APPLICATION: Modification of a variance to allow an identification sign for an existing restaurant use

LOCATION: Southwest corner of 18th Avenue and Franklin Boulevard

BACKGROUND INFORMATION: On December 1, 1988, the Planning Commission approved a variance (P88-439) to locate 34 required parking spaces off-site for an existing restaurant. The off-site parking is on 0.4+ developed acres in the General Commercial (C-2) zone.

PROJECT EVALUATION: The applicant is requesting to modify the variance in order to allow a 30 square foot, 12 foot high identification sign on the parking lot site. According to the sign ordinance, off-site signs are not allowed in the C-2 zone. Planning staff has, however, determined that both the off-site parking lot and the proposed signage are primary uses for the restaurant adjacent to the site (see exhibit). The off-site parking lot, which is immediately across the street, is owned by the restaurant owner. The applicant was required, as a condition of the original variance, to record on a grant deed that the parking lot cannot be sold or transferred independent of El Novillero Restaurant. Staff determined that the identification sign will not require a Planning Commission approval but will require a parking variance modification.

The proposed sign will be illuminated with burgundy vinyl and white letters. There are currently no existing signs on the parking lot. The proposed signage will clearly identify the restaurant parking for patrons. The applicant has agreed to not put any additional freestanding signs on the restaurant lot or the parking lot site for identification of the restaurant.

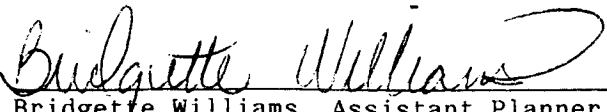

STAFF RECOMMENDATION: The request is a minor modification to the original variance. Staff recommends approval of the variance modification subject to the following conditions:

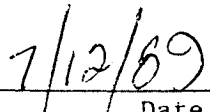

1. No additional monument or pole signs shall be constructed on the off-site parking lot or the restaurant lot.
2. Attached signage proposed on the restaurant site shall be subject to staff review prior to issuance of sign permits.

P88-439 7/12/89

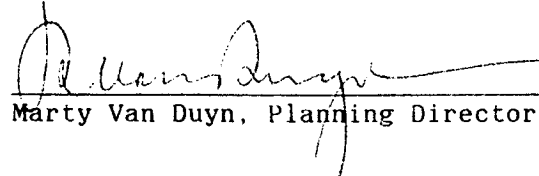

3. The applicant shall obtain a sign permit prior to construction of the proposed sign. No sign permit shall be issued prior to staff approval of the recordation of prohibiting the sale or transferring of the parking lot on the grant deed.
4. The applicant shall adhere to the conditions of the original variance.
