BE IT RESOLVED BY THE COUNCIL OF THE CITY OF SACRAMENTO AS FOLLOWS:

SECTION 1.

Sec. 38.27 of the Sacramento City Code hereby is amended to read as follows:

Sec. 38.27 Same--Requirements.

Before issuing an excavation permit, the city engineer shall require:

(a) A written application for such permit, upon a form to be furnished by the city engineer, to be made and filed with the city engineer, wherein the applicant shall set forth the following:

1. the name and residence or business address of the person making such application;
2. the location and approximate area of the excavation; and,
3. the purpose of the excavation.

The applicant shall attach to the application form a plan showing the location of the proposed excavation, the dimensions thereof, and such other details as the city engineer may require to be shown upon such plan.

At the time the permit is issued, a nonrefundable fee in an amount established by resolution of the City Council shall be paid, provided, however, that in any case where the city engineer determines the fee to be inappropriate based on the amount of work to be done to process the application, or for other good cause shown, the city engineer may waive the fee, in whole or in part. No fees shall be charged for excavation permits for power poles.

Notwithstanding the foregoing, excavation by legally authorized utilities for service connections or for the location of trouble in conduits or pipes shall be according to Section 38.38 of this article.
