Honorable Members in Session:

SUBJECT: Rio Linda Blvd. Bridge at Linda Creek - Consultant Services Agreement
(PN:TC26/JN:7908)

SUMMARY

A Consultant Services Agreement is proposed between Bruce Fraser & Associates, Inc. and the City to provide design services for the rehabilitation of Rio Linda Blvd. Bridge at Linda Creek. Authorization to execute the agreement is recommended.

BACKGROUND

The Rio Linda Blvd. Bridge was constructed in 1932. Since that time traffic conditions and the physical condition of the bridge have changed considerably. There have also been several accidents on this bridge due to its narrow width (21 feet). The Federal Highway Administration administers a bridge rehabilitation program which provides 80% Federal funding. This bridge has been included on their funding priority list and authorization to proceed with design has been given. It is anticipated that construction will proceed later in 1987.

FINANCIAL

This project is included in the Fiscal Year 1986/1987 Public Works Budget in the amount of \$50,000 of which \$48,000 is remaining. The agreement is for a not-to-exceed amount of \$37,774. If it is determined that a detour is required, an additional \$10,175 is included in the contract for design making a total of \$47,949. Additional funds may be needed if a detour is required.

RECOMMENDATION

It is recommended that the City Council approve the Consultant Services Agreement between the City and Bruce Fraser & Associates, Inc. and authorize the City Manager and City Clerk to execute the agreement by passage of the attached Resolution.

Respectfully submitted,

for 
THOMAS M. FINLEY
Engineering Division Manager
