- This project is Phase 7 of an ongoing program to replace water distribution mains in the North Sacramento area.
- The project consists of replacing 3,400 linear feet of undersized and dilapidated water distribution mains and appurtenances in four streets.
- The project will improve the water system reliability and pressure in North Sacramento.
- Bids were received from six contractors as follows:

| Contractor | Bid Amount |
|--------------------------------|-------------------|
| Civil Engineering Construction | \$369,800 |
| Navajo Pipeline | \$406,930 |
| Florez Paving | \$425,122 |
| T & S Construction | \$465,385 |
| Jaeger Construction | \$471,396 |
| Ahlstrom Construction | \$550,940 |

- The engineer's estimated construction cost was \$488,000.
- The estimated completion date is August 2002.

FINANCIAL CONSIDERATIONS

The total estimated project cost including design, construction, inspection and contingency is \$600,000 based on the bid of \$369,800. As of May 2, 2002, the unobligated balance available for this project (413-500-ZI06-4820) is \$723,590, which is sufficient for award and completion.

ENVIRONMENTAL DETERMINATION

The Planning Services Division, Environmental Section, has reviewed the project and has determined that this project is categorical exempt from CEQA under Section 15302 of the CEQA Guidelines.
