Plans must be submitted

John J. Macy

Owner or Owner's Representative.

1. The first step in the process of identifying a problem is to define the problem clearly and precisely.

2. The second step is to identify the causes of the problem and the factors that contribute to it.

3. The third step is to identify the stakeholders who are affected by the problem and who have an interest in its solution.

4. The fourth step is to identify the resources that are available to address the problem.

5. The fifth step is to identify the possible solutions to the problem and to evaluate their feasibility and effectiveness.

6. The sixth step is to select the best solution and to develop a plan of action to implement it.

7. The seventh step is to implement the plan and to monitor the progress of the solution.

8. The eighth step is to evaluate the results of the solution and to make adjustments as needed.

9. The ninth step is to communicate the results of the solution to the stakeholders.

10. The tenth step is to reflect on the process and to learn from the experience.

11. The eleventh step is to document the process and the results of the solution.

12. The twelfth step is to share the results of the solution with others who may be facing a similar problem.

13. The thirteenth step is to continue to monitor the situation and to make adjustments as needed.

14. The fourteenth step is to evaluate the overall impact of the solution and to make adjustments as needed.
