Honorable Members in Session:

SUBJECT: Resolution Approving Negative Declaration for Demolition
of Structure at 816 20th Street

SUMMARY:

The Environmental Coordinator has reviewed the subject project and finds that it will not have a significant adverse effect on the physical environment and therefore recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND:

In accordance with State EIR Guidelines for Implementation of the California Environmental Quality Act of 1970, dated December 1976, an Initial Study was performed. As a result of this study, it was determined that the Demolition of Structure at 816 20th Street would not have a significant adverse effect on the physical environment and a draft Negative Declaration was prepared. On May 1, 1981 the Negative Declaration was filed with the County. On May 6, 1981 Notice of Opportunity for Public Review of the draft Negative Declaration was published in The Sacramento Union. The appropriate length of time has elapsed for receipt of comments regarding the Negative Declaration, with no comments having been received.

RECOMMENDATION:

The Environmental Coordinator recommends that the attached resolution be passed which will:

1. Determine that the proposed project will not have a significant effect on the environment.
2. Approve the Negative Declaration.

111. DISCUSSION OF ENVIRONMENTAL EVALUATION (any "yes" or "maybe" answers must be explained - attached additional sheets if necessary)

1b. REMOVAL OF BUILDINGS WILL RESULT IN SOME LANDFILL AND REGRADING OF SOIL.

6a. THE NOISE LEVEL OF THE AREA WILL INCREASE TEMPORARILY DURING THE DEMOLITION.

12. THE DEMOLITION OF THE STRUCTURE WILL ELIMINATE ONE RESIDENTIAL STRUCTURE.

20. THE STRUCTURE TO BE DEMOLISHED IS A PRIORITY STRUCTURE, BUT IS NOT LOCATED IN A PRESERVATION AREA. THE BUILDING, BY REASON OF MATERIALS OF CONSTRUCTION, OBSOLESCENCE, DILAPIDATED CONDITION, DETERIORATION, DAMAGE, AND ELECTRICAL WIRING, IS IN SUCH CONDITION AS TO BE A FIRE HAZARD AND DANGER TO THE PUBLIC HEALTH AND SAFETY, AND IS SO SITUATED AS TO ENDANGER LIFE OR OTHER BUILDINGS OR PROPERTY IN THE VICINITY AND PROVIDE A FUEL SUPPLY TO AUGMENT THE SPREAD AND INTENSITY OF A FIRE ARISING FROM ANY CAUSE. THE BUILDING IS UNOCCUPIED AND OPEN TO TRANSIENTS OR MINORS AND, THEREFORE, CONSTITUTES A SERIOUS FIRE AND HEALTH HAZARD. IN VIEW OF THE ABOVE FACTS, THE STRUCTURE SHOULD BE DEMOLISHED TO ELIMINATE THE PUBLIC HEALTH AND SAFETY HAZARD.

IV. Mitigation measures proposed to minimize environmental impacts for the project as identified above. (Explain in detail - if none, so state)

THE MATTER WAS BROUGHT BEFORE THE HISTORIC PRESERVATION BOARD ON SEPTEMBER 8, 1980. THE BOARD REQUESTED A DELAY OF SIX MONTHS BEFORE DEMOLITION TO ALLOW TIME TO FIND A POTENTIAL DEVELOPER TO RENOVATE THE STRUCTURE. THE SIX MONTHS PERIOD OF TIME HAS NOW ELAPSED AND NO DEVELOPER DESIRING TO RENOVATE THE STRUCTURE HAS BEEN FOUND.

6

V. Alternatives to the project which would produce less of an adverse impact on the environment (lower density, less intense land use, move building on site, no project, et cetera)

NO PROJECT - THE STRUCTURE WILL CONTINUE TO DETERIORATE AND WILL
REMAIN A HAZARD TO HEALTH AND SAFETY.

Multiple horizontal lines for handwritten notes.

VI. DETERMINATION

On the basis of this initial study:

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described in IV above have been added to the project or the possibility of a significant effect on the environment is so remote as to be insignificant.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT IS REQUIRED.
