No, commissions, you are not just about the animals- that would be the former commissioners that you harassed out. What you are about is ego. You have harassed the staff for years. These speeches are so disingenuous. And so uninformed. And you came here tonight and once again, did not listen. No, Commissioner Bagley, you are the one with the ego. You should be ashamed of yourself. Bullying another manager, who was honest and open and held an olive branch to you. You absolutely have turned people against the shelter
Zero self awareness from these privileged seats, bought with money and connections. Gross.

This is beyond painful. These ladies do not understand that their job is not to manage the shelter. It's been explained ad-naseum.

The conflicts of interest on this commission are troubling. The new commission members are hyper-fixated on getting euthanasia lists and euthanasia details, so they can fundraise off of it. They constantly submit PRA requests for records on animals but those don't tell the story they want, so they want the shelter to put it into buckets for them, to use it as a weapon. I thought the commission was supposed to HELP the shelter...? They are serving their own agendas and the commission should just be disbanded. Its been completely politicized. They don't seem to understand that there aren't enough homes for large breed dogs with behavioral and medical issues. Further concerning is how some of the new commissioners are partnered with sketchy rescues, who abandon dogs in boarding or with hoarders. Perhaps they should apply for the shelter director job. But they still won't get what they are demanding. Stop wasting tax payer money. No one is going to want to work at the shelter.

The stats for the shelter are on the shelter's website. That might be a good place to direct the public. The commission should familiarize themselves where to find information, so they aren't reliant on others and can provide information to the public.

This is unbelievable. Why do they not understand?! They don't listen! Their job is not to write policy or advise city staff on the law or work with contractors. You have one serving a cease and desist? When they are serving on a commission that they clearly have not read the purpose of is. The commission changed and became political and all of the professionals were removed. If they feel they are more qualified, then they should apply for jobs with the city. NONE of this is helping the animals of front street. The people giving speeches are brand new to the commission and have not even tried to relationship-build with the staff. Perhaps they should go to city council and ask for additional headcount for the shelter to just deal with them. They have come in to this role with zero curiosity and zero good will. They are just repeating the same things, that ignore the reality of the situation, that they have over and over. They just want to hear themselves talk. I have not heard them discuss one thing that is relevant to the scope of the commissions work. Perhaps the attorney should explain it again.

I believe if you go back through old meetings, the topic of quarterly versus monthly euthanasia stats was discussed. It was decided to do quarterly numbers at that time, although I don't recall the rationale.

Wow. Did this woman really say that the staff who has years of experience working in animal welfare does admin work, while they, with their experience of donating to politicians to obtain their role, is very busy and need to get to their role of making decisions. LoL. Embarrassed for all of them. Their entitlement is showing.
