SUBJECT: Stockton Boulevard Commercial Revitalization Coordinator

SUMMARY

This report requests: 1) Approval of the Request for Proposal (RFP) for the Stockton Boulevard Commercial Revitalization Coordinator (see Attachment 1); 2) Authorization for the Executive Director to solicit the RFP and execute a contract with a commercial revitalization consultant; and, 3) Amendment of the 1986 Agency budget by transferring \$25,000 (half from the City Community Development Block Grant and half from the County Community Development Block Grant) from the general Economic Development City and County Community Development Block Grant budget to finance these services.

BACKGROUND

The Sacramento Housing and Redevelopment Agency is interested in retaining a consultant to undertake planning and coordination activities for the commercial revitalization of Stockton Boulevard from Broadway to Fruitridge Road. (See map, Attachment 2.) Stockton Boulevard is an older commercial strip characterized by a high vacancy factor, property deterioration, and a negative public image. A thorough physical needs analysis was conducted on Stockton Boulevard in 1982 and the Boulevard was subsequently designated as a commercial revitalization target area. Though some progress has been made, extensive work remains if significant revitalization is to occur. Under the commercial revitalization program,

a Merchants Association has been successfully organized and some promotional activities have been undertaken. However, few merchants or property owners have taken advantage of the Agency's commercial financing assistance to rehabilitate existing buildings or make new investments along the Boulevard. The focus of this year's contract will be to strengthen the Merchant's Association, and image-building activities through promotional activities; to secure greater participation in the Agency's loan and grant programs; and to finalize the commercial revitalization for the boulevard.

The contract amount will be for \$25,000 for a twelve month period. This funding level is consistent with the amount paid by the Agency for commercial revitalization contracts.

Specifically, the coordinator will be responsible for working closely with the business operators, property owners, and the Stockton Boulevard Merchants and Property Owners Association to accomplish the following activities identified in the RFP:

1. Provide staff services to the Stockton Boulevard Merchants and Property Owners Association to increase membership and strengthen the Association as a visible and active self-help organization.

2. Develop a three year commercial revitalization plan including: (a) an analysis of area data available -- commercial building vacancies, vacant lots, physical needs inventory, property turnover rates, land prices, lease rates, capital improvement needs, current zoning, crime rates, code violations, nuisances, types of business and business ownership, and technical assistance needs, etc.; (b) development of a revitalization strategy based on the data analyzed above, including targeting of key commercial nodes and identification of revitalization activities; (c) preparation of a work plan identifying a time frame and phasing of activities, and a budget showing the costs of the activities and sources of funds.

3. Develop and organize promotional activities that will meet the objectives of a) enhancing the identity of the Boulevard as a viable commercial area, and b) attracting customers to Stockton Boulevard.

4. Prepare and implement a marketing strategy to encourage new investment along Stockton Boulevard. Various activities would include, but are not limited to, working with real estate brokers and developers and maintaining a data bank on space available for lease and purchase.

5. Coordinate the publication of a business newsletter on at least a quarterly basis.

6. Market the Agency's Commercial Revitalization Financing Programs and increase business operator and property owner participation in the financing programs. Also assist in marketing the Enterprise Zone incentives to Stockton businesses, as appropriate.

7. Identify nuisances along the Boulevard such as litter problems, vagrancy, prostitution, crime and building safety code violations and take action necessary to reduce or resolve the problems.

8. Provide business management assistance directly on a one-on-one basis through workshops or through referrals to appropriate community resources.

9. Devise and implement a strategy for establishing a business improvement district.

10. Establish design guidelines for facade improvements and new construction for Stockton Boulevard businesses.

Within the framework of the above accomplishments, the contractor will be required to submit a detailed twelve month work program within 30 days of the commencement of the contract. This work program shall include completion of the revitalization plan within three months. The work program should also specify how the above activities will be met within the term of the contract and identify specific actions and timeframes required to meet the work program. The contractor will also submit monthly performance reports detailing progress in meeting work program goals for review by the Agency. Funds will only be disbursed based upon progress and documentation of actual services performed as identified in the work program.

POLICY IMPLICATIONS

The action proposed in this staff report is consistent with previously approved policy and there is no policy change being recommended.
