Vision

The project aims to create and maintain a sense of belonging, safety, and inclusivity for current and future residents. The plan aspires to establish equitable access to civic amenities, incorporate sustainability, and provide economic opportunity for the surrounding communities.

Goals

- Achieve sense of place through the provision of multi-sport youth recreation facilities, cultural centers, little libraries, farmers markets, local small businesses, open spaces, plazas, and art installations
- Provide equitable development through affordable housing, improved transportation, community gardens, and tree equity
- Promote sustainability through integrated on-site education and design
- Provide safety design features
- Create opportunities for inclusive economic development
- Promote health and wellness through open space and multi-sport youth recreation facilities
