

APPLICATION FOR PERMIT TO BUILD

Street No. 1717 V Lot W 1/2 Sec 6 Block 18 V
 Owner M. Lopez Address 1717 V.
 Architect _____ Address _____
 Contractor Ortega Address _____
 Kind of Building Frame - Single

Permit <u>208</u>
Date <u>1-18-2</u>
District <u>1</u>

	Girder		Span		Mud Sills	
	1st Floor	2nd Floor	3rd Floor	4th Floor	5th Floor	6th Floor
Joists						
Max. Span						
Bearing Partitions	<u>Double End</u>		<u>Con End</u>			
Non Bearing Part'ns						
Story Height	<u>1.5 St</u>					
Outside Walls						
Ceiling Joists			Span			
Roof			Rafters			
Water Heater			Chimney			
Size of Building - Length			Width		Height	

It is hereby agreed that this building will be constructed in conformity with the Ordinances of the City of Sacramento and the Laws of the State of California.

Estimated Cost, \$ 25

Plans must be submitted _____ Owner or Owner's Representative.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and government operations. The text notes that without reliable records, it becomes difficult to track expenditures, assess performance, and ensure that resources are being used effectively and ethically.

2. The second part of the document addresses the challenges associated with data collection and analysis. It highlights that while modern technology offers powerful tools for gathering and processing information, the quality and integrity of the data are often compromised. Issues such as incomplete reporting, inconsistent formats, and potential biases can lead to misleading conclusions. The document stresses the need for standardized protocols and rigorous quality control measures to ensure that the data being used is both accurate and representative.

3. The third part of the document focuses on the role of leadership in fostering a culture of data-driven decision-making. It argues that leaders must not only understand the value of data but also create an environment where it is encouraged and supported. This involves providing training, resources, and incentives for staff to engage with data and share their findings. The text also notes that leadership should be transparent in their own use of data, demonstrating how it informs their decisions and actions.

4. The fourth part of the document discusses the importance of communication in the data analysis process. It points out that data is only as useful as it is understood. Therefore, it is crucial to present findings in a clear, concise, and accessible manner. This may involve using visual aids like charts and graphs, as well as providing context and explanations for the results. The document emphasizes that effective communication helps to build trust and buy-in from stakeholders, which is essential for the successful implementation of data-driven initiatives.

5. The fifth part of the document concludes by reiterating the overall goal of the document: to improve the quality and reliability of data used in public administration. It calls for a collective effort from all levels of the organization to address the challenges identified and to embrace a data-driven approach to decision-making. The document ends with a strong statement of commitment to transparency, accountability, and the effective use of resources.
