The Committee provided direction to return with a framework to allow consumption business operating permits for all storefront dispensaries.

On September 17, 2024, staff presented a cannabis consumption business operating permit framework to the Committee. The Committee forwarded the pilot program concept for social consumption to City Council for consideration but requested a City Council workshop soliciting the expertise of public health experts regarding cannabis consumption statewide public health trends prior to Council consideration of social consumption.

On October 22, 2024, the City Council heard presentations from public health experts discussing statewide public health trends and secondhand smoke in dispensaries.

On November 19, 2024, the City Council adopted an Ordinance 2024-0044 amending Title 5 concerning business regulations for cannabis consumption lounges with the direction to return with an ordinance addressing the geographical inequities of consumption lounges across Council districts, as well as the ability for call-up review process for cannabis consumption lounges.

On April 8, 2025, the Committee forwarded an ordinance limiting the number of lounges per district to address the geographical inequities and removing the call-up review process of cannabis businesses so that it will occur earlier in the overall process through the conditional use permit process.

On September 16, 2025, the City Council adopted Ordinance 2025-00916 relating to the call-up provision in Title 5 and adopted Resolution 2025-0252, a "First-In-Line" process to authorize a storefront cannabis dispensary permittee to operate a cannabis consumption lounge.
