Honorable Members In Session:

Subject: REQUEST FOR NEW POSITION TO SERVE AS
CONSTRUCTION CONTRACT ADMINISTRATOR

SUMMARY

The attached report recommends that one position of Construction Contract Administrator be created in the Facility Development Section of the Facility Management Division. The position will perform the function of administering the CIP construction contracts and thereby free-up Architects and Engineers to concentrate on planning and designing the numerous CIP projects awaiting availability of such personnel.

RECOMMENDATION

It is recommended that the City Council adopt the attached resolution creating the position of Construction Contract Administrator with funding coming from the CIP projects it will be working on.

Respectfully submitted,

Frank Mugartegui
Director of General Services

Recommendation Approved:

for: Walter J. Slipes, City Manager

RESOLUTION NO. 90-253

APPROVED
BY THE CITY COUNCIL

ADOPTED BY THE SACRAMENTO CITY COUNCIL

APR 3 1990

ON DATE OF April 3, 1990

OFFICE OF THE
CITY CLERK

**RESOLUTION CREATING A POSITION OF
CONSTRUCTION CONTRACT ADMINISTRATOR**

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF SACRAMENTO:

1. That one position of Construction Contract Administrator be created in the Facility Development Section of the Facility Management Division; and
2. That the FY 89-90 budget for the Facility Development Section be amended to increase it by \$8,200 (101-190-1938-4101) and that it be funded from the CIP labor reimbursement account (101-190-1938-4710).

Honorable Members In Session:

SUBJECT: REQUEST FOR NEW POSITION TO SERVE AS
CONSTRUCTION CONTRACT ADMINISTRATOR

SUMMARY

This report requests that a new position with contract administration skills be authorized, for the Facility Development Section of the Facility Management Division, to free the Architects and Engineers from contract preparation, negotiation and administration to do the planning and design work for which they are trained.

BACKGROUND

The Facility Development Section of the Facility Management Division is responsible for the planning, design and construction of the City's new and remodeled buildings. The number of such building and remodeling projects has increased in recent years to where the Project Managers (Architects and Engineers) have been forced to delay projects because of the amount of paperwork involved in writing and administering contracts which is not the best use of their skills and time. Each delay increases the ultimate cost of the project.

In FY 86-87, the Facility Development Section was responsible for the planning, design and construction or remodeling of 53 projects. Today, they are involved in 99 projects valued at \$9.9 million. Adding to that are 55 future construction projects valued at an estimated \$94.7 million scheduled to begin shortly. Contract administration is very time consuming, involving soliciting proposals from consultants followed by countless meetings to negotiate formal contracts; preparing bid documents and conducting pre-bid conferences with contractors; analyzing bids for base price, discounts, payment terms, etc.; preparing the reports for Council action; evaluating requests for contract modifications ("Change Orders"); assisting in negotiating the final prices and then preparing the necessary paper work to implement them.

ANALYSIS

More effective and efficient use of professional employees' time and talents is necessary if the City is to meet the deadlines of the numerous CIP projects and control their costs. Hiring a Construction Contract Administrator would increase the efficiency of the Capital Improvement Project operation.

FINANCIAL DATA

The proposed new position should be priced at approximately the same level as an Administrative Services Officer, \$49,199 (with fringe benefits) a year; however, this determination cannot be made until the Personnel Department has made its review. Since all of the position's time would be charged to CIPs, there would be no effect on the General Fund.

POLICY CONSIDERATIONS

The primary consideration is whether the City should, at this time, hire an individual to administer the CIP construction contracts. The alternative is to continue the current practice of using Architects and Engineers to perform this task.

MBE/WBE EFFORTS

None.

RECOMMENDATION

Staff recommends that the Budget and Finance Committee approve this request and forward it to the City Council for approval of the attached resolution creating a Construction Contract Administrator in the Facility Development Section with funding coming from the various CIP projects.

Respectfully submitted,

Frank Mugartegui
Director of General Services
