City Council
Sacramento, California

Honorable Members in Session:

SUBJECT: Approval of Plans and Specifications for Water Main Replacement
in 23rd Avenue, Freeport Boulevard to Larson Way

SUMMARY

The Division of Water and Sewers has prepared plans and specifications for the subject project. Copy of said plans and specifications has been forwarded to the City Clerk and approval is recommended.

BACKGROUND

The steel water mains located in easements along 23rd Avenue which were installed in the 1940's are in an deteriorated condition. During the last several years it has been necessary for City maintenance personnel to make an excessive number of repairs to these badly deteriorated mains. Because of excessive maintenance cost, these water mains should be replaced.

FINANCIAL DATA

This project is included in the 1979-80 Water Distribution Capital Improvement Budget. Estimated construction cost is \$56,000.00. The amount budgeted is \$60,000.00 (4-13-3030-1512-4820).

RECOMMENDATION

It is recommended that the plans and specifications be approved and that bids be received on January 20, 1981.

Respectfully submitted,

Harry G. Behrens
Manager

Recommendation approved:

Walter J. Slipes
City Manager
