was prepared by the Department of Finance Accounting Division and audited by external auditors, to present the financial results of SCERS. The June 30, 2025, Auditor's Report to the Administration, Investment, and Fiscal Management Board (AIFM Board) and Members of City Council provides additional information about the FY2024/25 SCERS audit.

Policy Considerations: This report is consistent with the City's fiscal transparency and accountability principles and is required by the AIFM Board Policy Statement.

Economic Impacts: None.

Environmental Considerations:

California Environmental Quality Act (CEQA): This action does not constitute a "project" as it involves only organizational or administrative activities that will not result in direct or indirect physical changes in the environment and is therefore exempt according to CEQA guideline Section 15378 (b) (5).

Sustainability: Not applicable.

Commission/Committee Action: None.

Rationale for Recommendation: Not applicable.

Financial Considerations: It is in the best interest of the AIFM Board to review the FY2024/25 SCERS Annual Financial Report to understand the structure, obligations, and liabilities of the City's SCERS retirement program:

- SCERS is a defined benefit plan in which retirement benefits for members (applicable City employees) are based upon age, final compensation, and length of service. In 1977, with the passage of Measure E, SCERS became a closed system. Since that time, all of the City's full-time and eligible part-time employees participate in the California Public Employees' Retirement System (PERS) rather than SCERS.
- As of June 30, 2025, the SCERS plan had 710 participants (1 active) with an average age of 70.5 and an average of 48.3 years of service with the City.
- Assets for SCERS are held in trust. Trust monies are used to pay benefits to plan participants and their beneficiaries. The trust is managed pursuant to the City Charter under the direction of the AIFM Board.

The public accounting firm Macias Gini & O'Connell LLP audited the SCERS FY2024/25 financial statements and rendered its unmodified opinion that the financial statements are fairly presented in accordance with generally accepted accounting principles.

Local Business Enterprise (LBE): Not applicable.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

December 19, 2025

TO: Members of the Sacramento City Employees' Retirement System

Members of the Sacramento City Council

Transmitted herewith is the annual report of the Administration, Investment and Fiscal Management Board (Board) for the Sacramento City Employees' Retirement System (SCERS or System). This report addresses Board membership, history of the System, investment objectives, asset allocation, financial results, members' interest credit, fund performance, administration highlights, together with reports by an independent auditor and actuary, all as of the close of the 2025 Fiscal Year, or June 30, 2025.

The Annual Financial Report consists of three main sections: an Introductory Section represented by this letter of transmittal and the identification of the System's financial governing body, and the administrative and consulting services utilized by SCERS; the Financial Section which contains the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the financial statements of SCERS, Required Supplementary Information (RSI), and Other Supplementary Information; and the Actuarial Section which contains the independent consulting actuary's valuation along with related actuarial data and statements.

BOARD MEMBERSHIP

As set out in the Sacramento City (City) Charter, the Board is comprised of five members, three of whom are City officials (or their designees), and two of whom are public citizen members appointed by the City Council. The Sacramento City Manager, City Treasurer and Director of Finance are the City officials designated to serve on this Board. By City Charter, the public citizen members must be residents of the City of Sacramento, not connected with City government, and at least one of these members must be qualified by training and experience in the management and investment of funds.

The members of the Board as of the close of the fiscal year are as follows:

City Officials

Leyne Milstein, City Manager (Interim) (Michael Tamayo, Designee)
John Colville, City Treasurer
Peter Coletto, Director of Finance

Public Citizen Members

Dave O'Toole
Yousaf Zamanudin

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

Leyne Milstein, City Manager (Interim), previously served on the Board as the Director of Finance. Ms. Milstein previously held the position of Assistant City Manager and Budget Manager. She has been a City employee since 2005. Ms. Milstein has appointed Michael Tamayo, Principal Budget Analyst, to serve as her designee. He has been with the City since 2016.

John Colville, City Treasurer, was appointed to his current position in February 2016 and assumed his position on the Board in February 2016 upon his appointment as Interim City Treasurer. Prior to his appointment as City Treasurer, Mr. Colville served as Interim City Treasurer and prior to that, as Chief Investment Officer for the City. As Chief Investment Officer, Mr. Colville supervised the investment activities of the City Treasurer's Office, including the investment of City and SCERS funds. Mr. Colville has been a City employee since 2004.

Peter Coletto, Director of Finance, joined the Board upon his assuming the duties of Director of Finance for the City in mid-2023.

Dave O'Toole is a public citizen member and joined the Board in mid-2023.

Yousaf Zamanudin is a public citizen member and joined the Board in Fall of 2023.

HISTORY

SCERS is a defined benefit plan in which retirement benefits for City member employees are based upon age, final compensation, and length of service. City employee members make contributions to the System and, until 1993, the City made a normal contribution which was a percentage of total City payrolls. These cash payments are held in trust and invested to meet the retirement benefits of members. However, if these invested assets prove inadequate to meet the defined benefits, the City must contribute additional monies to pay benefits. Between fiscal year 1988/1989 and fiscal year 2006/2007, the System's anticipated liabilities were fully funded or in an actuarial surplus condition, and the City was not required to make contributions to the System during that time period. The City restarted contributions in fiscal year 2007/2008. For the current fiscal year ended June 30, 2025, the City made a \$1.362 million contribution for the fiscal year ended June 30, 2025.

In 1977, with the passage of Measure E, SCERS became a "closed" system, i.e., there would be no additional employees participating in the plan. Since that time, all full-time and eligible part-time employees of the City participate in the California Public Employees' Retirement System (CalPERS) rather than SCERS. In 1977, the average age of SCERS active members was 36 years.

In June 1989, the voters of Sacramento approved the transfer of SCERS active safety members to CalPERS. Effective December 30, 1989, SCERS active safety members were transferred to CalPERS with a cash transfer of \$103.3 million in January 1990.

As of June 30, 2025, there is one active miscellaneous member and a total of 710 plan participants. As of said date, the one active miscellaneous member is 70.5 years old and has 48.3 years of service.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

Pursuant to the Sacramento City Charter, the Board has exclusive authority to invest and manage the System's funds. The Board, in turn, has selected the Sacramento City Treasurer and Treasurer's Office investment personnel to conduct daily investment activities consistent with Board-approved policies and direction. The City Treasurer's office also serves as staff to the Board.

INVESTMENT OBJECTIVES

The overarching goal of the SCERS investment program is to utilize prudent investment practices to generate adequate long-term returns that, when combined with employer and employee contributions, will result in sufficient assets to pay the present and future obligations of the System. In furtherance of this goal, the Board has adopted an investment policy that, among other things, authorizes the investment in different asset classes to promote both long-term returns and short-term cash needs. The emphasis on cash income and fixed income investments is intended to meet current benefit payments on a continuing basis, while equity investments are intended to grow the asset base with dividend income providing additional support for current benefit payments.

The emphasis on interest revenue and dividend income is particularly important for SCERS as there are no new entrants to the System to provide a continuing source of funds to help cover the liabilities of the System. Cash payments for benefits have exceeded contributions since 1989. Accordingly, the cash generation emphasis in SCERS investments is a critical feature required from SCERS status as a "closed" plan, that has negligible and declining numbers of active, contributing members. Equity investments are permitted to inject an element of growth within the investment portfolios to grow the System's asset base.

The Board annually reviews and approves the SCERS investment policy and forwards the same to the City Council for its approval pursuant to City Charter requirements. All SCERS investments are held by a third-party custodian.

ASSET ALLOCATION

Pursuant to the SCERS investment policy, the Board annually reviews its asset allocation, i.e., the allocation of the System's funds to different investment asset classes. On May 16, 2024, the Board established the asset allocation of the investment of SCERS funds during the fiscal year beginning July 1, 2024, and ended June 30, 2025. The approved asset allocation is as follows:

<u>Fixed Income</u>	
Fixed Income/Real Estate	37.5%
<hr/>	
<u>Equity</u>	
Large Cap Growth	30.0%
Equity Income	30.0%
International	<u>2.5%</u>
	<u>100.0%</u>

ACTUARIAL EARNINGS ASSUMPTION

During the fiscal year ended June 30, 2025, SCERS actuarial earnings assumption was 6.0%.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

FINANCIAL RESULTS

The plan net position of SCERS decreased from \$253.497 million to \$253.354 million by the end of the fiscal year ended June 30, 2025. This \$143 thousand decrease is summarized as follows:

SCERS PLAN NET POSITION	\$ in thousands
Plan net position 6/30/24	\$253,497
Members Contributions	1
City Contributions	1,362
Total Investment Income	25,939
Benefit Payments and Expenses	(27,445)
Plan net position 6/30/25	\$253,354

SCERS' Total Pension Liability (TPL) as of June 30, 2025, is approximately \$231.205 million. TPL represents the present value of all future benefits that will be paid by SCERS. SCERS funding ratio using fair value of assets was 109.6% percent of TPL on June 30, 2025. The funding ratio is defined as that portion of the total TPL for which there are assets available for benefits. As such, the System's actuary indicates that for every dollar of benefits due, SCERS has approximately \$1.10 of assets available for payment. SCERS has a Net Pension Asset of \$22.149 million.

TOTAL FUND PERFORMANCE

As required by the SCERS Investment Policy, the Board retained a third-party firm, namely Segal Marco Advisors to calculate total investment return and measure investment performance. Segal Marco Advisors is an independent fund evaluation and performance measurement service that calculates and reports the investment results of over 2,500 managed pension investment portfolios in the U.S. Segal Marco Advisors calculates the investment results of the managed portfolios and compares such results to the database of predetermined industry benchmarks.

Table 1 below shows investment return results of SCERS for the specified periods ended June 30, 2025:

SCERS Total Rate of Return TOTAL PLAN ASSETS For the periods ended June 30, 2025			
Annualized Compound Returns	1 Yr.	3 Yrs.	10 Yrs.
SCERS – All Funds	10.6%	11.1%	8.0%
Custom Index – Target*	10.3%	10.0%	6.7%
Actuarial Assumption**	6.0%	6.0%	6.3%

* The Custom Index is a blended return based on the actual market performance of Segal Marco Advisors benchmarks representing each of the investment asset classes utilized by the System pursuant to the Board's established asset allocation.

** The Actuarial Assumption was changed to 6.0% as of June 30, 2021.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

For the fiscal year ended June 30, 2025, the total return of the System's invested assets resulted in a 10.6% overall return. The System's investment returns exceeded the market-based benchmarks utilized by Segal Marco Advisors for each of the 1-year, 3-year and 10-year time frames. The System also outperformed the 1-year actuarial assumption. Consistent with the "prudent person" standard set forth in the SCERS investment policy, the Board and its investment staff do not attempt to boost performance to the actuarial rate of return by going into riskier investments that would inject more volatile, non-transparent and/or illiquid assets into the portfolio. Rather, driven by the System's status as a "closed" fund virtually devoid of present and future member cash contributions, the System's investment policy points to a relatively conservative investment strategy that stresses the importance of preservation of capital and generation of cash flows from such assets.

Preservation of the SCERS' assets is challenged by the required cash payments of retiree benefits paid from such assets. As the number of active members and their contributions have been in constant decline, the number of retirees and hence the amount of cash needed for benefits payments has stabilized but has been declining since 2015. The preservation of the System's assets at the same time as the liabilities of the plan decline (declining retiree benefits being paid) will facilitate improving funding ratios over time. Increasing the funding ratio over time will further decrease the need to incur risk in the portfolio as the System works towards an endgame of meeting the benefit payments of a dwindling retiree pool in an orderly, non-volatile manner.

To best manage the long-term competing factors of capital preservation and cash generation, the Board historically has placed emphasis on income-generating investments. Such investments include allocations to interest-bearing fixed income instruments as well as dividend-paying equity securities. The emphasis on interest-bearing fixed income investments reached as high as 70% of plan assets in 1995, all with the goal of generating cash yields close to the actuarial return assumption of 6.0%. Such fixed income investments are within the Fixed Income Fund maintained by the System.

Long-term interest rates continued to fall from their high levels in the early 1980's, including consistent declines since then through the 2008-2009 financial crisis that resulted in historic low rates. As the yield on long maturity bonds fell below the actuarial return assumption, the Board started to allocate funds to dividend-paying equities. At first, these dividend-paying equity holdings were lumped together with interest-bearing fixed income securities, all within the Fixed Income Fund. While the dividend-paying stocks have certain bond-like attributes, such as a consistent, steady stream of periodic income, they behave sufficiently differently to warrant analyzing and managing such holdings separately from bond holdings. From and after 2008, such stocks were recorded in their own portfolio within the System known as the Equity Income Fund. The Equity Income Fund's cash dividends, as well as the interest earned on Fixed Income Fund holdings, constitute an important portion of the return on the System's assets. In addition, Equity Income stock holdings may also contribute capital returns in the form of higher share values.

For the fiscal year ended June 30, 2025, the System's targeted allocation was 67.5% in income producing assets, with the Fixed Income Fund at 37.5% and the Equity Income Fund at 30.0%. The overweight to income-generating investments reflects the Board's prudent approach to maintaining the actuarial soundness of the System and the ability to pay retiree benefits. Moreover, the volatility of the Fixed Income Fund and Equity Income Fund has been less than what is experienced in the other growth equity portions of the SCERS portfolio. In overweighting the portfolio to these two Funds, the Board seeks more consistent cashflow and total returns while minimizing undue volatility in City contributions which may occur due to wide swings in portfolio values due to greater weightings to the more growth-oriented equity allocations.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

Fixed Income Performance

Based on the Board's asset allocation for FY 2025, 37.5% of SCERS assets were allocated to fixed income investments within the Fixed Income Fund. During the year, such fixed income investments included corporate, municipal, and mortgage-backed bonds, short-term high yield ETFs, plus short-term, cash-equivalent investments. All told, the Fixed Income Fund's investments are debt securities whose primary source of portfolio return is interest income, with increases in value of the holdings a secondary source of return.

Table 2 reflects SCERS' performance of the Fixed Income Fund for various periods ended June 30, 2025:

Table 2			
SCERS Total Rate of Return			
FIXED INCOME			
For the periods ended June 30, 2025			
Annualized Compound Returns	1 Yr.	3 Yrs.	10 Yrs.
SCERS Fixed Income Fund	7.2%	4.2%	2.9%
Fixed Portfolio Index*	6.1%	2.5%	1.8%

* Fixed Portfolio Index = 100% Barclays US Aggregate Bond Index from March 2008 to present.

The Fixed Income Fund produced a total rate of return of 7.2% for the one-year period ended June 30, 2025, as the Federal Reserve (Fed) began reducing the Federal Funds rate in the Fall of 2024. During the Fiscal Year the Fed lowered rates in September, November and December of 2024, and then held them steady for the remainder of the Fiscal Year. The fund outperformed its benchmark over the fiscal year ended June 2025 and has a long history of outperformance as reflected in the returns over the 3 and 10-year timeframes. Over the past 10 years, the Fixed Income Fund has returned 2.9%, which exceeds the benchmark return of 1.8%. The Fixed Income Fund continues to generate significant cashflow to the fund, and is primarily invested in high-quality, high coupon, corporate and municipal securities.

This year's Fixed Income Fund's return of 7.2% continues a significant increase over the previous years returns. This increase in return occurred in an interest rate environment trending downwards. A brief history of the Fed's interventions is as follows: In the Fall of 2014, the Fed terminated their bond purchase program. They continued with their first hike of the Federal Funds rate in December 2015. The tightening strategy grew in momentum with six 0.25% Federal Fund rate hikes through FY 2018 (bond prices move inversely to interest rates as higher rates result in lower bond values). Those rate hikes in the short-term Federal Funds rate, coupled with a strengthening labor market and economy, resulted in an upward shift in rates across all maturities on the yield curve. However, following the last hike in December 2018, the Fed faced great criticism that it may not have been warranted due to softening economic data. While equity and bond markets suffered in the aftermath of the December 2018 hike, the Fed maintained their stance of being data dependent and made no changes to interest rates through June of 2019, citing stable unemployment and low inflation which stabilized fixed income markets. As the new fiscal year began in June of 2019, markets were stable, and the economy was expanding but inflation was stagnant. Increased rhetoric on the trade war front with China and flat GDP led the Fed to reduce interest rates three times by October 2019 down to 1.75%. In late 2019 and early 2020, rumors of an uncontrollable pandemic began to echo through global markets. In the first calendar quarter of 2020, the United States equity markets experienced a major downward shock, and the Fed intervened twice within two weeks in March 2020 and took the Fed Funds

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

rate down to .25% to support an economy that had all but come to a standstill. As the fiscal year ended in 2021 the Fed had communicated its intent to keep this .25% rate in effect for the next 12 months. In FY 2022, rates hit historic lows and with the backdrop of rising inflation the Fed began aggressively raising interest rates. The first hike raised the Federal funds rate off essentially 0% in March 2022. By the end of the fiscal year ended June 30, 2024, the Fed had raised rates 550 basis points since the March 2022 lows. This hawkish stance continued into 2024, with the last hike occurring in July of 2023. The current cycle of rate cuts began in September 2024. The coupons of the portfolio's holdings contributed approximately \$4.0 million in cash interest payments during the fiscal year ended June 30, 2025. This was an increase from the previous year of \$3.6 million, due to the increased allocations to the Fixed Income portfolio in a higher interest rate environment.

Equity Investment Performance

Equity investment is a broad term used to describe investments in ownership interests in the issuing corporation. Common stocks represent corporate ownership interests. Stocks are typically purchased with the desire to capitalize on the growth of the issuing corporation. Also, many corporations pay dividends to holders of their common stock which provides shareholders with cash income. Common stocks can be purchased individually so the shareholders can target specific companies for growth and/or income purposes. Common stocks may also be purchased in groups through exchange traded funds (ETFs). ETFs can hold stocks of companies included in indexes (e.g., S&P 500 and Russell 2000) or which participate in various economic sectors (e.g., technology, financial and energy sectors) or focus on different investment themes (e.g., growth and value stocks). ETFs provide investors with effective tools to provide exposure into broad swaths of the market or into specific sectors of the economy. This is as opposed to requiring investors to identify stocks of individual companies to achieve the same exposure, all while incurring the risk that such selected individual companies fail to perform in-line with the index or sector (known as "single company risk"). While an ETF represents a collection of stocks, each ETF trades like stocks of individual companies on the major exchanges. SCERS equity portfolios are invested in both single company stocks and ETFs.

By Board policy for the fiscal year ended June 30, 2025, 62.5% of SCERS assets were to be allocated to equity investments, both domestic and international and including both growth and income objectives.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
 Letter to the Members of the Sacramento City Employees'
 Retirement System and the Sacramento City Council
 Fiscal Year Ended June 30, 2025

Table 3 shows the performance of SCERS' equity investments, both domestic and international:

Table 3			
SCERS Total Rate of Return			
DOMESTIC EQUITY INVESTMENTS			
For the periods ended June 30, 2025			
Annualized Compound Returns	1 Yr.	3 Yrs.	10 Yrs.
SCERS Domestic Equities	12.9%	15.4%	11.1%
Domestic Equity Index*	13.8%	17.3%	11.1%
Individual SCERS Domestic Equity Portfolios			
Large Cap Growth Fund	12.2%	17.5%	12.2%
Large Cap Index**	13.6%	17.9%	11.6%
Equity Income Fund	13.7%	13.2%	9.8%
Equity Income Index***	11.3%	10.3%	7.9%

* Domestic Equity Index = February 2006 to present = 100% Russell 3000 Index (price)

** Large Cap Index = June 2007 to present = 100% S&P 500

*** Equity Income Index = March 1992 to June 2016 = 100% Dow Jones Select Dividend Index, July 2016 to present = Russell 1000 value (price)

Table 4			
SCERS Total Rate of Return			
INTERNATIONAL EQUITY INVESTMENTS			
For the periods ended June 30, 2025			
Annualized Compound Returns	1 Yr.	3 Yrs.	10 Yrs.
SCERS International Fund	14.0%	11.7%	5.0%
International Equity Index*	14.8%	11.0%	3.4%

* International Index = July 2007 to present = 100% MSCI ACWI ex US

Per Table 3, the performance of the overall SCERS domestic equity portfolio was 12.9% for the one-year period as compared to the 13.8% return by the benchmark (Russell 3000 which represents the stocks of approximately 98% of U.S. publicly traded corporations and includes many small and micro companies). Although the rolled up domestic equity portfolios underperformed the benchmark on a 1-year basis, over the longer term the portfolios perform on par with the Domestic Equity Index. The domestic equity sub portfolios had split performance vs their respective benchmarks, with slight underperformance in the Large Cap Growth portfolio. Both portfolios sizable positive returns greatly outperformed the Plan's actuarial rate of return of 6.0%. The above average performance of the portfolios and the market benchmarks are commensurate with a market that developed a comfort level in an economy exhibiting strong growth, coupled with an easing interest rate environment.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

The two domestic stock portfolios, Large Cap Growth Fund and Equity Income Fund, showed slightly correlated returns for the fiscal year as investors bought both growth-oriented stocks and income producing stocks at different stages over the fiscal year. Like these outstanding domestic returns, the international portfolio also recorded positive returns as recession fears continued to be tampered down in the United States and around the world.

The Plan's Large Cap Growth Fund is benchmarked to the S&P 500 Index. The 1-year return outperformed the actuarial target but underperformed its corresponding benchmark in the short term. Over the longer term, it has outperformed over the 5-, 7- and 10-year time frames. In just the first quarter of FY 2025, the S&P 500 saw a 5.4% return in just 3 months. Although the Large Cap Growth Fund's primary objective is growth, the portfolio also generated almost \$1 million in dividend payments to fund the System's operating needs.

The second equity portfolio is the Equity Income Fund. As stated above, the purpose of this Fund is primarily to boost the dividend cash income of the Plan to provide a source of benefit payments. Just like the Large Cap Growth Fund, the Equity Income Fund had positive returns as a result of the rally that gained traction starting in the first quarter of FY 2025 with an 8.8% index return in just 3 months. Typically, investors flock to dividend paying stocks but in a rising interest rate environment these stocks look less attractive as risk free rates are competitive. As the Fed began to intervene and lowered interest rates, these stocks looked even more attractive. The Equity Income Fund and the Large Cap Growth Fund had highly correlated performance for the fiscal year. These equities provide a generous cash flow through dividends along with the potential for upside. The Equity Income Fund helps to fulfill the Board's objective of enhancing cash income to help pay benefits. The Fund's contribution from dividends was \$1.5 million for the year, providing a much-needed cash infusion into the System as intended.

The International Fund holds equities issued by foreign corporations. It is the smallest of the three equity portfolios. While almost half of the world's investable equities are issued by foreign companies, the Board has kept the portfolio's weighting low (2.5% for the fiscal year ended June 30, 2025) due to global economic and political uncertainties as well as geo-political strife. The lower weighting to international stocks was reflective of the past ten years when international stocks were either in bear markets or otherwise vastly underperformed the domestic stock market by posting low single-digit returns over the longer time periods. For the fiscal year ended June 30, 2025, not unlike our domestic markets, international markets benefited from the belief that the world could evade a long and sustained recession. Our international portfolio turned in a 14.0% return for the FY 2025 compared to the benchmark return of 14.8%. While the international component of the portfolio does not contribute significant cashflow into the System, it offers prudent diversification away from the domestic holdings which comprise the majority of the Fund's assets. The International Fund generated almost \$63 thousand in dividend payments over the fiscal year.

In 2014, the Board authorized an options program primarily involving the writing of call options on existing equity holdings. The purpose of the options program is to increase cash income to the Fund and provide a hedge against the decline in its investments. Since its inception, the call-write program has had a neutral impact on the returns and cash generation of the Fund. The options program had been temporarily halted as the Fund had struggled to find adequate specialist coverage for the program. The program restarted in November 2022 and ended the fiscal year with a .14% boost on the performance of the Large Cap growth portfolio. This program is something that is prudent to run in a market that has more uncertainty and spiking volatility but does not perform as well in a market that is consistently inching upward.

Letter to the Members of the Sacramento City Employees'

Retirement System and the Sacramento City Council

Fiscal Year Ended June 30, 2025

INDEPENDENT AUDIT

SCERS receives an independent audit of the basic financial statements. Macias Gini & O'Connell LLP (MGO) conducted the audit for the fiscal year ended June 30, 2025, and issued an unmodified or "clean" opinion. The Independent Auditor's Report can be found on page 12 of this report. The City is responsible for establishing and maintaining internal controls designed to ensure the protection of assets from loss, theft, or misuse, and for ensuring the accounting information generated is adequate to prepare financial statements in conformity with accounting principles generally accepted in the U.S. The design of the internal controls is to provide reasonable assurance, although not absolute assurance, of achieving these objectives. The accuracy and completeness of the data outlined in this report is the sole responsibility of the management of SCERS.

ACTUARIAL VALUATION

The actuarial valuation and GASB 67 & 68 reports for SCERS as of June 30, 2025, are presented in this document. Very briefly, these reports identify a Net Pension Asset of \$22.149 million as of June 30, 2025. This positive amount is an increase from a Net Pension Asset of \$4.088 million as of June 30, 2024.

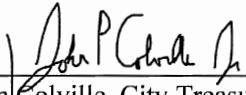

PROFESSIONAL SERVICES

SCERS engages the following consultants to assist in the management and investment of assets:

<u>Firm</u>	<u>Duties</u>
Segal Marco Advisors	Performance evaluation
Foster & Foster (formerly known as Bartel Associates)	Actuarial evaluation and asset allocation (since 6/30/06)
JPMorgan	Custody and master trust (since 8/1/17)

BOARD MEETINGS

For the fiscal year ended June 30, 2025, the regular meetings of the Board were held in person at City Hall. Those meetings were held at 1:00 pm on November 21, 2024, February 20, 2025, and May 15, 2025. The Board's meetings were open to the public and attendees were afforded the opportunity to provide input on any matter on the meeting agenda or not on the agenda that may be related to the Board's activities.

Letter to the Members of the Sacramento City Employees'
Retirement System and the Sacramento City Council
Fiscal Year Ended June 30, 2025

POLICY STATEMENT

As a matter of policy, the Administration, Investment and Fiscal Management Board has determined the following schedules shall be included as addenda to the Annual Financial Report of the Sacramento City Employees' Retirement System:

1. A letter of transmittal to the City Council from the Board Chair;
2. An independent auditor's report;
3. A statement of the System's fiduciary net position;
4. A statement of changes in the fiduciary net position
5. A detailed listing of investments (by security) as of the end of the fiscal year;
6. A statement from the Actuary showing the estimated position of the Fund based on latest actuarial projections; and
7. The policy statement of the Board. The Board shall notify recognized employee organizations and the City Council of any changes in the policy statement that are to be made.

Adopted May 1978

Independent Auditor's Report

Administration, Investment, and Fiscal
Management Board
Sacramento City Employees' Retirement System
Sacramento, California

Honorable Mayor and City Council
City of Sacramento
Sacramento, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Sacramento City Employees' Retirement System (SCERS), a component unit of the City of Sacramento, California, as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the SCERS' basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the plan net position of SCERS as of June 30, 2025, and the changes in its plan net position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SCERS and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the SCERS' financial statements for the fiscal year ended June 30, 2024, from which such partial information was derived.

Report on Partial Comparative Information

We have previously audited the SCERS' 2024 financial statements, and we expressed an unmodified opinion on the financial statements in our report dated December 20, 2024. In our opinion, the partial comparative information presented herein as of and for the fiscal year ended June 30, 2024, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Responsibilities of Management for the Financial Statements

The SCERS' management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCERS' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SCERS' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCERS' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in net pension liability (asset) and related ratios, the schedule of employer contributions and the schedule of investment returns, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who

considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the SCERS' basic financial statements. The listing of investments is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the listing of investments is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The SCERS' management is responsible for the other information included in the annual financial report. The other information comprises the introductory and actuarial sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2025, on our consideration of the SCERS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the SCERS' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the SCERS' internal control over financial reporting and compliance.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento
Management's Discussion and Analysis (Unaudited)
Fiscal Year Ended June 30, 2025

The management of the Sacramento City Employees' Retirement System (SCERS) is pleased to provide this overview and analysis of the financial activities of SCERS for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with the Financial Statements and Supplemental Schedules that follow this discussion.

Financial Highlights

- SCERS held \$253.4 million of net position restricted for pension benefits as of June 30, 2025 and \$253.5 million as of June 30, 2024. SCERS' entire net position balance is restricted for its ongoing obligation to plan participants and their beneficiaries.
- SCERS' funding objective is to maintain sufficient net position through investments and contributions to meet long-term obligations for benefits. As of June 30, 2025, SCERS had a funded status of 109.6% which means for every dollar of total pension liability, SCERS had approximately \$1.10 of assets available to pay those benefits. This figure is based on the most recent actuarial valuation as of June 30, 2025. As of June 30, 2024, SCERS had a funded status of 101.6%.
- For the fiscal year ended June 30, 2025, actuarially determined and actual employer contributions were \$1.4 million. For the fiscal year ended June 30, 2024, actuarially determined and actual employer contributions were \$1.4 million.
- For the fiscal year ended June 30, 2025, SCERS' net income from investment activity was \$24.9 million, compared to net investment income of \$29.1 million in the prior year. The decrease in investment income was mainly due to appreciation in the fair value of investments of \$19.4 million in 2025 compared to appreciation in the fair value of investments of \$23.3 million in 2024.

Overview of Financial Statements

The following discussion and analysis are intended to serve as an introduction to SCERS' financial statements, which are comprised of the following components:

1. ***Statement of Fiduciary Net Position*** is a snapshot of account balances as of June 30, 2025, with comparative amounts for 2024. It indicates the total assets and the total liabilities as well as the net position available for future payment of retirement benefits and investment expenses.
2. ***Statement of Changes in Fiduciary Net Position*** provides a view of additions and deductions to SCERS' net position during each of the fiscal years.
3. ***Notes to the Basic Financial Statements*** and ***Required Supplementary Information*** provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

The statement of fiduciary net position and the statement of changes in fiduciary net position report information about SCERS' financial activities, prepared using the accrual basis of accounting. Contributions to SCERS are recognized when due, and benefits and refunds are recognized when due and payable. Investments are reported at fair value. The estimated fair value of investments is based on available quoted market prices or other significant observable inputs. Purchases and sales of investments are recorded on a trade-date basis.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Management's Discussion and Analysis (Unaudited) (Continued)

Fiscal Year Ended June 30, 2025

Financial Analysis

SCERS' net position may serve as a useful indicator of SCERS' financial position over time. As mentioned earlier, SCERS' entire net position balance is restricted for SCERS' ongoing obligation to plan participants and their beneficiaries. Net position as of June 30, 2025 and 2024 is as follows:

FIDUCIARY NET POSITION SUMMARY As of June 30, 2025 and 2024 (in thousands)

	2025	2024	Change	Percent
Cash and cash equivalents	\$ 2,626	\$ 2,547	\$ 79	3%
Receivables	1,116	1,070	46	4%
Investments	251,734	252,072	(338)	0%
Total assets	<u>255,476</u>	<u>255,689</u>	<u>(213)</u>	<u>0%</u>
 Total liabilities	 2,122	 2,192	 (70)	 -3%
 Net position restricted for pensions	 <u>\$ 253,354</u>	 <u>\$ 253,497</u>	 <u>\$ (143)</u>	 <u>0%</u>

SCERS' net position restricted for pension benefits decreased in 2025, as pension benefit payments exceeded contributions and investment income. Cash increased by \$0.1 million, and investments decreased by \$0.3 million. The increase in cash can be mainly attributed to employer contributions and the sale of investments, offset by benefit payments. The decrease in investments can be attributed to the sale of investments for pension benefit payments, partially offset by investment income, mainly net appreciation in fair value due to realized and unrealized gains. In 2025, SCERS' money-weighted rate of return on pension plan investments, net of pension plan investment expense was 10.33%. Although fiduciary net position decreased by less than 1%, total pension liability decreased at a higher rate of 7%, which led to an increase in SCERS' funded status from 101.6% to 109.6% in 2025.

The following table summarizes additions and deductions for 2025 and 2024:

HIGHLIGHTS OF CHANGES IN FIDUCIARY NET POSITION
Fiscal Years Ended June 30, 2025 and 2024

	(in thousands)	2025	2024	Change	Percent
Additions:					
Employer contributions	\$ 1,362	\$ 1,399	\$ (37)	-3%	
Employee contributions	1	1	-	0%	
Net appreciation in the fair value of investments	19,356	23,338	(3,982)	17%	
Interest	3,935	3,650	285	8%	
Dividends	2,648	3,147	(499)	-16%	
Investment expenses	<u>(1,050)</u>	<u>(1,026)</u>	<u>(24)</u>	<u>-2%</u>	
Total additions	26,252	30,509	(4,257)	14%	
Deductions:					
Benefit payments	26,395	26,933	(538)	-2%	
Refunds of employee contributions	-	45	(45)	100%	
Total deductions	26,395	26,978	(583)	-2%	
Net increase/(decrease) in fiduciary net position	(143)	3,531	(3,674)	-104%	
Net position restricted for pensions:					
Beginning of fiscal year	253,497	249,966	3,531	1%	
End of fiscal year	\$ 253,354	\$ 253,497	\$ (143)	0%	

- Actuarially determined and actual employer contributions were \$1.4 million for each of the fiscal years ended June 30, 2025 and June 30, 2024. Actuarially determined contributions in 2025 were based on a June 30, 2023 valuation date and SCERS had a funded status of 95.5% at that time.
- Net appreciation in the fair value of investments decreased by \$3.9 million in 2025. The \$19.4 million gain during the fiscal year ended June 30, 2025 consists of \$9.7 million of unrealized gains and \$9.7 million of realized gains, compared to \$13.0 million of unrealized gains and \$10.3 million of realized gains for the fiscal year ended June 30, 2024.
- The decrease in realized gains is mainly due to the performance of the Large Cap Growth Fund, which recognized a \$5.4 million gain in 2025 compared to a \$8.0 million gain in 2024. The decrease in realized gains was offset by the performance of the Equity Income Fund, which recognized a \$3.4 million gain in 2025 compared to a \$1.9 million gain in 2024. The decrease in unrealized gains is mainly due to the performance of the Large Cap Growth Fund and the Equity Income Fund, which recognized a combined \$7.3 million increase in fair value in 2025 compared to a \$12.6 million increase in 2024. This was offset by the performance of the Fixed Bonds Fund, which recognized a \$2.8 million increase in fair value in 2025 compared to a \$400 thousand increase in 2024.
- Benefit payments to plan participants decreased due to a decline in the number of participants receiving benefits. The decrease was slightly offset by the annual cost-of-living adjustment made to the benefit amount. As the plan has been closed since 1977, the number of participants receiving benefits declines each year.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Management's Discussion and Analysis (Unaudited) (Continued)

Fiscal Year Ended June 30, 2025

Changes in Funded Ratio

SCERS funded ratios as of June 30, 2024, and 2025 were 101.6% and 109.6%, respectively. The increase in funded ratio between June 30, 2024, and June 30, 2025, is due to the negligible decrease in plan fiduciary net position of less than 1%, while total pension liability decreased by 7%.

Currently Known Facts and Events

The overall risk profile of SCERS has remained unchanged since June 30, 2025, and the volatility of the investment portfolio remains in line with the overall financial markets. The global capital markets are highly dynamic and the value of SCERS investments changes every day.

Requests for Information

This financial report is designed to provide a general overview of SCERS' finances and to demonstrate SCERS' accountability for the money it receives and distributes. If you have questions about this report, or need additional financial information, contact the City of Sacramento Department of Finance, Accounting Division, 915 I Street, 4th floor, Sacramento, CA, 95814.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note A – Plan Description

The City of Sacramento, California, (City) sponsors and administers a defined benefit contributory pension system known as the Sacramento City Employees' Retirement System (SCERS). The fiscal management of SCERS is vested in the five-member Administration, Investment, and Fiscal Management Board (Board), consisting of the City Manager, Director of Finance, City Treasurer and two public members who are appointed by the City Council. Because of this relationship with the City, SCERS is reported as a fiduciary component unit of the City.

SCERS is a single-employer system and an integral part of the City. The accompanying financial statements are included as a pension trust fund in the basic financial statements of the City. The system covers all City employees hired before January 29, 1977 and is closed to new members. Employee contribution rates are generally frozen (with minor exceptions), and the City is responsible for any actuarially determined unfunded obligation of the plan. SCERS is comprised of the individual plans listed below. The City Charter establishes plan membership, contributions, and benefit provisions. Any changes must be approved by the electorate of the City.

1. Charter Section 399 Plan – This defined benefit plan was established effective January 1, 1977, to provide retirement, disability and death benefits. Active members contribute at a rate based upon entry age and type of employment. Members of this plan who have attained the age of 70 or completed at least 5 years of service in the aggregate and attained the age of 50 are eligible for service retirement.
2. Equal Shares Plan – This defined benefit plan was established July 1, 1970, to provide retirement, disability and death benefits to all City employees electing coverage at that date and to all employees who were hired from that date through January 1, 1977. Members of this plan who have attained the age of 70 or completed at least 5 years of service in the aggregate and attained the age of 55 for miscellaneous members or age 50 for safety members are eligible for service retirement.
3. Charter Section 175 Plans – These defined benefits were established in 1953 and provide for retirement, disability and death benefits at a lower amount than the successor Equal Shares Plan. Members of this plan who have attained the age of 70 or completed at least 20 years of service in the aggregate and attained the age of 55 are eligible for service retirement.

For each of the plans above, service retirement allowance as a percentage of average monthly compensation is calculated with set rates based on plan and age at retirement multiplied by the number of service years credited to the member at retirement. Service retirement allowance is capped at 75% of a member's final compensation for the Charter Section 399 Plan and Equal Shares Plan.

Plan membership at June 30, 2025, consisted of the following:

	Section 399	Equal Shares	Section 175	Total
Inactive members or beneficiaries receiving benefits	659	19	28	706
Inactive members entitled to but not yet receiving benefits	3	-	-	3
Active plan members	1	-	-	1
Total plan members	663	19	28	710

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements (Continued)

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note A – Plan Description (Continued)

Cost-of-Living Adjustment – This adjustment, established in 1969, provides for annual retirement benefit increases of up to 3% of normal benefits based on a corresponding rise in the consumer price index. Cost-of-living benefits are payable to retirees and beneficiaries of all of the above plans after one year of retirement. The cost-of-living adjustment was 3% for fiscal year 2025. Members contribute to this adjustment at a rate of 1% of their normal retirement contributions. The City is required to fund all costs in excess of members' contributions and investment earnings.

Social Security Adjustment – For members participating in Social Security, their benefit will be adjusted at the later of age 62 or actual retirement age. The amount of the adjustment is one half of the primary insurance amount (PIA) from Social Security, multiplied by the ratio of the sum of salary earned from the City to the sum of salary from all sources used in the calculation of the Social Security amount. The member's benefit under SCERS plus the amount received from Social Security cannot be less than the member's benefit under SCERS calculated with no reductions at the time of retirement. This adjustment applies to service retirees and not to disabled retirees.

SCERS reports the assets and activities of all plans in one trust fund. All assets accumulated for the payment of benefits may be used to pay benefits to any of the plan members or beneficiaries.

Benefits fully vest after five years of service. All accumulated benefits as of June 30, 2025 are fully vested.

As the plans included in SCERS are closed to new members, the number of active members in the system is declining. Member contributions have declined as members retire. During the fiscal year ended June 30, 2025, the active member contribution was 1% of payroll. At June 30, 2025 accumulated contributions and interest of the active member and the inactive members entitled to but not yet receiving benefits totaled approximately \$697. For the fiscal year ended June 30, 2025, interest was credited to members' contributions at the rate of 8.5%. Members have an option to withdraw their accumulated contributions, including interest, upon termination of their employment with the City.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

SCERS' financial statements are prepared using the accrual basis of accounting. Member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments

SCERS' investments are recorded at fair value based on available quoted market prices or other significant observable inputs. Purchases and sales of investments are recorded on a trade date basis.

Administrative Costs

The City charter requires all costs of administration, excluding investment activity, to be paid by the City. These costs are, therefore, excluded from the accompanying financial statements.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements (Continued)

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note B – Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Note C – Cash and Investments

Cash and Cash Equivalents

SCERS participates in the City of Sacramento's investment pool, which is not rated by a nationally recognized statistical rating organization. The City Treasurer is granted authority for managing the pool by City Charter and City Council ordinances and resolutions. The City Treasurer reports investment activity monthly to the City Council and the investment policy is reaffirmed annually by the City Council. The pool is accounted for on an amortized cost basis during the year. The value of the pool shares that may be withdrawn at any time is determined on an amortized cost basis, which is different than the fair value of SCERS' position in the pool. Information regarding the investments within the City's pool, including the related risks, can be found in the City's Annual Comprehensive Financial Report (ACFR) at <https://www.cityofsacramento.gov/Finance/Accounting/Reporting>. The City's investment pool is not rated and has a weighted average maturity of 1.86 years as of June 30, 2025.

Investments

The City Charter vests the Board with the authority to administer and invest the funds of the System consistent with charter provisions. The Board is mandated to adopt general investment standards that the City Council shall either approve or disapprove. These standards are set forth in an Investment Policy document that is annually reviewed by the Board and approved by the City Council. The Investment Policy sets forth the type of investments the System may hold and directs the Board to determine how the System funds may be allocated to different general asset classes. The Board sets the asset allocations by resolution effective for each fiscal year. The Board and its investment managers are required to conform their investment practices to the terms of the Investment Policy and related Board resolutions.

On May 16, 2024, the Board adopted the following asset allocation policy for fiscal year 2025:

<u>Asset Class</u>	<u>Target Allocation</u>
Fixed Income/Real Estate	37.5%
Large Cap Growth	30.0%
Equity Income	30.0%
International	2.5%
Total	<u>100.0%</u>

The investment policy allows for up to 5% variance from these approved allocation levels to provide flexibility to investment activities without altering the risk profile of the SCERS portfolio.

Note C – Cash and Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that SCERS manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturing evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of SCERS' investments to market interest rate fluctuations is provided by the following table that shows the distribution of SCERS' investments by maturity. The remaining maturity of the SCERS' investments included in the tables below is based on the stated maturity dates of the individual investments, except in the case of variable rate investments where the maturity date below is the next reset date. Variable rate securities are investments with terms that provide for the adjustment of interest rates on specified dates based on predefined mathematical formulas. The fair value of such investments can reasonably be expected to be affected at each interest rate reset date.

At June 30, 2025, SCERS' investments have maturities as follows:

Investment Type	Remaining Maturity in Years					Total
	No Maturity	Under 1	1-5	10 or less	Over 10	
Cash and short-term investments:						
City of Sacramento Investment Pool	\$ -	\$ 2,626	\$ -	\$ -	\$ -	\$ 2,626
Investments:						
Corporate bonds/notes	-	3,697	31,175	23,586	9,397	67,855
Equities	15,175	-	-	-	-	15,175
Exchange traded funds	137,454	-	-	-	-	137,454
Money market mutual funds	395	-	-	-	-	395
Municipal bonds/notes	-	504	8,050	10,839	2,920	22,313
U.S. agency securities	-	-	1,254	1,005	2,331	4,590
U.S. Treasury bonds	-	1,803	773	-	1,376	3,952
Total Investments	<u>153,024</u>	<u>6,004</u>	<u>41,252</u>	<u>35,430</u>	<u>16,024</u>	<u>251,734</u>
Total Cash and Investments	<u>\$ 153,024</u>	<u>\$ 8,630</u>	<u>\$ 41,252</u>	<u>\$ 35,430</u>	<u>\$ 16,024</u>	<u>\$ 254,360</u>

Investments in callable securities are investments that, although having clearly defined maturities, allow for the issuer to redeem or call such securities earlier than their respective maturity dates. The investor must then replace the called securities with investments that may have lower yields than the original securities.

The fair values of the callable securities held at June 30, 2025 by investment type are as follows:

Investment Type	Total
Corporate bonds/notes	\$ 9,598
Municipal bonds/notes	3,318
U.S. agency securities	3,316
Total	<u>\$ 16,052</u>

(Dollars expressed in thousands, except as otherwise noted)

Note C – Cash and Investments (Continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. As of June 30, 2025, SCERS held a bond that is currently in default of the semi-annual interest payments. The bond issuer Lehman Brothers filed for Chapter 11 bankruptcy protection on September 15, 2008. The bond has a maturity date of December 29, 2099 and a fair value of \$1 as of June 30, 2025.

At June 30, 2025, SCERS' investments and credit ratings are as follows:

Investment Type	S & P	Total
City of Sacramento Investment Pool	not rated	\$ 2,626
Corporate bonds/notes	A	22,768
	AA	5,770
	BBB	39,316
	not rated	1
Money market mutual funds	AAA	395
Municipal bonds/notes	A	2,579
	AA	12,611
	AAA	508
	not rated	6,615
U.S. agency securities	AA	4,370
	Total	\$ 97,559

Concentration Risk

As of June 30, 2025, SCERS held no investments in an individual issuer exceeding 5% of fiduciary net position (other than investments issued or explicitly guaranteed by the U.S. government).

Money-weighted Rate of Return

For the fiscal year ended June 30, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 10.33%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, SCERS will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2025, all SCERS cash and cash equivalents are held with the City of Sacramento Investment Pool and SCERS is not exposed to custodial credit risk for deposits.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements (Continued)

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note C – Cash and Investments (Continued)

Custodial Credit Risk (Continued)

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, SCERS will not be able to recover the value of its investment or collateral securities that are in the possession of another party. As of June 30, 2025, all SCERS investments held with the custodian were held in SCERS' name and SCERS is not exposed to custodial credit risk for investments.

Fair Value Measurement and Application

SCERS categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that SCERS has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect SCERS' own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk).

Unobservable inputs are developed based on the best information available in the circumstances and may include SCERS' own data.

The asset's level within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used, need to maximize the use of observable inputs and minimize the use of unobservable inputs. The determination of what constitutes observable requires judgment by SCERS' management. SCERS management considers observable data to be that market data, which is readily available, regularly distributed or updated, reliable, and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the relative observability of the inputs to its fair value measurement and does not necessarily correspond to SCERS management's perceived risk of that investment.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. SCERS' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

 Notes to the Basic Financial Statements (Continued)
 Fiscal Year Ended June 30, 2025
 (Dollars expressed in thousands, except as otherwise noted)

Note C – Cash and Investments (Continued)

Fair Value Measurement and Application (Continued)

SCERS' treasury pool's asset market prices are derived from closing bid prices as of the end of business day as supplied by ICE Data Services DBA ICE Data Pricing & Reference Data, LLC. Where prices are not available from generally recognized sources, the securities are priced using a yield-based matrix system to arrive at an estimated market value. Prices that fall between data points are interpolated.

The following is a description of the valuation methods and assumptions used by SCERS to estimate the fair value of its investments:

- When available, quoted prices are used to determine fair value. When quoted prices in active markets are available, investments are classified within Level 1 of the fair value hierarchy.
- For investments classified within Level 2 of the fair value hierarchy, SCERS' custodian generally uses a multi-dimensional relational model. Inputs to their pricing models are based on observable market inputs in active markets. The inputs to the pricing models are typically benchmark yields, reported trades, broker-dealer quotes, issuer spreads and benchmark securities, among others.

There have been no changes in the methods and assumptions used at June 30, 2025. The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. SCERS management believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SCERS has the following recurring fair value measurements as of June 30, 2025:

	Balance at June 30, 2025	Fair Value Measurements on a Recurring Basis Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Corporate bonds/notes	\$ 67,855	\$ -	\$ 67,855	\$ -
Equities	15,175	15,175	-	-
Exchange traded funds	137,454	137,454	-	-
Municipal bonds/notes	22,313	-	22,313	-
U.S. agency securities	4,590	-	4,590	-
U.S. Treasury bonds	3,952	3,952	-	-
Total Investments by Fair Value Level	251,339	\$ 156,581	\$ 94,758	\$ -
Investments Measured at Net Asset Value				
Money market mutual funds	<u>395</u>			
Investments at Fair Value not Subject to Fair Value Hierarchy				
City of Sacramento Investment Pool	<u>2,626</u>			
Total Cash and Investments	\$ 254,360			

Deposits and withdrawals in the City of Sacramento Investment Pool are made on the basis of \$1 and not fair value. The investment pool is exempt from fair value hierarchy disclosures.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements (Continued)

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note D – Related Party Transactions

At June 30, 2025, SCERS held revenue bonds issued by the Sacramento City Financing Authority (SCFA) in the amount of \$2,920. SCFA is a blended component unit of the City of Sacramento because its board is comprised of all City Council members, and there is a financial benefit/burden relationship between the City and SCFA. These bonds are measured at fair value using Level 2 inputs.

Note E – Funding Policy

The City's funding policy provides for actuarially determined contributions under the entry age normal method, which are discounted and adjusted annually to ensure that sufficient assets will be available to pay benefits when due. The City Council established and may amend the obligations of the plan members and the City to contribute to the plan. For the fiscal year ended June 30, 2025, the City's annual required and actual contribution was \$1,362.

Note F – Net Pension Asset of the City

The components of the net pension asset of the City at June 30, 2025 are shown below. The total pension liability is based on an actuarial valuation as of June 30, 2025.

	June 30, 2025
Total pension liability	\$ 231,205
Plan fiduciary net position	253,354
City's net pension asset	\$ (22,149)

Plan fiduciary net position as a percentage of the total pension liability 109.6%

Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2025, using the following actuarial assumptions, applied to all periods included in the measurement.

Inflation	2.5%
Salary increases	2.5% CPI plus 0.5% merit, average
Discount rate	6.0%

Mortality rates for service retirements and beneficiaries were based on CalPERS 2000-2019 Mortality Table projected for future mortality improvement utilizing Society of Actuaries Scale MP-2021. Mortality rates for disability retirements were based on CalPERS 2000-2019 Mortality Table for non-work Disabled Retirees for Miscellaneous and CalPERS 2000-2019 Mortality Table for work-related Disabled Retirees for Safety. Both tables were projected for future mortality improvement utilizing Society of Actuaries Scale MP-2021.

SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM

A Component Unit of the City of Sacramento

Notes to the Basic Financial Statements (Continued)

Fiscal Year Ended June 30, 2025

(Dollars expressed in thousands, except as otherwise noted)

Note F – Net Pension Asset of the City (Continued)

Discount rate

The discount rate was set equal to the long-term expected rate of return. The long-term expected rate of return was used since current assets, future City contributions, and future member contributions are projected to be sufficient to cover all future benefit payments and expenses. This “crossover test” was performed in accordance with the requirements specified in GASB Statement 67, including a projection that the Plan’s funding policy will remain unchanged.

The long-term expected rate of return was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income/Real Estate	40.0%	4.2%
Large Cap Growth	30.0%	7.1%
Equity Income	30.0%	7.1%
Total	100.0%	

The 6.0% long-term expected rate of return was selected by the Board. SCERS’ Actuary, Foster & Foster, estimates that a passively managed portfolio with a similar asset allocation would exceed the selected rate about 45% of the time and concludes the selected rate is reasonable. The sensitivity of the discount rate to a 1% change is shown below.

Sensitivity of the net pension asset to changes in the discount rate

The following presents the net pension asset of the City, calculated using the discount rate of 6%, as well as what the City’s net pension asset would be if it were calculated using a discount rate that is 1 percentage-point lower (5%) or 1 percentage-point higher (7%) than the current rate:

	1% decrease (5%)	Current Discount Rate (6%)	1% increase (7%)
City net pension asset	\$ (5,857)	\$ (22,149)	\$ (36,558)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation.

Valuation date:

Actuarially determined contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal for fiscal years 2016 - 2020
Amortization method	Level dollar payments over 13 years, open period for fiscal year 2019 - 2020 Level dollar payments over 14 years, open period for fiscal years 2016 - 2018
Asset valuation method	3 year smoothed market value for fiscal years 2016 - 2020
Inflation	2.75% for fiscal year 2019 - 2020 3.00% for fiscal years 2016 - 2018
Salary increases	2.75% CPI plus 0.5% merit for fiscal year 2019 - 2020 3.00% CPI plus 0.5% merit for fiscal years 2016 - 2018
Investment rate of return	6.50% for fiscal years 2016 - 2020
Retirement age	For fiscal years 2016 - 2020, deferred vested members covered under Section 399 are assumed to retire at age 62; those covered under 175 are assumed to retire at age 65.
Mortality	CalPERS 1997-2015 Mortality Tables with Scale MP-2017 for fiscal year 2020 CalPERS 1997-2011 Mortality Tables with Scale MP-2016 for fiscal year 2019 CalPERS 1997-2011 Mortality Tables with Scale MP-2014 for fiscal year 2018 CalPERS 1997-2007 Mortality Tables with Scale MP-2014 for fiscal year 2017 CalPERS 1997-2007 Mortality Tables with Scale AA for fiscal year 2016

ACTUARIAL VALUATION

CITY OF SACRAMENTO SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM (SCERS) DEFINED BENEFIT PLAN

We are pleased to present the results of our June 30, 2025 actuarial valuation of the Sacramento City Employees' Retirement System (SCERS).

The purpose of this valuation is to:

- Determine the System's June 30, 2025 Funded Status, and
- Calculate the fiscal year 2026/27 Actuarially Determined Contribution (ADC).

The information in this report may not be appropriate for purposes other than System funding but may be useful to the City for the System's financial management. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as: plan experience differing from that anticipated by the assumptions; changes in assumptions; changes expected as part of the natural progression of the plan; and changes in plan provisions or applicable law. Actuarial models necessarily rely on the use of estimates and are sensitive to changes. Small variations in estimates may lead to significant changes in actuarial measurements. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of such measurements.

The valuation is based on the System's benefit provisions summarized in Section 9, employee data, and on the System's financial information, all furnished by the City. We reviewed the financial and employee data for reasonableness, including comparing to prior year data, but did not perform an audit.

To the best of our knowledge, this report is complete and accurate and has been conducted using generally accepted actuarial principles and practices. As members of the American Academy of Actuaries, meeting Academy Qualification Standards, we certify the actuarial results and opinions herein.

Respectfully submitted,

Drew Ballard, FSA, MAAA, EA
Senior Consulting Actuary

Katherine Moore, ASA, MAAA

SECTION 1

EXECUTIVE SUMMARY

Purpose of Actuarial Valuation

The actual costs of a defined benefit plan are determined entirely by the amount of the benefit promise, the actual salaries and service of the plan participants, and how long they and their beneficiaries live to receive payments. An actuarial valuation is a mathematical model which attempts to quantify this actual cost by setting assumptions that, it is hoped, duplicate reality as closely as possible. In addition, the actuarial methodology provides a reasonable plan, or method, towards funding the expected plan costs. This information assists the plan trustees so they can make informed decisions regarding plan investments and how much in contributions will be required from the employer to eventually fully pay the plan's costs.

Summary Information & Results

The Sacramento City Employees' Retirement System (SCERS) is a closed defined benefit pension plan. It has not accepted new members since January 28, 1977, and only 1 active member (out of a total plan membership of 710) remains.

Since the last valuation, the plan experienced overall gains on liabilities and assets. Plan liabilities decreased more than expected, by \$6.0 million. This was primarily due to updated data for current retirees' beneficiaries (\$6.8 million) but was offset by retirees living longer than expected (\$0.5 million) and a larger COLA than expected² (\$0.3 million). Market value return on assets was greater than expected, about 10.3% for the year, which resulted in a gain of \$7.0 million on the actuarial (smoothed) value of assets.

We recommend changing from actuarial value of assets to market value of assets. This change resulted in an additional \$13.9 million gain on assets.

Since the last valuation, the plan's asset allocation was changed to be slightly more conservative. The discount rate used in the valuation has not changed. We believe 6.0% is a reasonable discount rate for this plan.

No assumptions were changed since the prior valuation.

At July 1, 2025 the plan is overfunded. The plan has surplus assets of \$22.1 million, as compared to an expected unfunded actuarial accrued liability (UAAL) of \$4.7 million.

The plan's funded ratio using market value of assets basis is 109.6%, an increase from 101.6% in the prior valuation.

Since the plan is overfunded, the City's contribution has decreased from \$0.163 million for fiscal year 2025/26 to \$0 for fiscal year 2026/27.

The average life expectancy of the plan's retirees is now 9.8 years, down from 10.2 years as of June 30, 2024. We recommend keeping the amortization at a rolling 10-year period for the 2026/27 recommended contribution.

² The CPI used for COLA increases was 2.8%. The prior valuation assumed CPI of 2.5%.

Although the full 3% COLA was paid, COLA banks did not decrease as much as expected. (Index used is CPI-U for San Francisco/Oakland/Hayward area.)

SECTION 1

EXECUTIVE SUMMARY

Discussion of Plan Risks

Actuarial Standard of Practice No. 51, Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions, requires the actuary to assess and disclose the risk that actual future measurements may differ significantly from expected future measurements.

This plan is considered a very mature pension plan since almost all of its liabilities are for retirees, and there is one remaining active employee with very little associated payroll. The following table presents various measures illustrating the plan's maturity:

	June 30, 2024	June 30, 2025
■ Maturity Ratios		
• Inactive AAL/total AAL	99.9%	99.9%
• Inactive participant count/total count	99.9%	99.9%
• Benefit payments/market value of assets	10.6%	10.4%
• Benefit payments/employer contributions	1,928.4%	1,938.0%

A very mature pension plan presents unique risks. The plan has negative cash flow (benefit payments exceed contributions), and benefit payments are relatively large compared to the asset value. The plan's investment manager must carefully manage the plan's liquidity needs as the plan "winds down" over the next 50 or more years. In addition to investment risk (investment returns being different than expected), asset/liability mismatch risk (changes in asset values not matched by changes in liabilities) could be significant for this plan. The plan is also subject to longevity risk (the potential that participants will live longer than projected) but we believe this risk is less significant than investment and asset/liability mismatch risk.

The scope of this valuation did not include a risk assessment - an evaluation of the potential impacts of these factors on the plan's funded status or projected employer contributions. However, we have included the following to assist in the plan's management:

- Table of expected benefit payments for the next 50 years
- Sensitivity analysis: Contributions calculated under different discount rates

Low Default-Risk Obligation Measure

Actuarial Standards of Practice ("ASOP") No. 4, Measuring Pension Obligations and Determining Pension Plan Costs or Contributions, was revised as of December 2021 to include communication of a "low-default-risk obligation measure" (LDROM). This liability measure is consistent with the determination of the actuarial accrued liability shown on page 5 in terms of member data, plan provisions, and assumptions/methods, including the use of the Entry Age Normal Cost Method, except that the discount rate is tied to low-default-risk fixed income securities. The S&P Municipal Bond 20 Year High Grade Rate Index (daily rate closest to, but not later than, the measurement date of June 30, 2025) was selected to represent a current market rate of low risk but longer-term investments that could be included in a low-risk asset portfolio. The discount rate used in this LDROM valuation was 4.81%, resulting in an LDROM of \$251 million. The LDROM should not be considered the "correct" liability measurement; it simply shows a possible outcome if the Board elected to hold a very low risk asset portfolio. Given that plan benefits are paid over time through the combination of contributions and investment returns, prudent investments selected by the Board help to balance asset accumulation through these two sources.

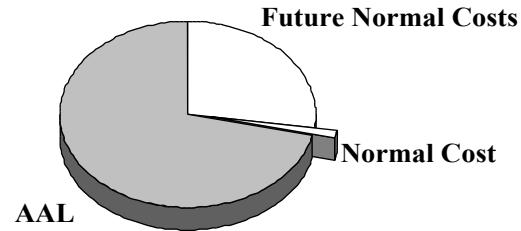

SECTION 1

EXECUTIVE SUMMARY

Definitions

The Present Value of Projected Benefits (PVPB) is the present value of all future benefits for current plan participants. The Actuarial Accrued Liability (AAL) represents the portion of the PVPB attributable to past service. The AAL is recognized over service through the date a participant is expected to commence benefits. Therefore, the AAL is equal to the PVPB for current retirees. The Normal Cost is the portion of the PVPB allocated or earned during the year following the valuation date.

PVPB

SECTION 2

LIABILITY INFORMATION & FUNDED STATUS

A comparison of the Present Value of Benefits, Actuarial Accrued Liability, Employer Normal Cost, and the Funded Ratio for the current and prior valuations follows. (Note that numbers throughout the report may not add due to rounding.)

SECTION 3

ASSET INFORMATION

Assets for SCERS are held in trust. Trust monies may be used to pay benefits to plan participants and their beneficiaries. The trust is managed under the direction of the Administration, Investment, and Fiscal Management Board. Asset information is provided by the City of Sacramento, and has not yet been audited.

Asset Reconciliation – Market Value of Assets

Following reconciles the June 30, 2023 through June 30, 2024 and the June 30, 2024 through June 30, 2025 market value of assets. Numbers may not add due to rounding.

	(amounts in \$000's)	
	2023/24	2024/25
■ Beginning of Year Balance:	\$ 249,966	\$ 253,497
• Member Contributions	\$ 1	\$ 1
• City Contributions	1,399	1,362
• Investment Income	<u>30,135</u>	<u>25,939</u>
■ Total Additions	31,535	27,302
• Benefit Payments	26,933	26,395
• Member Refunds	45	-
• Investment Expenses	<u>1,026</u>	<u>1,050</u>
■ Total Deductions	<u>28,004</u>	<u>27,445</u>
■ Net Assets at End of Year	253,497	253,354
■ Approximate Return on Assets	12.3%	10.3%

SECTION 3

ASSET INFORMATION

Asset Allocation – Market Value of Assets

The July 1, 2025 trust asset allocation is provided by the City of Sacramento and based on an allocation strategy of 40.0% fixed income and 60.0% equity. Details are shown below.

(amounts in \$000's)		
	Market Value	Percentage
■ Cash & Short Term Investments	\$ 2,626	1.0%
■ Receivables	1,116	0.4%
■ Investments		
● US Agencies	\$ 4,590	1.8%
● US Treasury Bonds	3,952	1.6%
● Corporate Bonds	67,855	26.8%
● Equities	15,175	6.0%
● Exchange Traded Funds	137,454	54.3%
● Money Market Mutual Funds	395	0.2%
● Municipal Bonds	<u>22,313</u>	8.8%
■ Total Investments	<u>251,734</u>	
■ Total Assets	<u>255,476</u>	
■ Other Liabilities Payable	<u>(2,122)</u>	-0.8%
■ Net Pension Benefit Trust Assets	<u>253,354</u>	100.0%

Target Allocation by Asset Class

The Administration, Investment and Fiscal Management Board of the Sacramento City Employees' Retirement System changed the asset allocation May 15, 2025. The fund is rebalanced each year.

	Current Allocation	Prior Allocation
■ Fixed Bonds/Real Estate	<u>40.0%</u>	<u>37.5%</u>
Total Fixed	40.0%	37.5%
■ Large Cap Growth	30.0%	30.0%
■ Equity Income	30.0%	30.0%
■ International Equities	<u>0.0%</u>	<u>2.5%</u>
Total Equity	<u>60.0%</u>	<u>62.5%</u>
Total Fixed & Equity	<u>100.0%</u>	<u>100.0%</u>

SECTION 4

CONTRIBUTION DEVELOPMENT

Actuarially Determined Contribution

Following is the development of the 2026/27 Actuarially Determined Contribution. The 2025/26 Actuarially Determined Contribution was calculated in the June 30, 2024 actuarial valuation and is shown for comparison.

Contribution Year	(amounts in \$000's)	
	2025/26	2026/27
■ Actuarially Determined Contribution		
• Employer Normal Cost	\$ 1	\$ 0
• UAAL Amortization ³	162	(3,120)
• Total Cost	163	0
■ Projected Plan Payroll	88	0
■ Actuarially Determined Contribution (as a percent of plan payroll)		
• Employer Normal Cost	1.2%	n/a
• UAAL Amortization	183.8%	n/a
• Total Contribution	185.0%	n/a
■ Projected Total City Payroll	469,362	495,345
■ Actuarially Determined Contribution (as a percent of total City payroll)		
• Employer Normal Cost	0.0%	0.0%
• UAAL Amortization	0.0%	-0.6%
• Total Contribution	0.0%	0.0%

³ The Unfunded Actuarial Accrued Liability (UAAL) as of the beginning of the contribution year is being amortized as a level dollar amount over a rolling 10- year period for 2025/26 and 2026/27. As the plan continues to mature, this amortization period will be monitored.

SECTION 5

SCHEDULE OF FUTURE CONTRIBUTIONS

Below are the historic and projected contributions and benefit payments. City contributions for years ending 6/30/2028 and later are estimated assuming 6/30/26 and subsequent market value of assets earn 6.00% and assuming the Actuarially Determined Contribution is contributed each year. These contributions are designed to achieve 100% funding of the system.

Year Ending ⁴	Member Contributions	City Contributions	Benefit Payments
6/30/1999	\$1,136,000	\$0	\$24,249,000
6/30/2000	1,079,000	0 ⁵	24,901,000
6/30/2001	989,000	0	25,087,000

6/30/2003	978,000	0	26,619,000
6/30/2004	1,056,000	0	26,772,000
6/30/2005	809,000	0	27,524,000
6/30/2006	789,000	0	28,749,000
6/30/2007	699,000	0	29,604,000
6/30/2008	596,000	3,534,000	29,896,000
6/30/2009	607,000	3,159,000	30,707,000
6/30/2010	377,000	3,431,000	31,719,000
6/30/2011	342,000	10,547,000	33,003,000
6/30/2012	332,000	10,361,000	33,057,000
6/30/2013	219,000	10,573,000	33,237,000
6/30/2014	161,000	9,649,000	33,688,000
6/30/2015	82,000	9,183,000	33,791,000
6/30/2016	69,000	8,645,000	32,683,000
6/30/2017	63,000	8,645,000	32,171,000
6/30/2018	55,000	8,645,000	31,583,000
6/30/2019	49,000	7,507,000	31,134,000
6/30/2020	25,000	4,410,000	30,457,000
6/30/2021	16,000	3,822,000	28,992,000
6/30/2022	9,000	3,479,000	28,145,000
6/30/2023	3,000	0	27,501,000
6/30/2024	1,000	1,399,000	26,978,000
6/30/2025	1,000	1,362,000	26,395,000
6/30/2026	1,000	163,000	25,901,000
6/30/2027	0	0	25,093,000
6/30/2028	0	0	24,266,000
6/30/2029	0	0	23,423,000
6/30/2030	0	0	22,562,000

⁴ Information prior to 6/30/2006 valuation is taken from prior actuary's valuation report. Member contributions and benefit payments for years ending 6/30/2026 and later are estimated.

⁵ Shown as a negative 1.367 million by prior actuary.

SECTION 6

ACTUARIAL (GAIN)/LOSS ANALYSIS

The gain/loss analysis of plan assets, actuarial liability, and unfunded actuarial liability for the one year period between valuation dates:

	(amounts in \$000's)		
	Actuarial Accrued Liability (Gain)/Loss	Actuarial Value of Assets Gain/(Loss)	Unfunded Actuarial Accrued Liability (Gain)/Loss
■ June 30, 2024 Actual Value	\$ 249,409	\$ 243,646	\$ 5,763
■ June 30, 2025 Expected Value⁶	237,210	232,503	4,708
• Demographic (Gain)/Loss	546		
• Updated beneficiary data	(6,821)		
• COLA more than expected	269		
• Investment gain on Actuarial Value of Assets basis		6,953	
• Benefit payments greater than expected		(10)	
• Change from Actuarial Value of Assets to Market Value of Assets		13,908	
■ Total (Gain)/Loss			(26,857)
■ June 30, 2025 Actual Value	231,205	253,354	(22,149)

⁶ Based on expected 2024/25 benefit payments and contributions.

SECTION 7

SENSITIVITY ANALYSIS

The Plan's June 30, 2025 funded status and 2026/27 fiscal year contribution are shown below at 5.00%, 6.00%, and 7.00% discount rates.

Discount Rate	(amounts in \$000's)		
	5.00%	Current 6.00%	7.00%
■ Present Value of Projected Benefits	\$ 247,497	\$ 231,205	\$ 216,796

SECTION 9 **PLAN PROVISIONS**

A. Plan Effective Date

Originally established effective April 1, 1935.

B. Plan Year

July 1 to June 30.

C. Participation

The plan is closed with no new members since January 28, 1977.

D. Eligibility to Retire

Section 175: Age 70, or age 55 and 20 years of service.

Sections 302 and 399: Age 70, or age 50 and 5 years of service.

E. Vesting

100% vesting with five years of participation.

F. Average Monthly Compensation

Average monthly salary for the 36 months prior to termination.

G. Employee Contributions

Each participant contributes a certain percentage based on his or her age at entry into the plan.

H. Service Retirement Benefit

Section 175:

Average Monthly Compensation times years of service times Benefit Factor. For retirement after age 65 with 20 years of service, benefit is a minimum of \$60 per month.

Sections 302 and 399:

Average Monthly Compensation times years of service times Benefit Factor, but no larger than 75% of final average earnings.

Benefit Factors at sample ages:

<u>Retirement Age</u>	<u>Section 175</u>	<u>Sections 302 and 399</u>
50	n/a	1.10%
55	1.10%	1.75%
60	1.67%	2.40%
65	2.44%	2.40%

SECTION 9 **PLAN PROVISIONS**

I. Vested Termination Benefit

Return of employee contributions with interest, or if the value is greater than \$500, the member may choose to leave the contributions in the system. The member may become eligible in the future for retirement, disability or death benefits.

J. Non-Industrial (Ordinary) Disability Benefit

Eligibility is ten years of service.

Section 175:

With 16 2/3 years of service: 1½% of final average salary times years of service to disability.

Less than 16 2/3 years of service: Minimum of 1½% of final average salary times years of service would have earned to age 60, or 25% of final average earnings.

Sections 302 and 399:

Not Eligible for Retirement: Lesser of 1½% of Final Average Earnings times years of service or final average earnings times benefit factor at age 50 times years of service at age 50, minimum of 25% of final average earnings.

Eligible for Retirement: Maximum of retirement allowance or 25% of final average earnings.

K. Industrial Disability Benefit

Sections 302 and 399:

Not Eligible for Retirement: 50% of final average earnings.

Eligible for retirement: Maximum of retirement allowance or 50% of final average earnings.

L. Death Benefit – Pre Retirement Eligibility

Return of employee contributions with interest, plus 1/12 of salary in the year preceding death multiplied by the smaller of 6 or years of service.

M. Death Benefit – Post Retirement Eligibility

50% of the member's benefit as if the member retired at the time of death, paid as a lifetime benefit to the spouse.

N. Death Benefit – Post Retirement Death

\$500 paid to the member's estate upon death.

SECTION 9 **PLAN PROVISIONS**

O. Social Security Reduction at age 62

For members participating in Social Security, their benefit will be reduced at the later of age 62 or actual retirement age. The amount of the reduction is one half of the PIA from Social Security, multiplied by the ratio of the sum of salary earned from the City to the sum of salary from all sources used in the calculation of the Social Security amount. The member's benefit under the System plus the amount received from Social Security cannot be less than the member's benefit under the System calculated with no reductions as of his retirement age. The City applies this offset to service retirees, not to disabled retirees.

P. Reduction Account

A member can choose to reduce his normal contributions to the System by an amount equal to the taxes paid for Social Security coverage. At the time of retirement, the regular retirement benefit will be reduced by the actuarial equivalent of the accumulated value of the reduction of contributions.

Q. Cost of Living

Benefits will be increased each July 1 by the change in the CPI for the San Francisco/Oakland area for the preceding calendar year limited to 3% (with COLA bank).

R. Benefit Forms

Section 175:

Lifetime benefit to the member, which may be actuarially reduced to provide a continuance to a beneficiary.

Section 302 and 399:

Lifetime benefit to the member, with an automatic 50% continuance to the spouse.

SECTION 10

METHODS AND ASSUMPTIONS

Actuarial Methods

The actuarial cost method used for this valuation is the Entry Age Normal (EAN) method. The Present Value of Projected Benefits (PVPB) is the present value of all future benefits for current plan participants. The Actuarial Accrued Liability (AAL) represents the portion of the PVPB attributable to past service. The AAL is recognized over service through the date a participant is expected to commence benefits.

We recommend amortizing the current unfunded AAL over an 10-year rolling period as a level dollar amount. Because the plan is closed, the amortization period should be regularly reviewed. The Board has regularly reduced the amortization period in the recent past. Under current Board policy, when the average future life expectancy of the plan participants drops below 5 years, the amortization period will be reduced to no more than 5 years.

Plan funded status based on excess of

- 1) Value of Normal Retirement Benefit in excess of employee contributions over
- 2) Plan Assets

The contribution generated by the current valuation will be payable for the City's fiscal year beginning one year later (2026/27). The June 30, 2024 valuation generated a contribution for fiscal year 2025/26.

Plan assets are set to the Market Value of Assets. In the prior valuation, smoothed Actuarial Value of Assets were used with investment gains and losses recognized over a three year period.

Data

The City provided participant data as of 7/1/2025. We reviewed the data for reasonableness and resolved any questions with the City. We believe the resulting data can be relied on for all purposes of this valuation without limitation.

Basis for Assumptions

Mortality assumptions are based on CalPERS 2000-2019 experience study, since that study is based on populations similar to this plan. Mortality improvement is the Society of Actuaries Scale MP-2021. Inflation is based on our estimate for the plan's very long-time horizon. The salary merit assumption is based on our expectation of overall payroll growth, due to the current age of the remaining employee. The 6.00% discount rate was selected by the Board. Foster & Foster estimates that a passively managed portfolio with a similar asset allocation would exceed that selected rate about 45% of the time. We believe the 6.00% discount rate is reasonable.

Retirement and disablement rates are insignificant due to the age of the remaining participants and are based on rates used historically.

The Social Security offset, marriage, retirement age for deferred vesteds, and reciprocal assumptions are based in part on plan experience. Due to the small number and age of remaining employees and deferred vested, these assumptions are not significant.

SECTION 10

METHODS AND ASSUMPTIONS

Actuarial Assumptions

Assumptions used in the valuation are as follows:

■ Discount Rate

6.00% net of investment expenses⁷.

Selected by the Board.

■ Inflation

2.5%

■ Salary Scale

2.5% CPI

0.50% Merit

■ Social Security Wage Base

2.75%

■ Termination

None assumed. The one remaining active is retirement-eligible.

■ Retirement

Rates vary based on age. Sample rates follow:

<u>Age</u>	<u>Non Sec 175</u>
69	33%
70	100%

■ Disability

Rates vary based on age, gender and if the disability is job-related or not. Sample rates follow:

	<u>Job Related</u>		<u>Ordinary</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
59	.00612	.00336	.01683	.00924
60	.00639	.00351	.01761	.00969
61+	.00000	.00000	.00000	.00000

⁷ Administrative expenses are not paid from plan assets.

SECTION 10

METHODS AND ASSUMPTIONS

■ **Healthy Mortality**

CalPERS 2000-2019 Pre-Retirement Mortality table for males and females and CalPERS 2000-2019 Post-Retirement Mortality table for males and females. Sample rates are as follows:

<u>Age</u>	<u>Pre-Retirement</u>		<u>Post-Retirement</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
50	0.13%	0.08%	0.27%	0.20%
60	0.29%	0.18%	0.57%	0.46%
70	0.59%	0.40%	1.34%	1.00%
80	1.03%	0.76%	4.38%	3.40%
90	n/a	n/a	14.54%	11.09%
100	n/a	n/a	36.20%	31.58%

■ **Post-Retirement Disabled Mortality**

For Miscellaneous retirees, CalPERS 2000-2019 Non-Work-Related Disability table for males and females. For Safety retirees, CalPERS 2000-2019 Work-Related Disability table for males and females. Sample rates are as follows:

<u>Age</u>	<u>Non-Work-Related</u>		<u>Work-Related</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
50	1.73%	1.44%	0.44%	0.31%
60	2.68%	1.96%	0.94%	0.87%
70	4.06%	2.91%	2.19%	1.86%
80	8.04%	6.11%	5.93%	5.18%
90	16.77%	14.40%	16.74%	12.43%
100	36.20%	31.58%	36.20%	31.58%

■ **Mortality Improvement Projection**

Post-retirement mortality projected fully generational with Society of Actuaries Scale MP-2021.

■ **Social Security Offset**

Monthly benefits for current retirees and vested terminated assumed to decrease at the later of age 62 or actual retirement, based on the average expected offset of future retirees.

■ **Marriage**

85% of male employees and 60% of female employees are assumed to be married. Wives are assumed to be four years younger than husbands.

SECTION 10

METHODS AND ASSUMPTIONS

- **Retirement Age**

Deferred vested members covered under Section 399 are assumed to retire at age 62; those covered under Section 175 are assumed to retire at age 65.

- **Reciprocal Members**

All remaining deferred vested members are assumed to have reciprocity with other retirement systems, and their pay is assumed to increase with salary scale after separation from the City.

- **COLA**

2.5% CPI

Future benefits increased with CPI up to 3.0% per year with actual COLA banks.

- **Actuarial Modeling**

Our valuation was performed using and relying on ProVal, an actuarial model leased from WinTech. Our use of ProVal is consistent with its intended purpose. We have reviewed and understand ProVal and its operation, sensitivities and dependencies.

SECTION 11

PARTICIPANT DATA

Data Summary

Following summarizes participant demographic information for the June 30, 2024 and June 30, 2025 actuarial valuations.

	June 30, 2024	June 30, 2025

APPENDIX B

City of Sacramento

**Sacramento City Employees'
Retirement System**

**June 30, 2025
GASBS 67 & 68 Reporting**

October 17, 2025

GASBS 67 & 68 REPORTING

CITY OF SACRAMENTO SACRAMENTO CITY EMPLOYEES' RETIREMENT SYSTEM (SCERS) DEFINED BENEFIT PLAN

This report presents reporting and disclosure information for the Sacramento City Employees' Retirement System (SCERS) for the fiscal year ending June 30, 2025 to assist the City in preparing financial statement information in accordance with Governmental Accounting Standards Board Statements No. 67 and 68 (GASBS 67 and 68).

The report provides information intended for reporting under GASBS 67 and 68, but may not be appropriate for other purposes. Information provided in this report may be useful to the City for the System's financial management. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as: plan experience differing from that anticipated by the assumptions; changes in assumptions; changes expected as part of the natural progression of the plan; and changes in plan provisions or applicable law. Actuarial models necessarily rely on the use of estimates and are sensitive to changes. Small variations in estimates may lead to significant changes in actuarial measurements. Due to the limited scope of this assignment, we did not perform an analysis of the potential range of such measurements.

This report is based on our June 30, 2025 actuarial valuation of the System and our report dated October 17, 2025 which contains complete details of that valuation and is to be considered a part of this report.

To the best of our knowledge, this report is complete and accurate and has been conducted using generally accepted actuarial principles and practices. Additionally, in our opinion, actuarial methods and assumptions comply with GASBS 67 and 68. As members of the American Academy of Actuaries meeting the Academy Qualification Standards, we certify the actuarial results and opinions herein.

Respectfully submitted,

Drew Ballard, FSA, MAAA, EA
Senior Consulting Actuary

Katherine Moore, ASA, MAAA

SECTION 1

GASBS 67 & 68 APPLICABLE DATES

Applicable Dates and Periods

Fiscal Year End	June 30, 2025	
Reporting Standard	GASBS 67	GASBS 68
■ Reporting date ¹	June 30, 2025	June 30, 2025
■ Reporting period	FY 2025	FY 2025
■ Measurement date ²	N/A	June 30, 2025
■ Measurement period	N/A	July 1, 2024 to June 30, 2025
■ Actuarial valuation date ³	June 30, 2025	June 30, 2025

¹ Employer's or plan's fiscal year-end.

² No earlier than employer's prior fiscal year end.

³ Within 30 months of fiscal year end.

SECTION 2

GASBS 67 AND 68 NOTE DISCLOSURES

Exhibit 1: Notes to Financial Statements (\$000's)

Net Pension Liability/(Asset)
(Amounts in 000's)

	Fiscal Year Ending	
	6/30/25	6/30/24
■ Total pension liability (TPL)	\$231,205	\$249,409
■ Fiduciary net position (FNP)	<u>253,354</u>	<u>253,497</u>
■ Net pension liability (NPL)	(22,149)	(4,088)
■ Funded status (FNP/TPL)	109.6%	101.6%

Significant Assumptions and Other Inputs Used to Measure Total Pension Liability at 6/30/25:

- Discount Rate
- Inflation Rate
- Salary Scale
- Mortality Assumption for Service retirements & beneficiaries
- Mortality Assumption for Disability retirements
- 6.00%, net of investment expenses
- 2.50%
- 3.00%
- CalPERS 2000-2019 Post-Retirement Mortality Table projected fully generational with Society of Actuaries Scale MP-2021.
- CalPERS 2000-2019 Mortality Table for non-work Disabled Retirees for Miscellaneous and CalPERS 2000-2019 Mortality Table for work-related Disabled Retirees for Safety. Both tables were projected fully generational with Society of Actuaries Scale MP-2021.

Changes of assumptions and changes in experience affecting the measurement of the Total Pension Liability since the prior measurement date

No assumption changes.

The overall experience gain was primarily due to updated data on the current retiree's beneficiaries.

Discount rate

The discount rate was set equal to the long-term expected rate of return. The long-term expected rate of return was used since current assets, future City contributions, and future member contributions are projected to be sufficient to cover all future benefit payments and expenses. This “crossover test” was performed in accordance with the requirements specified in GASB Statement 67, including a projection that the Plan’s funding policy will remain unchanged⁴. No administrative expenses were assumed to be paid from Trust assets since the City Charter requires the City to pay all administrative expenses.

The 6.00% long-term expected rate of return was selected by the Board. Foster & Foster estimates that a passively managed portfolio with a similar asset allocation (60.0% equities and

4 The current recommended policy includes a change in the amortization period from 10 years to 5 years when the average future life expectancy of plan participants is below 5 years.

SECTION 2

GASBS 67 AND 68 NOTE DISCLOSURES

40.0% fixed income) would exceed the selected rate about 45% of the time. We believe the 6.0% rate is reasonable.

Date of actuarial valuation

The June 30, 2025 Total Pension Liability is based on an actuarial valuation as of June 30, 2025.

Sensitivity of the net pension liability to a 1% change in the discount rate

	1% Decrease 5.00%	Discount Rate 6.00%	1% Increase 7.00%
Net Pension Liability (NPL)	\$(5,857)	\$(22,149)	\$(36,558)

SECTION 3

GASBS 67 AND 68 REQUIRED SUPPLEMENTARY INFORMATION

Schedule of Changes in Net Pension Liability & Related Ratios⁵ (Amounts in \$000's)

Fiscal Year	2024/25
Total Pension Liability	
Service cost	\$ 2
Interest	14,173
Changes of benefit terms	0
Differences between expected and actual experience	(5,984)
Changes of assumptions	0
Benefit payments	<u>(26,395)</u>
Net change in Total Pension Liability	<u>(18,204)</u>
Total Pension Liability at beginning of year	249,409
Total Pension Liability at end of year	231,205
Fiduciary Net Position	
Contributions - employer	1,362
Contributions - member	1
Net investment income	24,889
Benefit payments	(26,395)
Administrative expenses	0
Other income	0
Net change in Fiduciary Net Position	<u>(143)</u>
Fiduciary Net Position at beginning of year	253,497
Fiduciary Net Position at end of year	253,354
Net Pension Liability (Asset) at end of year	(22,149)
Fiduciary Net Position as percentage of Total Pension Liability	109.6%
Covered-employee payroll	91
Net Pension Liability (Asset) as percentage of Covered-employee Payroll	-24,339.6%

Notes to Schedule of Changes in Net Pension Liability & Related Ratios

The Total Pension Liability as of June 30, 2025 is based on an actuarial valuation as of June 30, 2025.

Changes of Assumptions. No assumption changes were made in 2024/25.

Differences between actual and expected experience. The largest component for 2024/25 was due to updated data on the current retiree's beneficiaries.

⁵ GASBS 67 and 68 require this information be reported in the Required Supplementary Information for 10 years or as many years are available upon implementation. Only the current year is shown in this report.

SECTION 3

GASBS 67 AND 68 REQUIRED SUPPLEMENTARY INFORMATION

Employer Actuarially Determined Contribution⁶ (Amounts in \$000's)

Fiscal Year	(1) Actuarially Determined Contribution (ADC)	(2) Employer Contributions in relation to the Actuarially Determined Contribution	(3) Contribution Deficiency (Excess) (1)-(2)	(4) Covered-Employee Payroll	(5) Employer Contribution / Covered-Employee Payroll (2)/(4)
2024/25	\$ 1,362	\$ 1,362	\$ 0	\$91	1,496.7%

Significant Methods and Assumptions Used in Calculation of ADC for 2024/25

Actuarial Assumption	FY 2024/25
■ Actuarial valuation date	■ June 30, 2023
■ Actuarial cost method	■ Entry Age Normal, level percent of payroll
■ Amortization method	■ Level dollar amount
■ Amortization period	■ 11 years open
■ Asset method	■ Actuarial value of assets ■ Gains/losses recognized over 3 years ■ Corridor of 85% - 115% of market value of assets
■ Inflation	■ 2.5%
■ Discount rate	■ 6.0%, net of investment expenses
■ Salary scale	■ 3.0%
■ Mortality rate table	■ CalPERS 2000-2019 Experience Study ■ Mortality projected fully generational with Scale MP-2021
■ All other	■ Same as used in determining total pension liability for 2024/25

⁶ GASBS 67 and 68 require this information be reported in the Required Supplementary Information for 10 years or as many years are available upon implementation. Only the current year is shown in this report.

SECTION 4

**SACRAMENTO CITY EMPLOYEES'
RETIREMENT SYSTEM**

Report to the Administration, Investment, and
Fiscal Management Board and the
Honorable Mayor and Members of the
City Council of the City of Sacramento, California

For the Fiscal Year Ended June 30, 2025

December 19, 2025

Administration, Investment, and Fiscal
Management Board
Sacramento City Employees' Retirement System
Sacramento, California

Honorable Mayor and City Council
City of Sacramento
Sacramento, California

We are pleased to present this report related to our audit of the basic financial statements of the Sacramento City Employees' Retirement System (SCERS), a component unit of the City of Sacramento, California (City), as of and for the fiscal year ended June 30, 2025. This report summarizes certain matters required by professional standards to be communicated to you in your oversight responsibility for the SCERS' financial reporting process.

This report is intended solely for the information and use of the Administration, Investment, and Fiscal Management Board and the Honorable Mayor and Members of the City Council of the City of Sacramento, California, and management, and is not intended to be, and should not be, used by anyone other than these specified parties. It will be our pleasure to respond to any questions you have about this report. We appreciate the opportunity to continue to be of service to SCERS.

Macias Gini & O'Connell LLP

Exhibits	
Exhibit A—Independent Auditor’s Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With <i>Government Auditing Standards</i>	5
Exhibit B—Recent Accounting Pronouncements.....	7

REQUIRED COMMUNICATIONS

Auditing standards generally accepted in the United States of America (AU-C 260, The Auditor's Communication With Those Charged With Governance) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the basic financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial and related compliance reporting process.

Our Responsibilities With Regard to the Financial Statement Audit

Our responsibilities under auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States have been described to you in our engagement letter dated June 5, 2025. Our audit of the basic financial statements does not relieve management or those charged with governance of their responsibilities, which are also described in that letter.

Overview of the Planned Scope and Timing of the Financial Statement Audit

We previously issued a separate communication dated June 5, 2025, regarding the planned scope and timing of our audit and identified significant risks.

Accounting Policies and Practices

Preferability of Accounting Policies and Practices

Under accounting principles generally accepted in the United States of America, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.

Adoption of, or Change in, Accounting Policies

Management has the ultimate responsibility for the appropriateness of the accounting policies used by the SCERS. SCERS did not adopt any significant new accounting policies, nor have there been any changes in existing significant policies during the current period.

Significant Accounting Policies

We did not identify any significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Unusual Transactions

We did not identify any significant unusual transactions.

Management's Judgments and Accounting Estimates

Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Summary of Significant Accounting Estimates.

Audit Adjustments and Uncorrected Misstatements

There were no audit adjustments made to the original trial balance presented to us to begin our audit. We are not aware of any uncorrected misstatements other than misstatements that are clearly trivial.

Departure From the Auditor's Standard Report

Other Matter Paragraph and Report

The SCERS' financial statements present prior-year comparative information. In light of this matter, we have included the following other matter paragraph and a report on the prior-year comparative information.

Other Matter

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the SCERS' financial statements for the fiscal year ended June 30, 2024, from which such partial information was derived.

Report on Partial Comparative Information

We have previously audited the SCERS' 2024 financial statements, and we expressed an unmodified opinion on the financial statements in our report dated December 20, 2024. In our opinion, the partial comparative information presented herein as of and for the fiscal year ended June 30, 2024, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information Included in Annual Reports

Our responsibility for other information included in annual reports is to read the information and consider whether its content or the manner of its presentation is materially inconsistent with the financial information covered by our auditor's report, whether it contains a material misstatement of fact or whether the other information is otherwise misleading. We read the SCERS' introductory and actuarial sections and did not identify material inconsistencies with the audited basic financial statements.

Observations About the Audit Process

Disagreements With Management

We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit or significant disclosures to be included in the basic financial statements.

Consultations With Other Accountants

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

Significant Issues Discussed With Management

No significant issues arising from the audit were discussed or were the subject of correspondence with management.

Significant Difficulties Encountered in Performing the Audit

We did not encounter any significant difficulties in dealing with management during the audit.

Shared Responsibilities for Independence

Independence is a joint responsibility and is managed most effectively when management, audit committees (or their equivalents), and audit firms work together in considering compliance with American Institute of Certified Public Accountants (AICPA) and Government Accountability Office (GAO) independence rules. For Macias Gini & O'Connell LLP (MGO) to fulfill its professional responsibility to maintain and monitor independence, management, the Administration, Investment, and Fiscal Management Board and the Honorable Mayor and Members of the City Council of the City of Sacramento, California, and MGO each play an important role.

Our Responsibilities

- AICPA and GAO rules require independence both of mind and in appearance when providing audit and other attestation services. MGO is to ensure that the AICPA and GAO's General Requirements for performing non-attest services are adhered to and included in all letters of engagement.
- Maintain a system of quality management over compliance with independence rules and firm policies.

SCERS' Responsibilities

- Timely inform MGO, before the effective date of transactions or other business changes, of the following:
 - New affiliates, directors, or officers.
 - Changes in the organizational structure or the reporting entity impacting affiliates such as subsidiaries, partnerships, related entities, investments, joint ventures, component units, and jointly governed organizations.
- Provide necessary affiliate information such as new or updated structure charts, as well as financial information required to perform materiality calculations needed for making affiliate determinations.
- Understand and conclude on the permissibility, prior to the SCERS and its affiliates, officers, directors, or persons in a decision-making capacity, engaging in business relationships with MGO.
- Not entering into arrangements of nonaudit services resulting in MGO being involved in making management decisions on behalf of the SCERS.
- Not entering into relationships resulting in close family members of MGO covered persons, temporarily or permanently acting as an officer, director, or person in an accounting, financial reporting or compliance oversight role at the SCERS.

Internal Control and Compliance Matters

We have separately communicated on internal control and compliance over financial reporting identified during our audit of the basic financial statements, as required by Government Auditing Standards. This communication is attached as Exhibit A.

Significant Written Communications Between Management and Our Firm

We have requested certain written representations from management in a letter dated December 19, 2025.

SIGNIFICANT ACCOUNTING ESTIMATES

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events, and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following summarizes the significant accounting estimates reflected in the SCERS' financial statements.

Significant Accounting Estimates

Valuation of investments	<p>Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management's estimate of the fair value of investments is based on a hierarchy of inputs. Observable inputs are developed based on market data obtained from sources independent from SCERS. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset.</p> <p>MGO evaluated the assumptions through comparative analysis with third party pricing sources and determined that they are reasonable.</p>
Total pension liability	<p>Management's estimate of the total pension liability is based on actuarial measurements performed by an independent actuarial consultant in accordance with the parameters set forth in GASB Statement No. 67, <i>Financial Reporting for Pension Plans</i>, and actuarial standards of practice. The actuarial valuation is very sensitive to the underlying assumptions, including the discount rate.</p> <p>MGO evaluated the methodologies and assumptions used to develop the actuarial calculations through census data testing and engaging an actuarial consultant to evaluate the SCERS' actuarial valuation for reasonableness of assumptions and results and determined that they are reasonable.</p>

EXHIBIT A

**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Administration, Investment, and Fiscal
Management Board
Sacramento City Employees' Retirement System
Sacramento, California

Honorable Mayor and City Council
City of Sacramento
Sacramento, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Sacramento City Employees' Retirement System (SCERS), a component unit of the City of Sacramento, California, as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the SCERS' basic financial statements, and have issued our report thereon dated December 19, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the SCERS' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the SCERS' internal control. Accordingly, we do not express an opinion on the effectiveness of the SCERS' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the SCERS' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

EXHIBIT B

Recent Accounting Pronouncements

RECENT ACCOUNTING PRONOUNCEMENTS

The following accounting pronouncements have been issued as of this communication but are not yet effective and may affect future financial reporting by SCERS.

Pronouncement	Summary
GASB Statement No. 103, <i>Financial Reporting Model Improvements</i>	<p>The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues.</p> <p>Statement No. 103 is effective for the SCERS' fiscal year ending June 30, 2026.</p>
GASB Statement No. 104, <i>Disclosure of Certain Capital Assets</i>	<p>The objective of this Statement is to provide users of governmental financial statements with essential information about certain types of capital assets.</p> <p>Statement No. 104 is effective for the SCERS' fiscal year ending June 30, 2026.</p>
GASB Statement No. 105, <i>Subsequent Events</i>	<p>The primary objective of this statement is to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users.</p> <p>Statement No. 105 is effective for the City's fiscal year ending June 30, 2027.</p>
