Honorable Members in Session:

SUBJECT: APPROVAL OF SUPPLEMENTAL AGREEMENT NO. 2 TO CITY AGREEMENT NUMBER 2003-147 FOR CONSULTANT AND PROFESSIONAL SERVICES WITH VENTURI TECHNOLOGY PARTNERS TO PROVIDE CUSTOMER INFORMATION SYSTEM (CIS) QUALITY ASSURANCE PROGRAM SERVICES

LOCATION: Citywide

RECOMMENDATION:

This report recommends that the City Council authorize the City Manager to execute Supplemental Agreement Number 2 to City Agreement 2003-147 with Venturi Technology Partners to extend the services for Napoleon Gladney as Customer Information System (CIS) Quality Assurance Program services from the period of May 31 through November 12, 2004. The supplemental agreement is for an amount not to exceed \$73,920 with total hours not to exceed 40 hours per week.

CONTACT PERSON: Gustavo Vina, CIS Project Sponsor, 808-7138

FOR THE COUNCIL MEETING OF: June 8, 2004

SUMMARY:

In December 2002, the City Council approved the procurement of a new Utility Billing Customer Information System (CIS) - PeopleSoft CIS. The implementation of the new CIS system began in May 2003. This report recommends approval to extend the Professional Services Agreement with Venturi Technology Partners for Quality Assurance Program services provided by Napoleon Gladney. This extension would raise the contract value from \$117,040 to \$190,960. These services are required for a successful implementation of CIS.

COMMITTEE/COMMISSION ACTION: None Required

①

BACKGROUND INFORMATION:

In December 2002, City Council approved vendor agreements for the procurement and implementation of a new Utility Billing/Customer Information System, PeopleSoft CIS. In February 2003, City Council approved procurement of the required new computer hardware. The computer hardware and application software has been ordered, received and installed. In May 2003, City staff and the PeopleSoft CIS implementation vendor, SPL, began process analysis workshops to determine the final product configuration. The development of the test plans to test the PeopleSoft CIS software configuration began in July 2003. From November 2003 through January 2004, the CIS Project went through a project transition phase to address problems and issues. In April 2004, City Council approved additional appropriation in order to complete the project.

Beginning September 2003, Venturi Technology Partners provided consulting services related to the conversion of the data from the Utility Billing Customer Information System (UCIS) from an ADABAS database to the PeopleSoft Customer Information System (CIS) running off an Oracle database. Venturi Technology Partners has provided consulting services in development of FOCUS software programs to extract data from UCIS and the creation of extract file(s) processes loading from UCIS to CIS.

The principal consultant, Napoleon Gladney continues to provide support in all phases of the Conversion Acceptance Testing, including adjustments or changes necessary to ensure that the City's migration of UCIS to PeopleSoft CIS is implemented successfully, and on time. As a key member of the conversion team, Napoleon Gladney's knowledge and experience in the UCIS and PeopleSoft CIS data conversion is essential to the success of the project. Given Napoleon Gladney's past performance and experience, the CIS Project Team, with the consensus of the Project Management Team, recommends that the City contract with Venturi Technology Partners for Quality Assurance Program services related to the implementation of the new CIS System be extended.

FINANCIAL CONSIDERATIONS:

The total costs for this Supplemental Agreement Number 2 is \$73,920. The funding is currently available in the Capital Improvement Program Budget – Project AB61-CIS Project. No additional funding is required.

ENVIRONMENTAL CONSIDERATIONS:

Ongoing administrative and maintenance activities, which are not made from purposes of a public work construction project, do not constitute a project and are exempt from

the California Environmental Quality Act (CEQA), CEQA Guidelines, Sections 15061 (b) (1), 153778(b) (3).

POLICY CONSIDERATIONS:

This recommendation is in conformance with the goals, objectives, initiatives and operating principles of the City's Information Technology Strategic Plan. In particular, it is in accordance with Goal #1, Improve Technical Infrastructure, the successful implementation of the new CIS Project will result in improved customer service for all City residents. Providing improved, timely customer service to all residents of the City is in accordance with the City Council's vision that the City of Sacramento is the city of choice to live, learn, work and play.

The action requested is consistent with Chapter 3.64 of the Sacramento City Code and existing policy regarding professional services agreements.

ESBD CONSIDERATIONS:

Venturi Technology Partners is not a certified ESBD firm. If further services are required for this project, an effort will be made to attempt to identify ESBD firms.

Respectfully submitted,

Gus Vina, Director
Finance Department

RECOMMENDATION APPROVED:

Robert P. Thomas
City Manager
