PLANNING DIRECTOR'S SPECIAL PERMIT MODIFICATION
(P93-040)

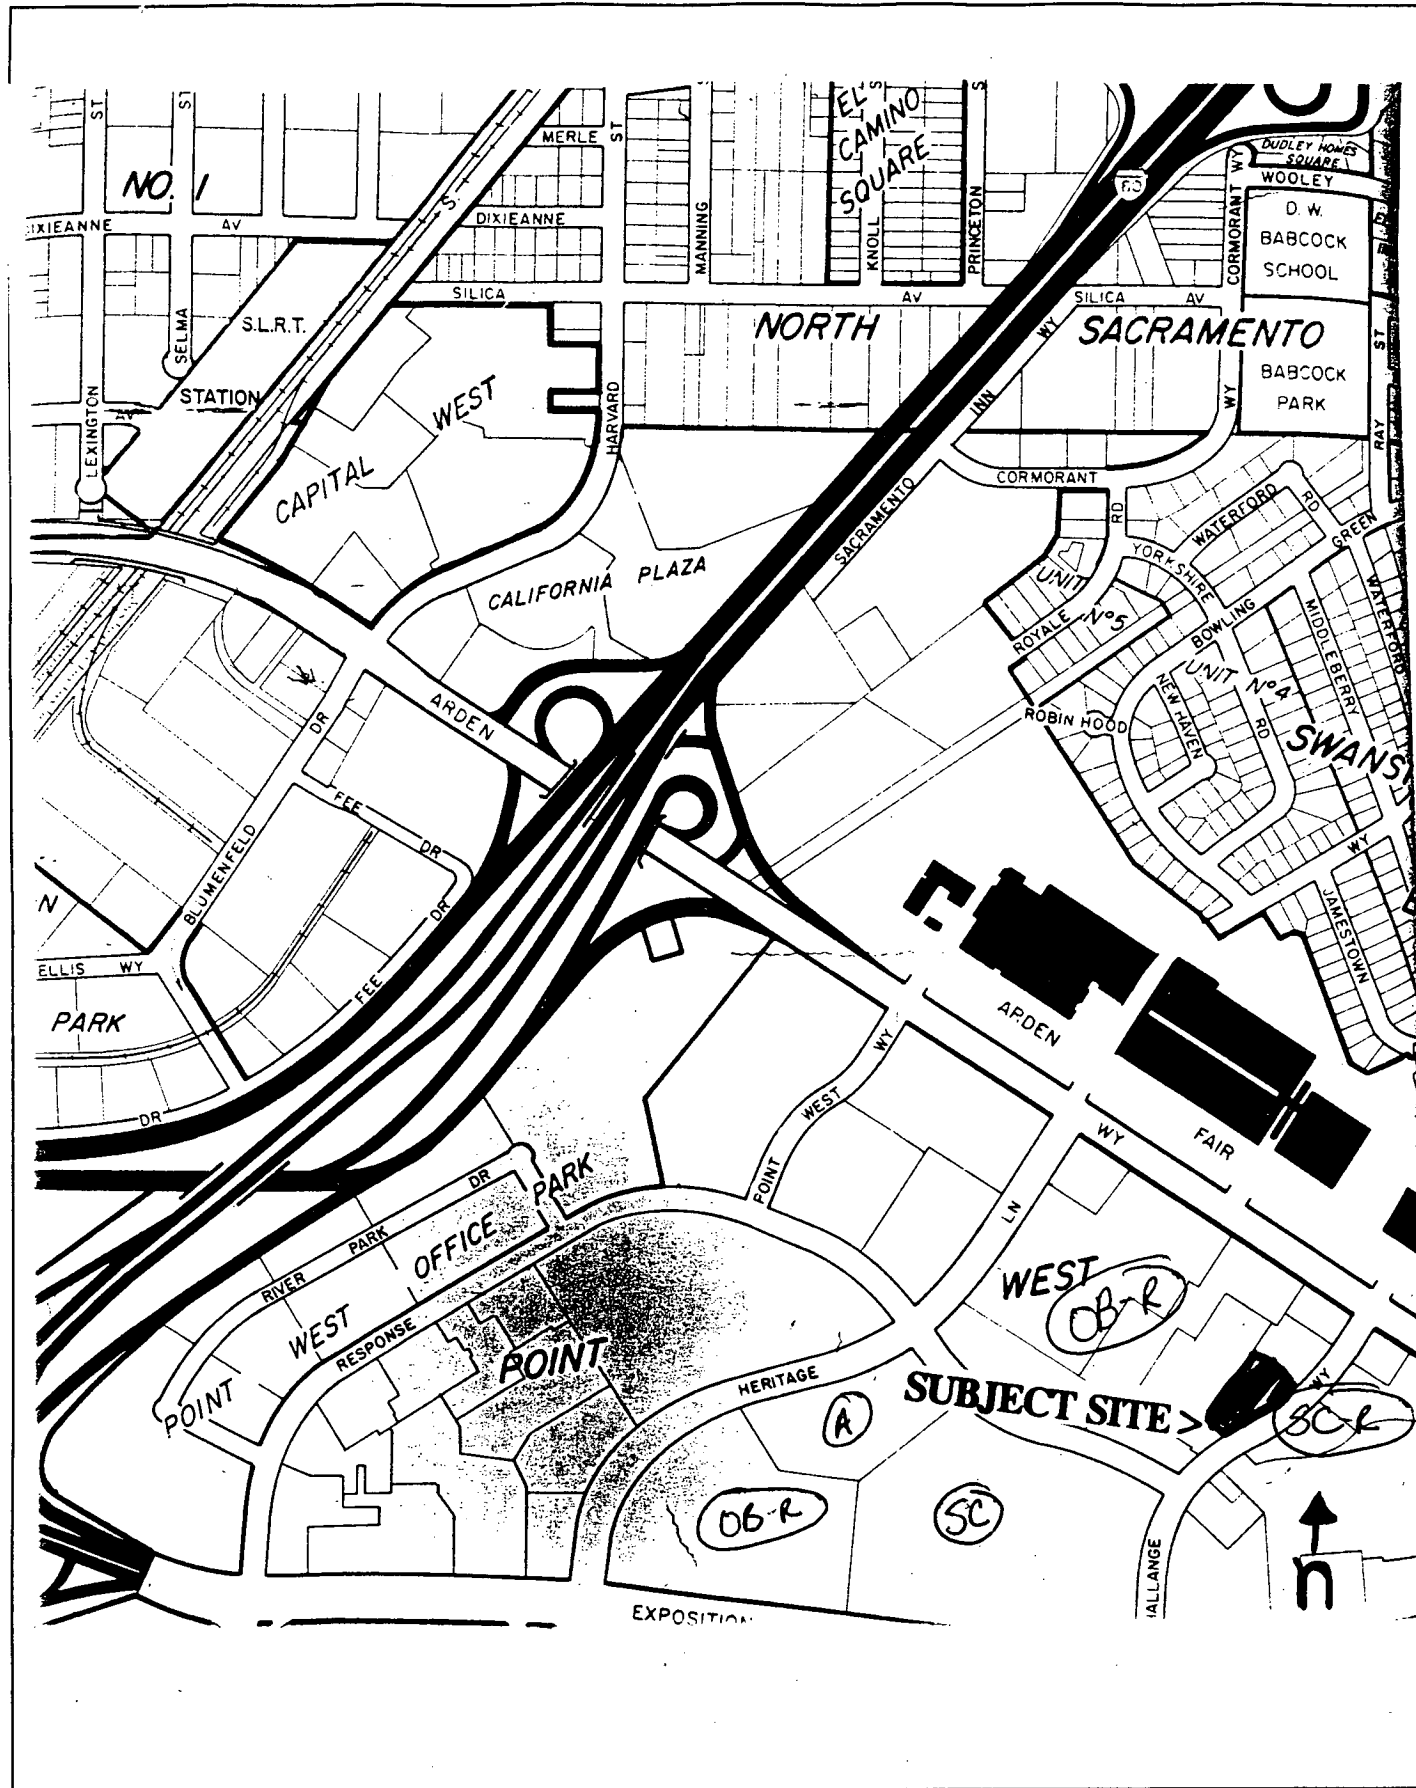

APPLICATION: Planning Director's Special Permit Modification to modify the exterior of an existing retail building in the Point West Planned Unit Development and General Commercial (C-2) (PUD).

LOCATION: Chuck E. Cheese Restaurant, 1690 Arden Way
(APN: 277-0272-012)

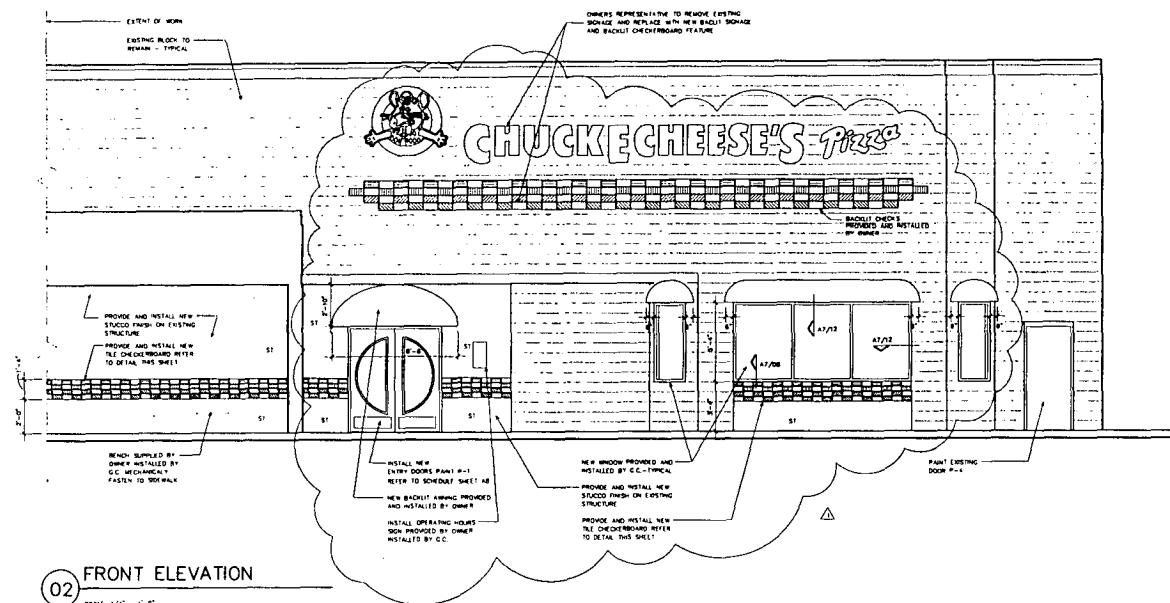

BACKGROUND INFORMATION: On June 12, 1980, the City Planning Commission approved a Schematic Plan Amendment to increase the office and retail square footage and to eliminate a racquetball facility at the site. A Special Permit to develop 15,390± sq. ft. of offices and 30,780 sq. ft. of retail uses was also approved. Chuck E. Cheese restaurant is one of the uses located in the retail square footage on the site.

STAFF ANALYSIS: The applicant is requesting a special permit modification for the replacement of two existing doors, the addition of two side light windows next to the entry doors, the addition of a new awning over the entry door, and the addition of tile accents to the building exterior. Staff has received a letter from the Point West Area Business Association which states they are in favor of the project as long as it conforms to the Point West Area Guidelines and the CC&R's. Staff has reviewed the guidelines and, except for the signage, the proposal complies with the PUD Guidelines.

APPLICATION NO. P93-040

SCALE: 3/4" = 1'-0"

GENERAL NOTES:

- All new interior finishes must carry a One Hour Flame Spread rating.
- All new glazing shall conform to Safety Glazing requirements of applicable building code.
- Panic hardware must be provided on all exit doors. All exits must be able to be opened from the inside without use of a key or any special knowledge or effort.
- Lighted exit signs must be provided at each exterior door and as necessary to direct exit travel.
- All HVAC is existing and no new HVAC equipment is being added.
- General Contractor is required to meet with ShowBiz Pizza Time, Inc. technicians to review games layout and compressed air requirements.
- General Contractor is to provide and install gypsum board at any area where wall covering has been removed or surface has been damaged.
- General Contractor is to match the height of existing doors and field verify door sizes and finish before ordering.
- NOT USED.
- General Contractor to match existing finishes, color and texture when matching existing items.
- General Contractor is to provide temporary lighting in any area where light fixtures have been removed for operations of next day usage.

RE: Chuck E. Cheese Facade Renovation, 1690-96 Arden Way

Dear Ms. Cabodi:

I am the Chairman of the Point West Area Business Association Area Environment & Government Relations Committee. On behalf of the Association, I am writing to advise you that we support the proposed facade renovation on the above-referenced project. Provided the contemplated renovations conform to the Point West Area Guidelines and CC&R's, we have no objection to this investment in our neighborhood. I trust you will make sure that those guidelines and design criteria are being conformed to.

Please be advised that we have specifically not made comments on the contemplated interior renovations, as we do not believe that is any of our business. We do appreciate the confidence in our neighborhood that this business operator is demonstrating, and we hope you will assist them to facilitate this renovation. If you have any questions or comments, I can be reached at (916) 929-0262.

Very truly yours,

Mark D. Hefner
