

Petition to Protect Senior Care Programs at Hart Senior Center

Sacramento, California

The Hart Senior Center serves as Sacramento's **primary and only** senior center for adults age 50 and older. Operated by the City's Youth, Parks & Community Enrichment Department, Hart provides essential programs that promote healthy aging, physical wellness, social connection, and lifelong learning for Sacramento's senior population.

In recent years, Sacramento has taken pride in supporting programs that allow older adults to remain active, independent, and engaged in the community. Hart Senior Center has played a central role in fulfilling that commitment.

Due to proposed 15% budget reductions, there is concern that staff positions at Hart Senior Center may be eliminated. These reductions could represent approximately half of the center's staff and may lead to reduced operating hours and cuts to important senior services.

Programs at Hart serve a wide range of seniors—including individuals in their 60s through their 90s—and include social programs, educational opportunities, and specialized programs that support the health and well-being of Sacramento's older adults. **These services depend on trained staff who ensure programs operate safely and effectively.**

While Hart benefits from the dedication of many volunteers, **volunteers cannot replace the experience, consistency, and accountability provided by professional staff.** Volunteers play a valuable role, but they support—not substitute for—the staff required to sustain these programs.

We believe the Hart Senior Center should not bear the brunt of staffing reductions or service cuts in **a city that has publicly and proudly expressed pride in supporting its senior community.**

We respectfully request that the Sacramento City Council Budget Committee:

- Protect staffing at the Hart Senior Center
- Avoid reductions in operating hours or senior services
- Ensure that senior care programs remain fully supported

Maintaining these services allows Sacramento's seniors to remain healthy, independent, and active participants in the community.
