Honorable Members In Session:

**SUBJECT: Riverside Terrace Street Lighting Assessment District (JN:1920) - Resolution
Approving Negative Declaration**

SUMMARY

The Environmental Coordinator finds that this project will not have a significant adverse effect on the physical environment and, therefore, recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with the State EIR Guidelines for implementation of the California Environmental Quality Act of 1970, dated June 1986, an initial study was performed. As a result of this study, it was determined that the Riverside Terrace Street Lighting Assessment District project would not have a significant adverse effect on the physical environment, and a Draft Negative Declaration was prepared.

On September 29, 1988, the Negative Declaration was filed with the County Clerk. On October 1, 1988, Notice of Opportunity for Public Review of the Draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for comments regarding the Negative Declaration with no comments having been received.

The project will install street lights in an area of the City which currently has no lights, but is surrounded by areas that are adequately lighted.
