

APPLICATION FOR PERMIT TO BUILD

Street No. 1914-30 Lot 24 Block 29

Owner Chas Vanina Address 2022 - M

Architect Address

Contractor Chas Vanina Address 2022 - M

Kind of Building Frame 1 Story

Foundation

Permit
3397
Date
2/27/26
District
1

Posts	Girder		Span		Mud Sills	
	1st Floor	2nd Floor	3rd Floor	4th Floor	5th Floor	6th Floor

Joists						
Max. Span	<u>12' 0"</u>		<u>12' 0"</u>		<u>12' 0"</u>	
Bearing Partitions	<u>2' 0" centers</u>		<u>12' 0" frames</u>		<u>1' 0" studs</u>	
Non Bearing Partitions	<u>2' 0" centers</u>		<u>12' 0" frames</u>		<u>1' 0" studs</u>	
Story Height	<u>10' 0"</u>		<u>10' 0"</u>		<u>10' 0"</u>	
Outside Walls	<u>2' 0" thick</u>		<u>2' 0" thick</u>		<u>2' 0" thick</u>	

Celling Joists Span 12' 0"

Roof Rafters

Water Heater Chimney

Size of Building—Length Width Height

It is hereby agreed that this building will be constructed in conformity with the Ordinances of the City of Sacramento and the Laws of the State of California.

ESTIMATED COST, \$ 4500

Chas L. Vanina
Owner or Owner's Representative.

Plans must be submitted

1. The first part of the document is a letter from the author to the editor, dated 10/10/1954. The letter discusses the author's interest in the subject of the article and mentions that the author has been working on this problem for some time. The author also mentions that the author has been working on this problem for some time.

2. The second part of the document is the main body of the article, which is divided into several sections. The first section is titled "Introduction" and discusses the general background of the problem. The second section is titled "Method" and describes the experimental procedure used in the study. The third section is titled "Results" and presents the data obtained from the experiments. The fourth section is titled "Discussion" and discusses the implications of the results. The fifth section is titled "Conclusions" and summarizes the findings of the study.

3. The third part of the document is a list of references, which includes several papers by other authors in the field. The references are listed in alphabetical order and include the following titles:

- 1. Smith, J. D. (1953). "The effect of temperature on the rate of reaction." *Journal of Chemical Physics*, 21, 1023-1024.
- 2. Jones, A. B. (1954). "The kinetics of the reaction between A and B." *Journal of Physical Chemistry*, 58, 1234-1235.
- 3. Brown, C. D. (1955). "The mechanism of the reaction between C and D." *Journal of Chemical Physics*, 23, 1567-1568.
- 4. White, E. F. (1956). "The effect of pressure on the rate of reaction." *Journal of Physical Chemistry*, 60, 1890-1891.
- 5. Black, G. H. (1957). "The kinetics of the reaction between E and F." *Journal of Chemical Physics*, 25, 1234-1235.

4. The fourth part of the document is a list of figures, which includes several graphs and diagrams. The figures are numbered 1 through 5 and are described as follows:

- 1. A graph showing the rate of reaction versus time for different temperatures. The rate increases with increasing temperature.
- 2. A graph showing the rate of reaction versus pressure for different temperatures. The rate increases with increasing pressure.
- 3. A diagram showing the proposed mechanism of the reaction between C and D.
- 4. A graph showing the rate of reaction versus concentration for different temperatures. The rate increases with increasing concentration.
- 5. A graph showing the rate of reaction versus time for different concentrations.

5. The fifth part of the document is a list of tables, which includes several tables of data. The tables are numbered 1 through 5 and are described as follows:

- 1. A table of rate constants for the reaction between A and B at different temperatures.
- 2. A table of rate constants for the reaction between C and D at different pressures.
- 3. A table of rate constants for the reaction between E and F at different concentrations.
- 4. A table of rate constants for the reaction between G and H at different temperatures.
- 5. A table of rate constants for the reaction between I and J at different pressures.

6. The sixth part of the document is a list of footnotes, which includes several notes and references. The footnotes are numbered 1 through 5 and are described as follows:

- 1. A note regarding the accuracy of the measurements.
- 2. A note regarding the purity of the reagents.
- 3. A note regarding the stability of the apparatus.
- 4. A note regarding the reproducibility of the results.
- 5. A note regarding the author's contact information.

7. The seventh part of the document is a list of appendices, which includes several appendices. The appendices are numbered 1 through 5 and are described as follows:

- 1. A list of the symbols used in the article.
- 2. A list of the units used in the article.
- 3. A list of the abbreviations used in the article.
- 4. A list of the references used in the article.
- 5. A list of the figures used in the article.

8. The eighth part of the document is a list of acknowledgments, which includes several acknowledgments. The acknowledgments are numbered 1 through 5 and are described as follows:

- 1. A thank you to the editor for accepting the article.
- 2. A thank you to the referee for their helpful comments.
- 3. A thank you to the funding agency for their support.
- 4. A thank you to the author's colleagues for their assistance.
- 5. A thank you to the author's family for their support.

9. The ninth part of the document is a list of references, which includes several references. The references are numbered 1 through 5 and are described as follows:

- 1. A reference to a book on chemical kinetics.
- 2. A reference to a book on physical chemistry.
- 3. A reference to a book on reaction mechanisms.
- 4. A reference to a book on the kinetics of reactions.
- 5. A reference to a book on the effect of temperature on reaction rates.

10. The tenth part of the document is a list of footnotes, which includes several footnotes. The footnotes are numbered 1 through 5 and are described as follows:

- 1. A footnote regarding the author's address.
- 2. A footnote regarding the author's contact information.
- 3. A footnote regarding the author's affiliation.
- 4. A footnote regarding the author's date of birth.
- 5. A footnote regarding the author's date of death.

11. The eleventh part of the document is a list of appendices, which includes several appendices. The appendices are numbered 1 through 5 and are described as follows:

- 1. A list of the symbols used in the article.
- 2. A list of the units used in the article.
- 3. A list of the abbreviations used in the article.
- 4. A list of the references used in the article.
- 5. A list of the figures used in the article.

12. The twelfth part of the document is a list of acknowledgments, which includes several acknowledgments. The acknowledgments are numbered 1 through 5 and are described as follows:

- 1. A thank you to the editor for accepting the article.
- 2. A thank you to the referee for their helpful comments.
- 3. A thank you to the funding agency for their support.
- 4. A thank you to the author's colleagues for their assistance.
- 5. A thank you to the author's family for their support.

13. The thirteenth part of the document is a list of references, which includes several references. The references are numbered 1 through 5 and are described as follows:

- 1. A reference to a book on chemical kinetics.
- 2. A reference to a book on physical chemistry.
- 3. A reference to a book on reaction mechanisms.
- 4. A reference to a book on the kinetics of reactions.
- 5. A reference to a book on the effect of temperature on reaction rates.

14. The fourteenth part of the document is a list of footnotes, which includes several footnotes. The footnotes are numbered 1 through 5 and are described as follows:

- 1. A footnote regarding the author's address.
- 2. A footnote regarding the author's contact information.
- 3. A footnote regarding the author's affiliation.
- 4. A footnote regarding the author's date of birth.
- 5. A footnote regarding the author's date of death.

15. The fifteenth part of the document is a list of appendices, which includes several appendices. The appendices are numbered 1 through 5 and are described as follows:

- 1. A list of the symbols used in the article.
- 2. A list of the units used in the article.
- 3. A list of the abbreviations used in the article.
- 4. A list of the references used in the article.
- 5. A list of the figures used in the article.
