Good afternoon City of Sacramento representatives,

Our client Samuel Nikki Buckles remains on the streets (7 months now clean and sober), and has survived at least 3 police sweeps. We recovered his gear all three times and have helped as much as we can.

Despite many inquiries, Mather nor any other agency has been able to place this man who is struggling with other serious health conditions that can be best addressed once stabilized in housing.

I along with our coalition partners intimately understand the severity of this housing crisis and extreme weather conditions. We appreciate your response or feedback on these questions;

1. Based on the Governor's recent Executive order? What is your plan for the thousands more who are facing displacement from homeless encampments? Especially the disabled and elderly. Will there be ADA accommodations upon request?
2. Once displaced, Can you please elaborate on where the unhoused are going to go For basic necessities?
3. Is there an emergency response (OES) shelter plan in place? Especially during our well known and regular extreme weather patterns.

Thank you for your time and leadership,

Herman Barahona

On behalf of CLTRE, I am writing to express our support for the SACOG Engage, Empower and Implement (EEI) program. If funded, EEI will provide an opportunity for the city and community based organizations to continue our partnerships and build upon existing work. Specifically, EEI will allow us to build upon the Forward Together action plan for the Marysville-Del Paso Blvd. Since its adoption in April of this year, it's important that we don't lose momentum on identifying additional resources and investments for implementation.

We recognize that if funded, this proposal will also benefit South Sacramento and Gardenland/Northgate. CLTRE is excited to work with each group in this collaborative to achieve healthy thriving neighborhoods throughout Sacramento.

We applaud the city's eagerness to engage in this work. Thank you.

Mayor and Council Members, Please reconsider allowing the Rio City cafe to close due to lack of repair and maintenance by the City. Just direct your city manager to find the money. There are plenty of programs to support new businesses, and an obscene amount of money for consultants to help business districts and infrastructure projects. Why can't those funds be redirected to a business that has served the city and paid their taxes for 30 years? Just recently you approved \$500,000 for helping new businesses. that's a start. Rio City Cafe deserves your support. Thank you.
