Honorable Members In Session:

**SUBJECT: Sacramento River Water Treatment Plant Modification (PN:ZA26) -  
Resolution Approving Negative Declaration**

SUMMARY

The Environmental Coordinator finds that this project will not have a significant adverse effect on the physical environment and, therefore, recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with the State EIR Guidelines for implementation of the California Environmental Quality Act of 1970, dated June 1986, an initial study was performed. As a result of this study, it was determined that the Sacramento River Water Treatment Plant Modification (PN:ZB26) would not have a significant adverse effect on the physical environment, and a Draft Negative Declaration was prepared.

March 25, 1987 the Negative Declaration was filed with the County Clerk. On May 9, 1987 Notice of Opportunity for Public Review of the Draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for comments regarding the Negative Declaration with no comments having been received.

The Sacramento River Water Treatment Plant will be modified to provide capability for higher flow rates through the plant. The increase will be accomplished within the plant itself by eliminating hydraulic restrictions and altering system processes.

Resolution Approving Negative Declaration

RECOMMENDATION

The Environmental Coordinator finds that this project will not have a significant adverse effect on the physical environment and, therefore, recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with the State EIR Guidelines for implementation of the California Environmental Quality Act of 1970, dated June 1973, an initial study was performed. As a result of this study, it was determined that the Sacramento River Water Treatment Plant Modification (PW:2226) would not have a significant adverse effect on the physical environment, and a Draft Negative Declaration was prepared.

On March 23, 1937 the Negative Declaration was filed with the County Clerk. On May 9, 1937 Notice of Opportunity for Public Review of the Draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for comments regarding the Negative Declaration with no comments having been received.

The Sacramento River Water Treatment Plant will be modified to provide capability for higher flow rates through the plant. The increase will be accomplished within the plant itself by eliminating hydraulic restrictions and airtight system processes.
