SUBJECT: Resolution Approving Negative Declaration for IMPROVEMENTS TO LAND PARK - PARCOURSE

SUMMARY

The Environmental Coordinator has reviewed the subject project and finds that it will not have a significant adverse effect on the physical environment and therefore recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with State EIR Guidelines for Implementation of the California Environmental Quality Act of 1970, dated December, 1976, an Initial Study was performed. As a result of this study, it was determined that the IMPROVEMENTS TO LAND PARK - PARCOURSE would not have a significant adverse effect on the physical environment and a draft Negative Declaration was prepared. On February 15, 1980, the Negative Declaration was filed with the County Clerk. On February 16, 1980, Notice of Opportunity for Public Review of the draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for receipt of comments regarding the Negative Declaration, with no comments having been received.

RECOMMENDATION

The Environmental Coordinator recommends that the attached resolution be passed which will:

1. Determine that the proposed project will not have a significant effect on the environment.
2. Approve the Negative Declaration
3. Approve the project.
4. Authorize the Environmental Coordinator to file a Notice of Determination with the County Clerk.

a. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	—	—	X

c. Does the project have impacts which are individually limited, but cumulatively considerable? (A project may impact on two or more separate resources where the impact on each resource is relatively small, but where the effect of the total of those impacts on the environment is significant.)	—	—	X
d. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	—	—	X

111. DISCUSSION OF ENVIRONMENTAL EVALUATION (any "yes" or "maybe" answers must be explained - attached additional sheets if necessary)

13 a. THE INCREASE IN INTEREST AS A RESULT OF INSTALLING THE PARCOURSE MIGHT CAUSE AN INCREASE IN DEMAND FOR PARKING.

13 d. THE ONLY CHANGE THAT COULD RESULT FROM THE PARCOURSE INSTALLATION WOULD BE THE INCREASE IN FOOT TRAFFIC FOR PERSONS USING THE FACILITY.

14 d. THE INSTALLATION OF THE PARCOURSE WILL RESULT IN A SLIGHT INCREASE IN PARK MAINTENANCE.

18. THE EIGHTEEN (18) STATIONS OF THE PARCOURSE MIGHT DISRUPT THE VIEW OF NEARBY RESIDENTS.

19. THE INSTALLATION OF THE PARCOURSE WILL INCREASE THE QUANTITY AND QUALITY OF THE RECREATIONAL OPPORTUNITIES IN LAND PARK.

IV. Mitigation measures proposed to minimize environmental impacts for the project as identified above. (Explain in detail - if none, so state)

13 a. THE PARKING CAPACITY AT LAND PARK WILL BE ABLE TO HANDLE THE INCREASED DEMAND.

13 d. NONE.

14 d. NONE. THE INCREASE IN MAINTENANCE WORK WILL BE ABSORBED BY THE PRESENT WORK FORCE.

18. THE CLOSEST STATION TO A RESIDENTIAL HOME WILL BE 200 FEET AWAY. ALSO THE STATIONS WILL BE LOCATED SO THAT EXISTING TREES AND SHRUBBERY WILL SCREEN THE STATIONS FROM VIEW.

19. NONE.

V. Alternatives to the project which would produce less of an adverse impact on the environment (lower density, less intense land use, move building on site, no project, et cetera)

1. MOVE PARCOURSE TO A DIFFERENT LOCATION. LAND PARK IS THE ONLY PARK IN THE CITY SYSTEM LARGE ENOUGH TO ACCOMMODATE A FULL SIZE PARCOURSE. OTHER LOCATIONS WITHIN LAND PARK WOULD SERIOUSLY INTERFERE WITH OTHER RECREATIONAL OPPORTUNITIES OFFERED IN THE PARK, THE FLOW OF VEHICULAR TRAFFIC ON THE STREETS IN THE PARK, OR WOULD HAVE A GREATER IMPACT ON THE NEIGHBORING RESIDENTS.
2. NO PROJECT. DELETION OF THE PROJECT WOULD ELIMINATE THE PARCOURSE FROM THE INVENTORY OF RECREATIONAL OPPORTUNITIES OFFERED BY THE CITY OF SACRAMENTO. CURRENTLY, IN THE CITY, THERE ARE SEVERAL THOUSAND PERSONS WHO RUN FOR EXERCISE. THE PARCOURSE OFFERS THEM AN OPPORTUNITY TO RUN AND LOOSEN AND STRETCH MUSCLES IN PROPER SEQUENCE TO OBTAIN THE BEST POSSIBLE RESULTS FROM RUNNING.

VI. DETERMINATION

On the basis of this initial study:

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described in IV above have been added to the project or the possibility of a significant effect on the environment is so remote as to be insignificant.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT IS REQUIRED.

On the basis of this initial study:

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described in IV above have been added to the project or the possibility of a significant effect on the environment is so remote as to be insignificant.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT IS REQUIRED.
