☒ Please keep me informed

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately \$207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, I support this urban infill project.

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately \$207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, as a resident of the [City of Sacramento East Sacramento/Midtown], I support this urban infill project.
