

## Ideas and Questions

### 12.0 COUNCIL IDEAS AND QUESTIONS

12.1 Councilman Kastanis requested the Agency staff to put together a process for reviewing development projects in the redevelopment portion of the R Street Corridor. Such a process would have the Agency serving in the lead role on any projects in that area, with both the Redevelopment Commission and Planning Commission making recommendations on such projects to the Council after full public hearings by each commission and reports by each of the respective staffs. It was further requested that John Molloy report back to Council at the August 27th meeting with a procedure for accomplishing this task.
