Honorable Members in Session:

SUBJECT: Resolution Approving Negative Declaration for Southside Residential Permit Parking Program

SUMMARY:

The Environmental Coordinator has reviewed the subject project and finds that it will not have a significant adverse effect on the physical environment and therefore recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND:

In accordance with State EIR Guidelines for Implementation of the California Environmental Quality Act of 1970, dated December 1976, an Initial Study was performed. As a result of this study, it was determined that the Southside Residential Permit Parking Program would not have a significant adverse effect on the physical environment and a draft Negative Declaration was prepared. On May 19, 1982 the Negative Declaration was filed with the County Clerk. On May 22, 1982 Notice of Opportunity for Public Review of the draft Negative Declaration was published in The Sacramento Union. The appropriate length of time has elapsed for receipt of comments regarding the Negative Declaration, with no comments having been received.

RECOMMENDATION:

The Environmental Coordinator recommends that the attached resolution be passed which will:

1. Determine that the proposed project will not have a significant effect on the environment.
2. Approve the Negative Declaration.
3. Approve the project.

iii. DISCUSSION OF ENVIRONMENTAL EVALUATION (any "yes" or "maybe" answers must be explained - attached additional sheets if necessary)

13b. The program will prohibit commute parking on the effected street. It will be necessary for approximately 1,300 vehicles to find alternate parking or other means of transportation.

13c. Some of the users of the 1,300 vehicles may opt to use public transportation.

13d. Implementation of this program may result in individuals traveling to other areas of the City to park.

14e. There will be a minor increase in maintenance requirements to cover the use of parking signs.

14f. There will be an increase in parking control enforcement in the covered area.

IV. Mitigation measures proposed to minimize environmental impacts for the project as identified above. (Explain in detail - if none, so state)

None

- V. Alternatives to the project which would produce less of an adverse impact on the environment (lower density, less intense land use, move building on site, no project, et cetera)

No project. The area residents are currently prevented from parking in the neighborhood because of the presence of non-residential vehicles. No project would result in this situation continuing.

VI. DETERMINATION

On the basis of this initial study:

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described in IV above have been added to the project or the possibility of a significant effect on the environment is so remote as to be insignificant.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT IS REQUIRED.
